Addressing Barriers to the implementation of Mercury Elimination in ASGM

Format

- Each country should for the next 15-20 mins discuss the following barriers:
- Technological
- Capacity
- Formalization
- Finance

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Technological Barriers

- Are there sufficient alternative techniques/technologies to replace mercury in gold processing?
- What is missing in terms of technologies/techniques
- What has been the success of implementing them?

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Capacity Barriers

- Is there sufficient technical experts available at the local/national level to assist in moving away from mercury?
- Is there sufficient capacity at the Government level to deal with phasing out of Mercury?

GLOBAL ENVIRONMENT FACILITY
INVESTING IN OUR PLANET

Formalization

- What are the main barriers to formalizing the ASGM sector, e.g. legislation, policy etc.?
