Table of Contents

Acknowledgements.....	viii
Abbreviations and acronyms.....	ix
Introduction	xi
1. About the study.....	xi
2. Research methodology.....	xii
3. Structure of the report.....	xiii
Part I – Setting the Scene	1
1. Introduction.....	1
2. Contribution of science, technology and innovation to economic growth	2
3. Transforming Africa’s economies.....	6
3.1 Vital importance of economic transformation	6
3.2 Structural change and economic diversification	7
3.3 National systems of innovation and competitiveness of African economies.....	9
4. Science, technology and innovation profiles	14
4.1 What are Science, technology and innovation profiles?	14
4.2 STI profiles and measurement.....	15
4.3 Overview of country STI profiles	18
5. Towards a methodological framework for country STI readiness reports.....	24
References – Part I	25
Part II – Methodological framework for country science, technology and innovation readiness reports in Africa.....	32
1. Introduction.....	33
2. Criteria for the review of economic and innovation performance	34
3. STI indicators and measurement procedures	35
4. Criteria for the review of country STI policies	39
5. Criteria for the identification and review of STI initiatives.....	40
6. Reporting country STI readiness	41
Annexes	
Annex I. Technology deployment index: measuring country technology absorption capacity.....	48
Annex II Questionnaire for the survey of country STI projects and programmes.....	56
References – Part II	64

Part III – Policy research report.....	72
--	----

III.A – Pilot study –Nigeria - Science, technology and innovation readiness/ STI profile: Nigeria.....	73
---	----

1. Review of economic and innovation performance.....	73
1.1 Introduction.....	73
1.2 Economic growth performance.....	77
1.3 Private and public investments.....	81
1.4 Structure of the economy.....	82
1.5 Export performance.....	85
1.6. Foreign direct investments and technology spillovers.....	90
1.7. Informal sector performance.....	92
2. Review of science, technology and innovation policies.....	94
2.1 Features of the Nigerian STI policy.....	94
2.2. STI sectoral policies and industrialization strategy.....	96
3. STI actors’ competences and capacity to innovate.....	98
3.1 Science base and structure of investments in scientific activities.....	98
3.2 Business R&D and innovation activities.....	99
3.3 Technological learning experiences and opportunities.....	100
4. STI actors’ interactions.....	101
4.1 Factors promoting interaction and innovation opportunities.....	101
4.2 Barriers to interaction.....	103
4.3 Clusters and knowledge flows.....	105
5. Human resources for innovation.....	105
5.1 Education and training systems.....	105
5.2 Employment, skills and lifelong learning.....	108
5.3 Inclusive innovation and innovation culture.....	109
6. STI policy governance.....	110
6.1 STI policy institutions and governance structure.....	110
6.2 Roles of multi-level and multi-actor governance.....	112
7. STI investment profiles and prospects.....	113

References – Part III.A.....	116
------------------------------	-----

III.B – Pilot study – Kenya - Science, technology and innovation readiness/ STI profile: Kenya.....	119
--	-----

1. Review of economic and innovation performance.....	119
1.1 Introduction.....	119
1.2 Economic growth performance.....	122
1.3 Structure of the economy.....	128
1.4 Technological sophistication of production.....	129
1.5 Export performance.....	130
1.6 Foreign direct investment and technological spillovers.....	133
1.7 Informal sector performance.....	134
1.8 Inclusive innovation and growth performance.....	136

2. Review of science, technology and innovation policies	137
2.1 Features of Kenyan STI policy	137
2.2 Local and international dimensions of the STI policy	138
2.3 STI sectoral policies and industrialization strategy	140
3. STI actors' competences and capacity to innovate.....	142
3.1 Science base and structure of investments in scientific activities.....	142
3.2 Business R&D and innovation activities.....	144
4. STI actors' interactions	146
4.1 Factors promoting interaction and new opportunities.....	146
4.2 Barriers to interaction	149
4.3 Clusters and knowledge flows.....	149
5. Human resources for innovation	151
5.1 Education and training system	151
5.2 Employment, skills and lifelong learning.....	153
5.3 Inclusive innovation and innovation culture.....	153
6. STI governance	155
7. STI investment profiles and prospects.....	157

