ACKNOWLEDGEMENTS

This publication has been prepared by Anatoli Molokovitch, Professor of the School of Business and Management of Technology of the Belarus State University.

The author worked under the guidance of, and benefited from significant author contributions from Francesco Dionori, Chief of Transport Networks and Logistics Section, Sustainable Transport Division, UNECE.

The author would like to thank the Ministry of Transport and Roads of the Kyrgyz Republic and all those who provided significant input and data for the preparation of this publication.

Information is current to September 2019.

UNITED NATIONS ECONOMIC COMMISSION FOR EUROPE (UNECE)

The United Nations Economic Commission for Europe (UNECE) is one of the five United Nations regional commissions, administered by the Economic and Social Council (ECOSOC). It was established in 1947 with the mandate to help rebuild post-war Europe, develop economic activity and strengthen economic relations among European countries, and between Europe and the rest of the world. During the Cold War, UNECE served as a unique forum for economic dialogue and cooperation between East and West. Despite the complexity of this period, significant achievements were made, with consensus reached on numerous harmonization and standardization agreements.

In the post-Cold War era, UNECE acquired not only many new member States, but also new functions. Since the early 1990s the organization has focused on analyses of the transition process, using its harmonization experience to facilitate the integration of Central and Eastern European countries into the global markets.

UNECE is the forum where the countries of Western, Central and Eastern Europe, Central Asia and North America - 56 countries in all - come together to forge the tools of their economic cooperation. That cooperation concerns economics, statistics, environment, transport, trade, sustainable energy, timber and habitat. The Commission offers a regional framework for the elaboration and harmonization of conventions, norms and standards. The Commission's experts provide technical assistance to the countries of South-East Europe and the Commonwealth of Independent States. This assistance takes the form of advisory services, training seminars and workshops where countries can share their experiences and best practices.

TRANSPORT IN UNECE

The UNECE Inland Transport Committee (ITC) facilitates the international movement of persons and goods by inland transport modes. It aims to improve competitiveness, safety, energy efficiency and security in the transport sector. At the same time it focuses on reducing the adverse effects of transport activities on the environment and contributing effectively to sustainable development. The ITC is a:

- Centre for multilateral transport standards and agreements in Europe and beyond, e.g. regulations for dangerous goods transport and road vehicle construction at the global level
- Gateway for technical assistance and exchange of best practices
- Promoter of multi-country investment planning
- Substantive partner for transport and trade facilitation initiatives
- Historic centre for transport statistics.

For more than six decades, ITC has provided a platform for intergovernmental cooperation to facilitate and develop international transport while improving its safety and environmental performance. The main results of this persevering and important work are reflected in more than 50 international agreements and conventions which provide an international legal framework and technical regulations for the development of international road, rail, inland water and intermodal transport, as well as dangerous goods transport and vehicle construction. Considering the needs of transport sector and its regulators, UNECE offers a balanced approach to and treatment of facilitation and security issues alike.

CONTENTS

List of figures.....	viii
List of tables	ix
1. Brief Analysis of the Economic Situation in Kyrgyzstan.....	1
1.1. Main indicators of the social and economic situation	1
1.2. Transport in Kyrgyzstan	6
2. Roads and Road Transport in Kyrgyzstan.....	17
2.1 Analysis of the state of the road sector	17
2.1.1 General information on roads.....	17
2.1.2. Characteristics of the road network	18
2.1.3. The international road network	21
2.1.4. Road safety.....	31
2.2 Analysis of road transport	32
2.2.1. Reform of road transport	32
2.2.2 Transport of goods by road.....	35
2.2.3. International transport of goods by road	38
2.2.4. Passenger transport by road	42
2.3. SWOT analysis of the road sector and of road transport.....	47
2.4. Recommendations	49
3. Rail Transport in Kyrgyzstan	53
3.1. Development of the railway sector	53
3.2. Transport of goods by rail	55
3.2.1. Transport of goods by rail in international traffic	57
3.3. Prospects for the development of the railway sector in the framework of the strategy for 2012-2020	59
3.4. SWOT analysis of the railway sector	62
3.5. Recommendations for the railway sector	63
4. Water Transport in Kyrgyzstan.....	65
4.1 State of water transport	65
4.2. Carriage of goods by water transport.....	65
4.3. SWOT analysis of the water transport sector	66
4.4. Recommendations for the development of water transport	67
5. Civil Aviation in Kyrgyzstan.....	69
5.1. Development and reform of civil aviation.....	69
5.2. Transport of passengers and cargo by air	74
5.3. Characteristics of airports.....	78
5.4. Characteristics of airlines	82
5.5. Air traffic control	84
5.6. Flight destinations	85
5.7. SWOT analysis of the state of civil aviation.....	86
5.8. Recommendations for the development of civil aviation	88

6. Logistics in Kyrgyzstan.....	89
6.1. General state of logistics	89
6.2. Location of transport and logistics centres (TLCs).....	91
6.3. Characteristics of free economic zones	93
6.4. SWOT analysis of the logistics sector	98
6.5. Recommendations for the development of logistics.....	100
7. Legislation in the Field of Transport	101
7.1 Study of the regulatory and legal framework for transport	101
7.2 Proposals for harmonization of the legislative framework for international freight transport.....	105
8. Proposals for the Development of Transport and Logistics in Kyrgyzstan....	109
8.1 Development of transit and logistics in Euro-Asian transport	109
8.2 Development of transit and logistics in Kyrgyzstan.....	111
9. Conclusions.....	117
Annex.....	121
The regulatory and legal framework for transport	121
References.....	127
