Acknowledgements

This report was prepared by the African Trade Policy Centre (ATPC) of the Economic Commission for Africa (ECA) and the Agence Française de Développement (AFD). It was written by Lily Sommer, Economic Affairs Officer, ECA, Geoffroy Guepie, economist and consultant, ECA, Gaëlle Balineau, economist and project officer, AFD regional office for Eastern Africa, and Virginie Faure, Consultant, AFD, under the overall guidance and supervision of David Luke, Coordinator of ATPC at ECA. We would like to thank Simon Mevel-Bidaux, Economic Affairs Officer, ECA, for comments and discussions that have substantially informed the report, and Jane Karonga, Economic Affairs Officer, ECA, for her contribution to the ECA pharmaceutical initiative.

Note: *This report is part of the memorandum of understanding signed between the AFD and the ECA in December 2019, in which the two institutions have undertaken to collaborate on various themes including Economic Integration, Trade, and Structural Transformation.*

About the Economic Commission for Africa

The mandate of ECA is to promote the economic and social development of its member States, foster intraregional integration and promote international cooperation for the development of Africa. Composed of 54 member States and playing a dual role as a regional arm of the United Nations and a key component of the African institutional landscape, ECA is well-positioned to make unique contributions to the development of Africa.

The strength of ECA is derived from its role as the only United Nations agency mandated to operate at the regional and subregional levels to harness resources and bring them to bear on African priorities. The thematic areas of ECA focus on: macro-economic policy; regional integration and trade; social development; natural resources; innovation and technology; and gender and governance.

To enhance its impact, ECA places particular emphasis on: collecting up-to-date and original regional statistics in order to base its policy research and advocacy on clear, objective evidence; promoting policy consensus; providing meaningful capacity development; and providing advisory services to African governments, intergovernmental organizations and institutions in key thematic fields. It also formulates and promotes development assistance programmes and acts as the executive agency for relevant operational projects. As a specialized unit of ECA, the African Trade Policy Centre (ATPC) supports the efforts of member States and regional economic communities by enhancing their capacity to formulate and implement sound trade policies and participate more effectively in trade negotiations at all levels. To this end, the Centre is engaged in policy research, capacity-building, technical assistance and advocacy.

About the Agence Française de Développement

The Agence Française de Développement (AFD) Group implements France's policy on development and international solidarity.

Comprised of AFD, which finances the public sector and NGOs; Proparco, which finances the private sector; and soon, Expertise France for technical cooperation, the Group finances, supports and accelerates transitions towards a more resilient and sustainable world.

We are building shared solutions with our partners. Our teams are active in more than 4,000 projects in the field, in the French overseas departments and some 115 countries, including areas in crisis.

We strive to protect the common good – promoting peace, biodiversity and a stable climate, as well as gender equality, health and education. It's our way of contributing to the commitment that France and the French people have made to fulfil the Sustainable Development Goals. Towards a world in common.
