Disclaimer:

This document was prepared within the framework of the Nairobi Convention in consultation with its 10 Contracting Parties, namely the Governments of Comoros, France (La Réunion), Kenya, Madagascar, Mauritius, Mozambique, South Africa, Somalia, Seychelles and Tanzania. Other organizations that participated in the process of preparing this document include the following:

- Birdlife International
- Coastal Oceans Research and Development in the Indian Ocean (CORDIO)
- East African Wildlife Society (EAWLS)
- Food and Agriculture Organization (FAO) of the United Nations
- Forum of Academic and Research Institutions in the Western Indian Ocean (FARI)
- Global Environment Facility (GEF)
- UNEP's Global Programme of Action for the Protection of the Marine Environment from Land-based Activities Coordination Office (GPA)
- Indian Ocean Commission (IOC)
- Intergovernmental Oceanographic Commission of the United Nations Educational, Scientific and Cultural Organization (IOC-UNESCO)
- International Atomic Energy Agency (IAEA)
- International Maritime Organization (IMO)
- International Union for the Conservation of Nature (IUCN)
- New Partnership for Africa's Development (NEPAD)
- Southern African Development Community (SADC)
- The World Bank
- United Nations Development Programme (UNDP)
- United Nations Environment Programme (UNEP)
- United Nations Industrial Development Organization (UNIDO)
- Western Indian Ocean Marine Science Association (WIOMSA)
- Wetlands International
- Wildlife Conservation Society (WCS)
- World Wide Fund for Nature (WWF)

The contents of this document do not necessarily reflect the views and policies of UNEP or the GEF. The designations employed and the presentations do not imply any opinion whatsoever on the part of UNEP, the GEF, or any cooperating organization concerning the legal status of any country, territory, city or area, of its authorities, or of the delineation of its territories or boundaries.

Acknowledgements

Many regional and national institutions and organizations, as well as individual experts, participated in the preparation of this Strategic Action Programme (SAP) for addressing land-based activities and sources of degradation to the coastal and marine environment of the Western Indian Ocean (WIO) region. In this regard, we would like to extend our appreciation for the contributions received from the following:

The National Focal Point Institutions of the Nairobi Convention: the National Directorate of Environment and Forestry of Comoros (DNEF); the National Association for the Management of Marine Protected Areas (ANGAP) of Madagascar; the Ministry of Environment and National Development Unit of Mauritius (MENDU); the Ministry for the Coordination of Environmental Affairs of Mozambique (MICOA); the National Environment Management Authority of Kenya (NEMA); the Ministry of Environment, Natural Resources and Transport of Seychelles (MENRT); the Department of Environmental Affairs and Tourism of South Africa (DEAT); and the National Environment Management Council of Tanzania (NEMC). In particular, we would like to acknowledge the important contributions made by the National Focal Points and their respective national teams.

The members of the various Regional Task Forces established by the WIO-LaB Project operating within the framework of Nairobi Convention: the Regional Task Forces on Municipal Wastewater Management (MWWW), Physical Alteration and Destruction of Habitats (PADH), Water, Sediment and Biota Quality (WSBQ), Environmental Impact Assessment (EIA); and Legal and Technical Review (LTR). These Task Forces provided substantial contributions in the formulation of the Transboundary Diagnostic Analysis (TDA) as well as interventions that fed into the SAP.

The members of the TDA and SAP Drafting Teams who provided technical support in the preparation of the TDA and SAP and helped in facilitating various meetings aimed at consolidating various stakeholder inputs (see Annex 2 for details on the members of these core Drafting Teams).

Various non-governmental organizations (NGOs) that provided support to the SAP formulation process. Special mention must be made of the Western Indian Ocean Marine Science Association (WIOMSA), which helped in the coordination of the review of various thematic studies, the review of the TDA as well as the organization of the first SAP Drafting Workshop. Many thanks also go to the members of the Consortium for the Conservation of the Coastal and Marine Ecosystems of the Western Indian Ocean (WIO-C): Birdlife International, Coastal Oceans Research and Development in the Indian Ocean (CORDIO), the East African Wildlife Society (EAWLS), the International Union for the Conservation of Nature (IUCN), Wetlands International, the Wildlife Conservation Society (WCS) and the World Wide Fund for Nature (WWF).

International organisations from within the United Nations System and regional development organizations: the Food and Agriculture Organization (FAO) of the United Nations, the International Atomic Energy Agency (IAEA), the International Maritime Organisation (IMO), the Indian Ocean Commission (IOC), the Inter-Governmental Oceanographic Commission of the United Nations Educational and Scientific Cooperation Organisation (IOC-UNESCO), the New Partnership for Africa's Development (NEPAD), the Southern African Development Community (SADC), the United Nations Development Programme (UNDP), the United Nations Environment Programme (UNEP), the United Nations Industrial Development Organisation (UNIDO) and the World Bank.

Last but not least, we thank the Global Environment Facility (GEF) and the Government of Norway for providing funds that enabled the successful implementation of the WIO-LaB Project.

While it would be quite impossible to thank all individuals of the above-mentioned organisations for their contributions, a list of persons who played a key role in the development of this SAP is presented in Annex 2.

