Peter Maxson
Concorde East/West Sprl, 10 av. René Gobert, 1180 Brussels, Belgium

Table of Contents

| | |
|---|-----------|
| Summary | 7 |
| 1 Introduction | 19 |
| 1.1 Background and objectives | 19 |
| 1.2 Methodology | 20 |
| 2 Mercury and alternatives in products and processes and accumulation in society | 23 |
| 2.1 Chlor alkali production | 23 |
| 2.1.1 Regulation of mercury cell plants | 23 |
| 2.1.2 Mercury emissions, consumption and releases | 24 |
| 2.1.3 Accumulation in society | 25 |
| 2.1.4 Mercury-free alternatives | 26 |
| 2.1.5 Wastes and releases | 27 |
| 2.1.6 Mercury mass balance | 27 |
| 2.2 Light sources | 27 |
| 2.2.1 Major applications of light sources with mercury | 27 |
| 2.2.2 Lamp supplies and mercury content | 28 |
| 2.2.3 Mercury accumulated in society | 32 |
| 2.2.4 EU producers of lamps | 33 |
| 2.2.5 Mercury-free alternatives | 34 |
| 2.2.6 Collection and treatment of mercury-containing light sources | 36 |
| 2.2.7 Mercury mass balance | 39 |
| 2.3 Batteries | 40 |
| 2.3.1 Applications and battery types | 40 |
| 2.3.2 Battery markets and quantities of mercury | 41 |
| 2.3.3 Accumulation of mercury in batteries in society | 45 |
| 2.3.4 Mercury-free alternatives | 46 |
| 2.3.5 Battery manufacturers | 47 |
| 2.3.6 Collection and treatment of mercury batteries | 47 |
| 2.3.7 Mercury mass balance | 52 |
| 2.4 Dental amalgam | 52 |
| 2.4.1 Mercury use and emissions | 52 |
| 2.4.2 Imports and exports | 53 |
| 2.4.3 Accumulation of mercury in society | 54 |
| 2.4.4 Mercury-free alternatives | 55 |
| 2.4.5 Suppliers of amalgams and alternatives | 56 |
| 2.4.6 Mercury in dental wastes | 57 |
| 2.4.7 Mercury mass balance | 61 |
| 2.5 Measuring equipment | 61 |
| 2.5.1 Applications of mercury and alternatives | 62 |

| | | |
|----------|--|------------|
| 2.5.2 | Current mercury consumption and trade | 82 |
| 2.5.3 | Mercury accumulated in society | 83 |
| 2.5.4 | Mercury-free alternatives | 85 |
| 2.5.5 | Producers of mercury-containing products | 88 |
| 2.5.6 | Collection and treatment of mercury waste | 89 |
| 2.5.7 | Data gaps | 90 |
| 2.5.8 | Mercury mass balance | 91 |
| 2.6 | Switches, relays and other electrical components | 91 |
| 2.6.1 | Applications of mercury and alternatives | 91 |
| 2.6.2 | Current use and trade of mercury | 101 |
| 2.6.3 | Mercury accumulated in society | 102 |
| 2.6.4 | Mercury-free alternatives | 102 |
| 2.6.5 | Producers of mercury-containing products in the EU | 104 |
| 2.6.6 | Collection and treatment of waste | 105 |
| 2.6.7 | Data gaps | 106 |
| 2.6.8 | Mercury mass balance | 106 |
| 2.7 | Mercury chemicals | 106 |
| 2.7.1 | Application of mercury chemicals | 106 |
| 2.7.2 | Current mercury consumption and trade | 125 |
| 2.7.3 | Mercury accumulated in society | 127 |
| 2.7.4 | Mercury-free alternatives | 128 |
| 2.7.5 | Producers of mercury compounds and alternatives | 130 |
| 2.7.6 | Collection and treatment of waste | 130 |
| 2.7.7 | Data gaps | 131 |
| 2.7.8 | Mercury mass balance | 131 |
| 2.8 | Miscellaneous uses | 131 |
| 2.8.1 | Applications of mercury and alternatives | 131 |
| 2.8.2 | Current mercury consumption and trade | 144 |
| 2.8.3 | Mercury accumulated in society with miscellaneous uses | 144 |
| 2.8.4 | Mercury-free alternatives | 145 |
| 2.8.5 | Producers of mercury-containing products | 147 |
| 2.8.6 | Collection and treatment of waste | 147 |
| 2.8.7 | Data gaps | 147 |
| 2.8.8 | Mercury mass balance | 148 |
| 2.9 | Summary | 148 |
| 3 | Mercury sources, stocks and contaminated sites | 155 |
| 3.1 | Specific metal mercury stocks | 155 |
| 3.1.1 | Mercury cell chlor-alkali plants | 155 |
| 3.1.2 | Mercury storage at Almadén | 155 |
| 3.1.3 | Mercury held by metals dealers and recyclers | 156 |
| 3.1.4 | Mercury in laboratories, schools and clinics | 156 |
| 3.1.5 | Mercury in Swedish wastes held for eventual disposal | 157 |
| 3.2 | Sources and mass flows of by-product mercury | 157 |

