

Transboundary Diagnostic Analysis

TDA

for the Mediterranean Sea

prepared by
Fouad Abousamra
Ante Baric
Francesco Saverio Civili

The designations employed and the presentation of the material in this document do not imply the expression of any opinion whatsoever on the part of UNEP/MAP concerning the legal status of any State, Territory, city or area, or of its authorities, or concerning the delimitation of their frontiers or boundaries.

This TDA was prepared within the GEF Project "Determination of priority actions for the further elaboration and implementation of the Strategic Action Programme for the Mediterranean Sea", under the coordination of Mr Ante Baric, PhD, Project Manager.

Responsibility for the concept and the preparation of this document was entrusted to MED POL (Mr Fouad Abousamra, PhD, MED POL Programme Officer).

FOREWORD	0
-----------------	----------

i. EXECUTIVE SUMMARY	i
i.1 TDA Content and Process	i
i.2 Mediterranean Sea Environmental Status and its Major Transboundary Issues	iii
i.3 Environmental Quality Objectives	xiv
i.4 Priority Actions and Interventions for NAPs / SAP	xiv

INTRODUCTION	1
---------------------	----------

1.0 THE MEDITERRANEAN REGION	3
1.1 Environmental Characteristics	4
1.1.1 <i>Geographic setting and climate</i>	4
1.1.2 <i>The hydrological system</i>	6
1.1.3 <i>Biological diversity</i>	9
1.1.4 <i>Natural resources</i>	11
1.2 Socio-economic Aspects	11
1.2.1 <i>Demography and human settlements</i>	11
1.2.2 <i>Industrial activity and trade</i>	13
1.2.3 <i>Agriculture and Fisheries</i>	13
1.2.4 <i>Tourism</i>	14

2.0 MAJOR ENVIRONMENTAL CONCERNS	17
2.1 Decline of Biodiversity	17
2.1.1 <i>Transboundary elements</i>	18
2.1.2 <i>Environmental impacts</i>	18
2.1.3 <i>Socio-economic impacts</i>	19
2.1.4 <i>Causal Chain Analysis</i>	19
»	

»	
2.1.5	Supporting data 19
2.1.5.1	Exploitation of living marine resources 21
2.1.5.2	Degradation and conversion of critical habitats 21
2.1.5.3	Pollution 26
2.1.5.4	Introduction and invasion of alien species 39
2.1.5.5	Destruction of habitats by fishing pressure 41
2.2	Decline in Fisheries 41
2.2.1	Transboundary aspects 42
2.2.2	Environmental impacts 43
2.2.3	Socio-economic impacts 43
2.2.4	Causal Chain Analysis 44
2.2.5	Supporting data 46
2.2.5.1	State of the resources 46
2.2.5.2	Interactions of fishing with non-commercial resources 47
2.2.5.3	Eutrophication 47
2.2.5.4	Interaction of mariculture with fisheries 47
2.2.5.5	Overall characteristics of the Mediterranean fishing sector 49
2.3	Decline of Seawater Quality 51
2.3.1	Transboundary elements 51
2.3.2	Transboundary source-receptor relationships in PAHs deposition 52
2.3.3	Environmental impacts 53
2.3.4	Socio-economic impacts 53
2.3.5	Causal Chain Analysis 54
2.3.6	Supporting data 56
2.3.6.1	Eutrophication 56
2.3.6.2	Heavy metals 62
2.3.6.3	Persistent toxic substances (PTSs) 71
2.3.6.4	Pollution Hot Spots 80
2.4	Human Health Risks 82
2.4.1	Transboundary elements 82
2.4.2	Environmental impacts 83
2.4.3	Socio-economic impacts 83
2.4.4	Causal Chain Analysis 83
2.4.5	Supporting data 85
2.4.5.1	Chemical contamination 85
2.4.5.2	Microbiological pollution 93
3.0	LEGAL AND INSTITUTIONAL FRAMEWORK ANALYSIS 101
3.1	Major problems identified with legal and institutional frameworks in the Mediterranean 101
3.1.1	Major problems identified with legal arrangements for addressing transboundary environmental issues 101
3.1.1.1	Issues at the national level 102
3.1.1.2	Issues at the regional level 102
3.1.2	Major problems identified with institutional arrangements and capacity for addressing transboundary environmental issues 103
3.2	Existing Legal and Policy Frameworks in the Mediterranean 103
3.2.1	The Barcelona System 103
»	

»

3.2.2 Regional Protocol and Policy Instruments related to the Barcelona Convention	105
3.2.2.1 Pollution	105
3.2.2.2 Conservation of Biodiversity	111
3.2.2.3 Fisheries	115

4.0 STAKEHOLDER ANALYSIS	121
4.1 Mediterranean Stakeholders	121
4.2 MAP Civil Society Partners	122
4.3 Suggestions for Improving Cooperation with MAP Civil Society Partners	122

5.0 ENVIRONMENTAL QUALITY OBJECTIVES (EQOs)	125
5.1 Objective 1: Reduce the Impacts of LBS on Mediterranean Marine Environment and Human Health	125
5.1.1 The Strategic Action Programme to address pollution from LBS	125
5.2 Objective 2: Sustainable Productivity from Fisheries	127
5.2.1 Code of Conduct for Responsible Fisheries	128
5.2.2 Objectives of the Code	128
5.2.3 Relationship with other International Instruments	128
5.2.4 Implementation, monitoring and updating	129
5.2.5 Special requirements of developing countries	129
5.2.6 General principles	129
5.2.7 Fisheries management	131
5.2.8 Fishing operations	133
5.2.9 Aquaculture development	136
5.2.10 Integration of fisheries into coastal area management	137
5.2.11 Post-harvest practices and trade	138
5.2.12 Fisheries Research	139
5.3 Objective 3: Conserve the Marine Biodiversity and Ecosystem	139
5.3.1 SAP BIO objectives and targets	139
5.3.2 SAP BIO Portfolio	152

6.0 REFERENCES & SELECTED BIBLIOGRAPHY	155