Table of Contents

Acronyms and Abbreviations	vi	1.6 Developing the Strategic Action Programme	27
Foreword	viii	1.6.1 <i>General and specific objectives of the SAP</i>	27
Executive Summary	1	1.6.2 <i>Process of developing the SAP</i>	28
Objective A	2	PART II: Strategic Action Programme	31
Objective B	3	2.1 Structure of the SAP	31
Objective C	4	2.2 Vision and objectives of the Strategic Action Programme	31
Objective D	5	2.2.1 <i>A new vision for the WIO region</i>	31
Part I: Background and Introduction	9	2.2.2 <i>Objectives of the Strategic Action Programme</i>	31
1.1 Celebrating the Western Indian Ocean	9	2.3 Strategic Component A: Protecting, Restoring and Managing Critical Coastal Habitats	32
1.2 The Region under Threat	10	2.3.1 <i>Environmental Quality Objective: Critical Coastal Habitats</i>	32
1.3 What has been achieved thus far?	12	2.3.2 <i>Management Targets: Critical Coastal Habitats</i>	34
1.4 A Call for Joint Action	13	2.3.3 <i>Detailed Action Programme: Critical Coastal Habitats</i>	36
1.5 Overview of the WIO-LaB Transboundary Diagnostic Analysis	15	2.4 Strategic Component B: Ensuring Water Quality	39
1.5.1 <i>Problem Area 1: Physical alteration and destruction of habitats</i>	16	2.4.1 <i>Environmental Quality Objective: Water Quality</i>	39
1.5.2 <i>Problem Area 2: Water and sediment quality degeneration due to pollution</i>	20	2.4.2 <i>Management Targets: Water Quality</i>	40
1.5.3 <i>Problem Area 3: Alteration in freshwater flows and sediment loads from rivers</i>	22	2.4.3 <i>Detailed Action Programme: Water Quality</i>	42
1.5.4 <i>Problems related to governance and awareness</i>	24	2.5 Strategic Component C: Managing River Flows Wisely	42
1.5.5 <i>Root causes and stakeholder sectors related to transboundary problems</i>	26	2.5.1 <i>Environmental Quality Objective: River Flows and Sediment Loads</i>	46

Table of Contents (continued)

2.5.2 Management Targets: River Flows and Sediment Loads	46	National Status Reports.....	73
2.5.3 Detailed Action Programme: River Flows and Sediment Loads	49	Other reference documents	76
2.6 Strategic Component D: Strengthening Governance and Awareness	52	Annex 2 Persons, institutions and organisations that contributed to the preparation of the SAP.....	78
2.6.1 Strategic Objective: Governance and Awareness.....	54	SAP Facilitators.....	78
2.6.2 Management targets: Governance and Awareness.....	54	Members of the SAP Drafting Team	78
2.6.3 Detailed Action Programme: Governance and Awareness.....	57	Members of the TDA Task Team	80
2.7 Cross-cutting Themes	60	TDA/SAP Coordinators	80
2.7.1 Cross-cutting Theme 1: Climate Change Adaptation and Mitigation.....	60	Scientific and Technical Advisory Committee	80
Part III: Implementation Plan	67	Forum of Academic and Research Institutions (FARI)	81
3.1 Making it happen.....	67	National Focal Point Institutions.....	81
3.2 Mainstreaming action	67	Regional Task Force on Municipal Wastewater Management..	81
3.3 Institutional arrangements	68	Regional Task Force on Physical Alteration and Destruction of Habitats	82
3.4 Risks and sustainability	69	Regional Working Group on Water, Sediment and Biota Quality	83
3.5 Financing the SAP	70	Regional Task Force on Environmental Impact Assessment	85
3.6 Partnership and cooperation	70	Regional Legal and Technical Review Task Force.....	86
3.7 Monitoring and evaluation.....	71	Non-Governmental Organisations	87
Annexes	73	International Organisations.....	87
Annex 1 References	73	Regional Legal and Technical Review Task Force (continued)..	87
Regional Status Reports	73		

Table of Contents (continued)

Annex 3 Hot Spots Of PADH, Pollution And River-Coast Interaction 88	6a. Strategic Component 1: Protecting, Restoring and Managing Critical Coastal Habitats 104
3a. Overview of PADH hot spots in the WIO region..... 88	6b. Strategic Component 2: Ensuring Water Quality..... 107
3b. Overview of pollution hot spots in the WIO region..... 89	6c. Strategic Component 3: Managing River Flows Wisely 109
3c. Overview of river-coast interaction hot spots in the WIO region..... 91	6d. Strategic Component 4: Strengthening Governance and Awareness 112
Annex 4 Prioritization of Transboundary Problems and their Causes..... 92	Annex 7: Priorization of SAP Targets..... 115
4a. Prioritization of problems and related causes of physical alteration and destruction of habitats 92	Annex 8: A Framework for National SAP Implementation..... 117
4b. Prioritization of problems and related causes of water quality degeneration due to pollution..... 93	Comoros 117
4c. Prioritization of problems and related causes of alteration in river flow and sediment loads 94	Kenya 119
4d. Prioritization of problems related to governance and awareness..... 94	Madagascar 121
Annex 5 Result-based Indicator Framework..... 95	Mauritius 123
5a. Strategic Component A: Protecting, Restoring and Managing Critical Coastal Habitats 95	Mozambique..... 126
5b. Strategic Component B: Ensuring Water Quality 99	Seychelles..... 128
	South Africa 130
	Tanzania 136
	Annex 9: Overview of Partner Programmes and Projects Relevant to the SAP 141
