PRE-SME – Promoting Resource Efficiency in Small & Medium Sized Enterprises

Industrial training handbook

Acknowledgements

The Resource Kit on Promoting Resource Efficiency in SMEs (PRE-SME) is the product of a broad collaborative effort by a number of partner institutions. Such a broad exercise was made possible thanks to the generous financial support of the Norwegian Government. Regional workshops and test pilot implementation in Ethiopia and Vietnam were two key initiatives used as a platform for the development of the Resource Kit. In this context, we would like to recognise the important contribution that was made by the national government agencies, the two National Cleaner Production Centres (NCPCs), technical support institutions, individual experts and the industries that participated in these initiatives and provided significant feedback towards refining the content of the Resource Kit. Special recognition goes to the NCPCs and other regional technical organisations that participated in the Africa and the Asia-Pacific regional workshops, providing valuable contributions in reviewing the structure and content of the Resource Kit.

Besides the existing tools, guidelines and reference materials previously produced by UNEP and UNIDO, the kit has significantly benefited from materials produced by other international technical institutions working on related topics. The substantive and technical materials were developed by the *Association to Foster Recycling & Environmental Protection in Austria* (AREC) while the pedagogical and interactive structure of the kit was developed by the *Asia Society for Social Improvement and Sustainable Transformation* (ASSIST).

We would also like to thank Erica Allis, Cristina Battaglino, Liazzat Rabbiosi and the NCPCs of Vietnam and Ethiopia for providing many of the photographs included in this handbook.

Prepared by:

Johannes Fresner, AREC, Austria
Vladimir Dobes, AREC, Austria
Thomas Bürki, AREC, Austria
Christian Angerbauer, AREC, Austria
Katharina Tiefenbrunner, AREC, Austria

Supervision, technical editing and support:

Mr Desta Mebratu, UNEP/DTIE, France
Ms Cristina Battaglino, UNEP/DTIE, France
Mr Tomas Marques, UNEP/DTIE, France

Editors:

Ms Maura Dilley
Ms Cristina Battaglino

Design and Layout:

Phoenix Design Aid A/S, Denmark

Table of Contents

1	THE PRE-SME PROJECT	6
2	BASIC CONCEPTS	8
2.1	Resource Efficiency	9
2.2	Serious threats: Global warming, deforestation, water and resource scarcity	12
2.2.1	Global warming	12
2.2.2	Deforestation	13
2.2.3	Water security	13
2.2.4	Resource scarcity	14
2.2.5	Scarcity of raw materials and war	14
2.3	Life cycle analysis	15
2.4	Indicators for Resource Efficiency	15
2.4.1	Dematerialisation: Material intensity per unit of service	15
2.4.2	Decarbonisation: Carbon footprint	16
2.5	Cleaner Production	17
2.6	Safer Production for Hazardous Materials	17
2.7	Integrated Management Systems	18
2.8	Benchmarking	18
2.9	The Deming Cycle – Plan-Do-Check-Act (PDCA)	19
3	A MANAGEMENT APPROACH TO PRE-SME	20
3.1	A systematic approach to PRE-SME	21
3.2	Plan	21
3.3	Do	23
3.4	Check	26
3.5	Act	29
3.6	Overlaps in the thematic areas	29
3.7	Why Resource Efficiency is safe and profitable at the same time	29
4	DETAILED ASSESSMENT: WATER EFFICIENCY	32
4.1	WHAT: Problems related to water consumption of SMEs	33
4.1.1	Increasing demand for water	33
4.1.2	Water scarcity and unsustainable supply	33
4.1.3	Declining water quality	33
4.2	WHY: Water saving benefits for SMEs	34
4.3	HOW: Implement a water saving programme	36
4.4	CHECKLIST: Water saving	40
4.4.1	Transportation	40
4.4.2	Toilets/urinals	40
4.4.3	Taps/shower	40
4.4.4	Cleaning	41
4.4.5	Laundry	41
4.4.6	Canteen	41
4.4.7	Garden	41
4.4.8	Laboratory	41
4.4.9	Office	42
4.4.10	Water for cleaning and rinsing	42
4.4.11	Boiler	42
4.4.12	Steam system	42
4.4.13	Air conditioning	42
4.4.14	Cooling	42
4.4.15	Water treatment	43
4.4.16	Waste water treatment	43

