This strategy is part of the European Union (EU) funded project: 'Deepening Africa's Trade Integration through Effective Implementation of the AfCFTA to support Economic Integration'. In 2019, UNECA led the implementation of a first phase project funded by the EU that aimed at deepening trade integration within and beyond the continent, through an effective implementation of the Agreement Establishing the AfCFTA. The EU granted a second tranche to run from 2020 to 2022 in order to: 1) advocate for the AfCFTA ratification and implementation by all African Union (AU) Member States; 2) to support in developing and operationalizing national strategies for effective implementation and monitoring of the AfCFTA; and 3) strengthen the capacity of national and regional stakeholders to implement the reforms needed for the AfCFTA to achieve its expected results.