| | | |
|----------|---|------------|
| 3.2.1 | Zinc smelting | 158 |
| 3.2.2 | Copper and lead smelting | 159 |
| 3.2.3 | Natural gas purification | 160 |
| 3.2.4 | Combined by-product mercury potential | 161 |
| 3.3 | Mercury in contaminated sites, including potentially recoverable mercury | 161 |
| 3.3.1 | Decommissioned and operating chlor-alkali facilities | 162 |
| 3.3.2 | Former facilities for production of VCM | 165 |
| 3.3.3 | Manufacturing sites of mercury-containing products & processes | 166 |
| 3.3.4 | Production and waste sites of the chemical industry | 167 |
| 3.3.5 | Mercury mining and smelting sites | 168 |
| 3.3.6 | Other mining and smelting sites | 170 |
| 3.3.7 | Unusual contamination | 170 |
| 3.4 | Summary | 170 |
| 4 | Mercury waste handling | 173 |
| 4.1 | Overview of the waste management situation | 173 |
| 4.1.1 | Mercury quantities in waste | 175 |
| 4.1.2 | Mercury quantities in waste, country examples | 176 |
| 4.1.3 | Transboundary movement of mercury-containing waste | 180 |
| 4.2 | Recycling paths, rates and projections for the future | 181 |
| 4.2.1 | Primary waste streams for recycling | 181 |
| 4.2.2 | Processes used for recycling of mercury | 181 |
| 4.2.3 | Recycling practices and pathways | 183 |
| 4.2.4 | Future trends | 191 |
| 4.3 | Community wide possibilities for the future as regards handling of mercury-containing waste in products | 191 |
| 4.4 | Summary of waste management and recycling | 192 |
| 5 | National legislation on mercury exceeding EU legislation | 195 |
| 5.1 | Restrictions on mercury in products | 195 |
| 5.1.1 | Legislation in preparation | 199 |
| 5.2 | Mercury waste management legislation | 199 |
| 6 | Policy options for reducing mercury inputs to society and for improved management of mercury | 203 |
| 6.1 | Selected products and product groups | 203 |
| 6.2 | Impact assessment methodology | 203 |
| 6.2.1 | Policy options | 204 |
| 6.2.2 | Effects on industry | 204 |
| 6.2.3 | Cost-effectiveness analysis | 204 |
| 6.2.4 | Summary across the policy options for all products | 205 |
| 6.3 | Impacts on human health and the environment | 205 |
| 6.4 | Dental amalgam | 209 |
| 6.4.1 | Options for preventing mercury in new products | 211 |

| | | |
|-------|---|------------|
| 6.4.2 | Impact and costs of preventing mercury in new products | 211 |
| 6.4.3 | Options for improved management of mercury already in circulation | 217 |
| 6.4.4 | Impacts and costs of improved mercury management | 217 |
| 6.4.5 | Conclusions | 220 |
| 6.5 | Measuring equipment for professional use | 221 |
| 6.5.1 | Main options for reducing or preventing mercury in new products | 223 |
| 6.5.2 | Sphygmomanometers | 225 |
| 6.5.3 | Thermometers | 230 |
| 6.5.4 | Barometers | 233 |
| 6.5.5 | Cost of spill and waste disposal | 235 |
| 6.5.6 | Costs to society from impacts on human health and the environment | 237 |
| 6.5.7 | Conclusions | 238 |
| 6.6 | Mercury catalysts for polyurethane elastomer production | 240 |
| 6.6.1 | Main options for preventing mercury in new products from entering the market | 241 |
| 6.6.2 | Main impacts and cost elements of selected policy options | 243 |
| 6.6.3 | Impacts on EU manufacturers and the market | 245 |
| 6.6.4 | Impacts on the end users of PU elastomer part and the users of the end products | 249 |
| 6.6.5 | Impacts on civil society | 250 |
| 6.6.6 | Conclusions | 250 |
| 6.7 | Mercury porosimetry | 252 |
| 6.7.1 | Main options for reducing or preventing mercury use in porosimetry | 253 |
| 6.7.2 | Impacts on EU manufacturers and the market | 254 |
| 6.7.3 | Impacts on the users of the equipment and waste disposal | 255 |
| 6.7.4 | Costs to society | 256 |
| 6.7.5 | Conclusions | 256 |
| 6.8 | Policy options for mercury in lighthouses | 257 |
| 6.9 | Policy options for mercury compounds used as biocides | 257 |
| 6.10 | Summary across policy options | 257 |
