

# Global Mercury Instrument

## Update on progress and process

17 December 2010

UNEP DTIE Chemicals Branch

# Mercury use in ASGM

More recent estimates for ASGM are higher, e.g., 1350 tonnes (Pirrone et al, 2009)

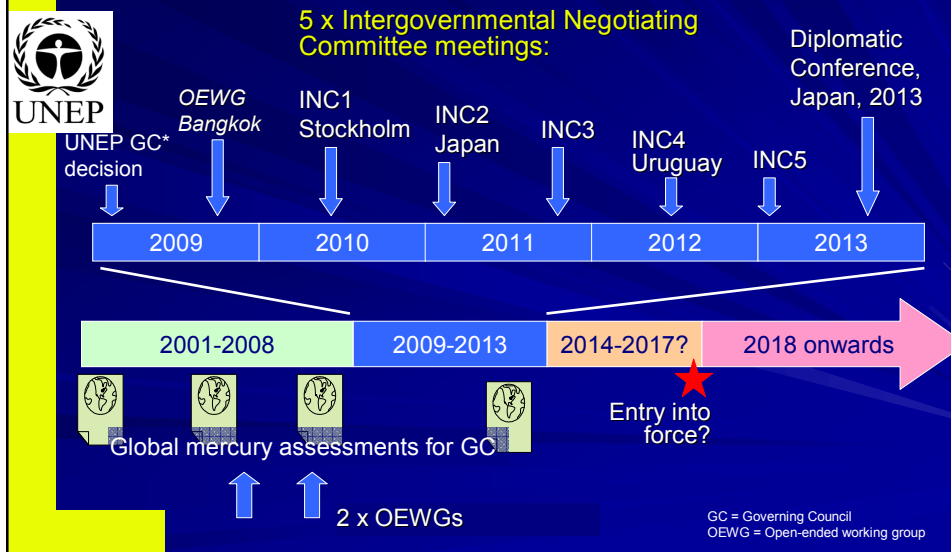

Global mercury demand by use, 2005 (metric tonnes)

\* Laboratory, pharmaceutical, cosmetic, cultural/traditional uses, etc.

P. Maxson, "Mercury flows and safe storage of surplus mercury," for the Environment Directorate, European Commission, August 2006 (with data ranges). See [http://ec.europa.eu/environment/chemicals/mercury/pdf/mercury\\_flows\\_safe\\_storage.pdf](http://ec.europa.eu/environment/chemicals/mercury/pdf/mercury_flows_safe_storage.pdf)

# The treaty negotiation process

# A legally binding instrument

*...including provisions to:*

- Reduce supply and enhance capacity for sound storage
- Reduce demand
- Reduce international trade
- Reduce atmospheric emissions
- Address waste and remediation of contaminated sites
- Increase knowledge
- Build capacity and technical and financial assistance
- Specify objectives
- Address compliance

*...considering the following:*

- Flexibility
- Tailored approaches to specific sectors
- Availability of Hg-free alternatives
- Cooperation and coordination
- Prioritization of sources
- Co-benefits of conventional controls and other environmental benefits
- Efficient organization
- Addressing risks to human health and the environment

## Treaty basics

- Treaty = legally binding agreement between governments
- Treaty = convention = legally binding instrument (LBI) = multilateral environmental agreement (MEA)
- INC: negotiations between governments, with opportunities for participation by qualified non-governmental observers

UNEP DTIE Chemicals Branch

## Treaty basics, cont'd

- INC *negotiates* the treaty
- Diplomatic conference *adopts*
- Individual governments *ratify*
- Treaty becomes binding on *Parties at entry into force*

UNEP DTIE Chemicals Branch

## “Draft elements of a comprehensive and suitable approach”

- UNEP(DTIE)/Hg/INC.2/3
- Purpose: Assist negotiators by providing focus and structure
- INC2 to consider whether to accept paper as the basis for negotiations

UNEP DTIE Chemicals Branch

## Key elements

- Supply, storage, international trade
- Products & processes
- ASGM
- Atmospheric emissions
- Releases to water & land
- Wastes
- Contaminated sites

UNEP DTIE Chemicals Branch

## Key elements, cont'd

- Transitional measures
- Financial resources & technical assistance
- Implementation assistance (compliance)
- Awareness raising, research & monitoring, communication of info.

UNEP DTIE Chemicals Branch

## Element 9: ASGM

- *Parties with ASGM* to reduce and, where possible, eliminate use of Hg
- No import of Hg for use in ASGM
