The regulatory review of the electricity market of Ethiopia is a result of a continental initiative to crowd-in private sector participation in Africa's electricity market in collaboration with member States, in this case the Federal Democratic Republic of Ethiopia. In support of Ethiopia's on-going reform process in the electricity market, this review process enjoyed cooperation from the Ministry of Water and Energy, which was very valuable. The initiative is a result of partnership between the UN Economic Commission for Africa (ECA), through its SDG 7 finance initiative spearheaded by Dr. Vera Songwe, United Nations Under-Secretary-General and Executive Secretary of ECA, and the RES4Africa Foundation, through its Missing Link initiative spearheaded by Mr. Roberto Vigotti, Secretary General of RES4Africa Foundation. The Ethiopia regulatory review, under the guidance and technical contribution of Mr. Robert Lisinge, Chief of Section for Energy, Infrastructure, and Services of ECA, was led by Mr. Yohannes G. Hailu, energy policy expert of ECA, and by Mr. Andrea Renzulli, senior policy expert at RES4Africa, with technical and analytical contributions from Mr. Antonio Passero, Mr. Leonhard Braun, and Ms. Iarina Ciceu, and the participation of Ms. Cristiana Lisi from RES4Africa. The participation of Mr. Anthony Monganeli and Soteri Gatera of ECA, especially during report review and validation, is much appreciated.

The assembly of national policy and regulatory data necessary for objective regulatory review, as well as the draft country economic, energy sector, and regulatory context, was ably developed by Mr. Getahun Moges Kifle, Director General of the Ethiopian Energy Authority. The regulatory analysis was based on a large national regulatory and policy database, which was validated by energy experts from the Ministry of Water and Energy, Ethiopian Energy Authority, Ethiopian Electric Power, Ethiopia Electric Utility Company, and other institutions represented by the following sector leaders and experts: Mr. Shiferaw Telila; Mr. Wondwosen Teshome; Mr. Yeheyesh Eshetu; Mr. Andualem Siaie; Mr. Destalem Haile; Ms. Filagot Tesfaye; Mr. Chala Aman; Mr. Tesfaye Kassa Mekonnen; Mr. Bahru Oljira; Ms. Atsede G. Endegnanew; Mr. Mesfin Dabi; and Ms. Bizuwork Demissie.

The initiative received support, including publication logistics, from ECA Sub-Regional Office for Eastern Africa. The support of Director Mama Keita, Mr. Bernard Bamin, and Ms. Alphonsine Nyiransabimana is acknowledged. The technical and graphic design work by Epsilon Publishers Ltd, which has improved the quality of this publication, is acknowledged.

Acknowledgements	5
Executive Summary	9
1 Introduction	16
2 Country Overview	20
2.1 Macroeconomic overview	21
2.2 Electricity sector overview	23
2.3 Electricity sector governance and market structure	28
2.4 Policies and regulations governing the electricity supply industry	30
2.4.1 Key laws and regulation for the electricity supply industry	31
2.4.2 Other regulation for private sector participation	33
3 Analysis of Electricity Market Policy and Regulatory Framework	38
3.1 UNECA and RES4Africa methodological approach	38
3.2 Main findings of the regulatory review	41
3.2.1 Generation segment	41
3.2.2 Transmission segment	47
3.2.3 Distribution segment	51
3.2.4 Off-grid segment	55
4 Conclusions and Recommendations	62
4.1 Takeaways from the regulatory review	62
4.2 Recommendations	64
4.3 Way forward	68
References	70
Acronyms	72
Annexes	74