List of Tables

Table I. 1	Definitions of NSI and the nature of innovation in focus	10
Table I. 2	R&D intensity, 2004 and 2014, European Union and selected countries.....	18
Table I. 3	R&D expenditure as percentage of GDP, selected regions and countries 2002-2015.....	21
Table II.1	STI input indicators	36
Table II. 2	STI output indicators.....	38
Table II.A1	Patent applications by selected countries (2003-2016)	50
Table II.A2	Imports of capital goods by selected African countries	52
Table IIIA. 1	Nigeria's key economic performance indicators, 1999 - 2016.....	76
Table IIIA. 2	Trends in Nigeria's macroeconomic indicators	78
Table IIIA. 3	Nigeria's macroeconomic indicators (average annual growth rates).....	79
Table IIIA. 4	Sectoral growth summary for 2015 and 2016.....	81
Table IIIA. 5	Structure of production.....	83
Table IIIA. 6	Sector composition of merchandise exports and export diversification.....	88
Table IIIA. 7	Trends in infrastructure-related indicators of STI actors' interaction.....	102
Table IIIA. 8	Expansion and ownership of Nigerian universities 1960-2017	106
Table IIIA. 9	Selected indicators of human resources for innovation in 2015 or latest	107
Table IIIA.10	Development partners in Nigeria and their activities	113
Table IIIB. 1	Kenya's key economic performance indicators	121
Table IIIB. 2	Trends in Kenya's macroeconomic indicators	123
Table IIIB. 3	Kenya's macroeconomic indicators (average annual growth rates).....	124
Table IIIB. 4	Distribution of Kenya's added value, by sector, 2000 to 2015 (% of GDP)	126
Table IIIB. 5	Value of Kenya's total exports by destination, 2008-2015 (KSh million).....	131

Table III.B. 6	High-technology exports (per cent of manufactured exports)	133
Table III.B. 7	Type and number of TIVET institutions in Kenya	143
Table III.B. 8	Staff of the Ministry of Science and Technology	144
Table III.B. 9	Trends in infrastructure-related indicators of STI actors' interaction	147
Table III.B.10	Selected indicators of human resources for innovation in 2015 or latest	152

List of Figures

Figure I.I	R & D expenditure in China and the Republic of Korea (percentage of Gross Domestic Product), 2000-2015	4
Figure I.II	Real gross domestic product growth rates in selected African countries, 2007-2014.....	8
Figure I.III	Trends in the number of scientific and journal articles published in selected developing countries, 2005-2014	22
Figure I.IV	Foreign direct investment inflows, selected African countries, 2005-2015 (in millions of United States dollars).....	23
Figure II.I	Pillars of country STI readiness and their input and output indicators	42
Figure IIIA.I	Trends in gross domestic product, population and gross domestic product per capita, 1990-2015	80
Figure IIIA.II	Trend in private and public gross domestic investment, 1980 to 2004 (% GDP)	82
Figure IIIA.III	Trends in sectoral distribution of employment, 1980 to 2008.....	85
Figure IIIA.IV	High-technology exports in 2012 (in millions of United States dollars)	86
Figure IIIA.V	High-technology exports as percentage of manufactured exports in 2014.....	87
Figure IIIA.VI	Technology classification of exports	88
Figure IIIA.VII	Composition of imports by end-use, 1996 to 2014 (per cent of total imports).....	89
Figure IIIA.VIII	Major agricultural export commodities of Nigeria.....	90
Figure IIIA.IX	Nigeria FDI net inflows, 2000 to 2015 (per cent of GDP	91
Figure IIIA.X A	Proportions of oil and non-oil FDI, 1999-2006	92
Figure IIIA.X B	Proportions of oil and non-oil FDI, 2009-2016	92
Figure IIIA. XI	Educational expenditure and R&D intensity of selected countries in 2012	99
Figure IIIA. XII	Electric power consumption for selected countries (kWh per capita)	103
Figure IIIA. XIII	FDI inflows of selected countries in 2015.....	104
Figure III.B.I	Real GDP (in billions of United States dollars) and GDP per capita (1980-2015)	122