Table of Contents

5	DETAILED ASSESSMENT: ENERGY EFFICIENCY	44
5.1	WHAT: Problems related to energy consumption in SMEs	45
5.2	WHY: Energy saving benefits for SMEs	47
5.3	HOW: Implement an energy efficiency programme	47
5.4	CHECKLIST: Energy saving.....	50
5.4.1	Domestic.....	50
5.4.2	Laboratory.....	51
5.4.3	Office.....	51
5.4.4	Drives.....	51
5.4.5	Light.....	51
5.4.6	Utilities.....	52
6	DETAILED ASSESSMENT: MATERIALS EFFICIENCY	54
6.1	WHAT: The challenge of sourcing raw materials for SMEs	55
6.2	WHY: Material saving benefits for SMEs	57
6.3	HOW: SMEs can improve their material efficiency.....	57
6.4	CHECKLIST: Materials efficiency	60
6.4.1	Dispatch materials.....	60
6.4.2	Domestic materials.....	60
6.4.3	Office materials	61
6.4.4	Storage materials	61
6.4.5	Utilities materials	61
6.4.6	Production materials.....	62
7	DETAILED ASSESSMENT: WASTE MINIMISATION	64
7.1	WHAT: Waste minimisation for SMEs.....	65
7.1.1	General definition.....	65
7.1.2	Definitions based on the quality of waste	65
7.1.3	Waste treatment technology sub-categories	65
7.2	WHY: Waste minimisation benefits for SMEs	66
7.2.1	Contaminated land	66
7.2.2	Waste concerns.....	66
7.2.3	Waste in numbers:	67
7.3	HOW: Conducting a waste minimisation programme in an SME	68
7.4	CHECKLIST: Waste minimisation.....	70
7.4.1	Dispatch waste.....	70
7.4.2	Domestic waste	70
7.4.3	Laboratory waste.....	70
7.4.4	Office waste.....	70
7.4.5	Production waste.....	70
7.4.6	Storage waste.....	71
8	DETAILED ASSESSMENT: CHEMICAL EFFICIENCY	72
8.1	WHAT: Main challenges for chemical efficiency in SMEs.....	73
8.2	WHY: Chemical efficiency benefits for SMEs.....	77
8.3	HOW: Establish a chemical management programme	77
8.4	CHECKLIST: chemical management	86
8.4.1	Domestic chemicals	86
8.4.2	Office chemicals.....	86
8.4.3	Storage of chemicals.....	86
8.4.4	Replacement of chemicals.....	87
9	BENCHMARKS	88
9.1	Benchmarks for the textile sector.....	90
9.2	Benchmarks for the leather sector.....	91
9.3	Benchmarks for paper production.....	93
9.4	Benchmarks for food and beverage.....	96
9.5	Benchmarks for dairies.....	98
9.6	Benchmarks for bread production.....	99
9.7	Benchmarks for tyre manufacturing.....	99
9.8	Benchmarks for metal manufacturing	99
9.9	Kitchen, office, sanitary use	100

Table of Contents

10 LAWS, REGULATIONS, AND STANDARDS	102
10.1 REACH	103
10.2 ROHS	103
10.3 WEEE	103
10.4 Kyoto protocol	104
10.5 ISO 9001	104
10.6 ISO 14001	104
10.7 OHSAS 18000	104
11 WORKSHEETS	106
- Inputs/outputs	107
- Flow analysis	111
- Energy analysis	112
- Risk assessment for hazardous materials	113
- Evaluation of options	116
- Resource Efficiency programme	117
- PRE-SME report template	118
12 REFERENCES / WEBSITES	124
12.1 References	125

13 ENGINEERING CALCULATIONS	130
13.1 Unit Conversions	131
13.2 Steam Tables of Water	133

List of Acronyms

BAT	Best Available Techniques	PEL	Permissible Exposure Limit
BEE	Bureau of Energy Efficiency	PER	Perchloroethylene
BLEVE	Boiling Liquid Expanding Vapour Explosion	PET	Polyethylene Terephthalate
BOD	Biochemical Oxygen Demand	PPE	Personal protective equipment
BREF	Best Available Techniques Reference Document	PPIC	Pollution Prevention Information Clearinghouse
CAS	Chemical Abstracts Service	PRE-SME	Promoting Resource Efficiency in SMEs
CDM EB	CDM Executive Board	RE	Resource Efficiency
CDM	Clean Development Mechanism	RECP	Resource Efficient and Cleaner Production
CER	Certified Emission Reduction	RoHS	Restriction of Hazardous Substances Directive
CFC	Chlorofluorocarbon	RTU	Roof Top Units
CFL	Compact Fluorescent Lamp	SME	Small and Medium Sized Enterprises
CHP	Combined Heat and Power System	SP	Safer Production
CNS	Central Nervous System	TCE	Trichlorethylene
COP/MOP	Conference of the Parties	TEWI	Total Equivalent Warming Index
CP	Cleaner Production	UNCED	United Nations Conference on Environmental and Development
ECHA	European Chemicals Agency	UNEP	United Nations Environment Program
EMS	Environmental Management System	UNFCCC/FCCC	United Nations Framework Convention on Climate Change
EU	European Union	UNIDO	United Nations Industrial Development Organisation
GHG	Green House Gases	USEPA	United States Environmental Protection Agency
GHS	Globally Harmonized System of Classification and Labelling of Chemicals	USGS	U.S. Geological Survey
GWP	Global Warming Potential	UVCE	Unconfined Vapour Cloud Explosion
HCFC	Hydrochlorofluorocarbons	VFD	Variable Frequency Drives
HDPE	High-density Polyethylene	VOC	Volatile Organic Compounds
HET	High-Efficiency Toilets	WEEE	Waste Electrical and Electronic Equipment
HFC	Hydro-Fluoro-Carbons	WWF	World Wide Fund for Nature
HID	High Intensity Discharge		
HVAC	Heating/Ventilation/Air Conditioning		
IEQ	Indoor Environment Quality		
IGEN	Indo-German Energy Programme		
ILO	International Labour Organization		
IPCC	Intergovernmental Panel on Climate Change		
IPPC	Integrated Pollution Prevention and Control		
IPTS	Institute for Prospective Technological Studies		
ISO	International Organization for Standardization
