ACKNOWLEDGEMENTS

This report was developed with the expert support from the University of Belize and the United Nations Environment Programme, Regional Office for Latin America and the Caribbean, as well as close to hundred experts representing the government service, members of the GEO Belize Technical Team, non-governmental organizations, community-based organizations and private sector. As a result, this important resource is the product of collective and coordinated efforts of all experts. Their active participation throughout the GEO process and their willingness to share their expertise and recommendations facilitated this success.

We are very grateful to: The Forest Department, Department of the Environment, Geology and Petroleum Department, The National Meteorological Service, The Statistical Institute of Belize, Ministry of Health, Ministry of Agriculture, Caribbean Community Climate Change Centre, Fisheries Department, Coastal Zone Management Authority and Institute, Belize Water Service Limited, Belize Audubon Society, Belize Tourism Board, The Nature Conservancy, Association of Protected Areas Management Organization, Belize Natural Energy, Wildlife Conservation Society, Healthy Reefs, Programme for Belize, The Belize Sugar Industry, PANTHERA, CATHALAC, World Resource Institute, World Wildlife Fund and many other institutions that collaborated with us in one form or the other.

Special thanks to the Production Team of the GEO Belize 2010 report:
