Mainstreaming Environment and Climate for Poverty Reduction and Sustainable Development

A Handbook to Strengthen Planning and Budgeting Processes

The Poverty-Environment Initiative (PEI) of the United Nations Development Programme (UNDP) and the United Nations Environment Programme (UNEP) is a global UN effort that supports country-led efforts to mainstream poverty-environment linkages into national development planning. PEI provides financial and technical assistance to government partners to set up institutional and capacity-strengthening programmes and carry out activities to address the particular poverty-environment context.

PEI is funded by the Governments of Belgium, Denmark, Germany, Ireland, Norway, Spain, Sweden, the United Kingdom, the United States, and the European Union and with core funding of UNDP and UNEP.

Mainstreaming Environment and Climate for Poverty Reduction and Sustainable Development: A Handbook to Strengthen Planning and Budgeting Processes is also available online at www.unpei.org.

Second edition. Published 2015.

UNDP partners with people at all levels of society to help build nations that can withstand crisis, and drive and sustain the kind of growth that improves the quality of life for everyone. On the ground in more than 170 countries and territories, we offer global perspective and local insight to help empower lives and build resilient nations.

UNEP provides leadership and encourages partnership in caring for the environment by inspiring, informing, and enabling nations and peoples to improve their quality of life without compromising that of future generations.

Acknowledgements	v
Foreword	vii
Executive Summary	ix
Abbreviations	xiii
1 About the Handbook	1
1.1 The Global Environment and Development Context	3
1.2 Purpose	5
1.3 Target Audience	5
1.4 Structure	5
2 Importance of Mainstreaming Poverty-Environment Concerns	7
2.1 Relevance of Poverty-Environment Linkages to Achieving National Development Goals	9
2.2 The Importance of Natural Capital to the Wealth of Low-Income Countries	12
2.3 Opportunities and Challenges	14
3 The Political Economy of Mainstreaming	17
3.1 A Programmatic Approach for Poverty-Environment Mainstreaming	19
3.2 Using a Theory of Change to Apply a Mainstreaming Programmatic Approach	22
3.3 Finding the Entry Points and Making the Case	24
Quick Reference Checklist: Political Economy of Mainstreaming	36
4 Mainstreaming into National Planning Processes	39
4.1 Understanding National Development Planning Processes	41
4.2 Integrating Poverty-Environment Objectives into National Development Planning Processes	44
4.3 Identifying Opportunities for Implementing Mainstreamed National Development Plans	48
Quick Reference Checklist: Mainstreaming into National Planning Processes	50
5 Mainstreaming into Budgeting Processes	51
5.1 Engaging in the Budgeting Process	53
5.2 Mainstreaming into the Budget Formulation Process	54
5.3 Mainstreaming into the Budget Execution Process	56
5.4 Mainstreaming into Budget Monitoring and Oversight	56
5.5 Mainstreaming into Fiscal Policy: Environmental Fiscal Reforms and incentives for Private Investment	58
5.6 Bringing It All Together: Developing a Climate Fiscal Framework	60
Quick Reference Checklist: Mainstreaming into Budget Processes	63

6	Mainstreaming into Sector Strategies and Subnational Plans and Budgets	65
6.1	Integrating Poverty-Environment Objectives in Sector Strategies	67
6.2	Planning and Budgeting at the Subnational Level	69
6.3	Ecosystem-Based Approaches and Experience to Inform Subnational Planning and Budgeting	71
	Quick Reference Checklist: Mainstreaming into Sector Strategies and Subnational Plans and Budgets	75
7	Mainstreaming into National Monitoring Processes	77
7.1	Integrating Poverty-Environment Objectives into National Monitoring Systems	79
7.2	Tracking Budgets and Expenditures	83
7.3	Going Beyond GDP: Towards More Holistic Measurement of Growth and Human Well-Being	85
	Quick Reference Checklist: Mainstreaming into National Monitoring Processes	87
8	Managing Private Investment in Natural Resources	89
8.1	Impact and Implications of FDI on Host Countries	91
8.2	Establishing an Economic and Institutional Environment and Implementing Policies to Attract and Manage FDI	92
8.3	Reviewing Investment Proposals	94
8.4	Negotiating Investment Contracts	97
8.5	Monitoring Investor Compliance with Relevant Laws and Contracts	98
	Quick Reference Checklist: Managing Private Investment in Natural Resources	101
9	Lessons Learned	103
9.1	Making the Case for Poverty-Environment Mainstreaming and a Transition to Inclusive Green Economies	105
9.2	Mainstreaming Poverty-Environment Objectives in Planning and Budgeting Processes	106
9.3	Addressing the Implementation Challenge: Mainstreaming into Sector and Subnational Planning, and Monitoring	107
	Annexes	109
A	Guidance Note on Institutional and Context Analysis	111
B	Guidance Note on Integrating Environment-Linked Poverty Concerns into Planning, Budgeting and Monitoring Processes	119
C	Guidance Note on Integrating Natural Wealth in GDP	129
D	Guidance Note on Promoting Gender Equality	135
E	Guidance Note on Integrating a Human Rights-Based Approach into Poverty-Environment Mainstreaming	143
F	Guidance Note on Advocacy and Strategic Communications	149
G	Poverty-Environment Mainstreaming Tools	161
	Glossary	165
	References	175

Boxes

3.1	PEI Theory of Change	23
3.2	Economic Studies on Natural Resource Management in Rwanda and Land Degradation in Tajikistan	25
3.3	Gender Analysis for Equitable and Sustainable ENR Management	26
3.4	Multidimensional Vulnerability Index at the Household Level Developed to Address Climate Shocks in the Dominican Republic	28
3.5	Raising Journalist Awareness of Poverty-Environment Linkages in Kyrgyzstan and Tajikistan	34
3.6	Government, Donors, Non-governmental Organizations and Media Advocate for Sustainable Development in Malawi	35
4.1	Bangladesh Vision 2021	41
4.2	Mainstreaming Gender, Climate Change and Pro-Poor Environmental Sustainability into Planning Processes in Mozambique	44
4.3	The Use of the NAP Process in Mainstreaming	46
4.4	Strengthening Poverty-Environment Mainstreaming Capacity in Africa and Asia through South-South Cooperation	49
5.1	How Malawi Included Poverty and the Environment in Its Budget Guidelines	54
5.2	Including Poverty-Environment Objectives in Sector Plans and Budgets in Mozambique	55
5.3	Economic Analysis of Natural Resources and PEER Gives Mozambique's Ministry of Finance Scope for Action	57
5.4	Indonesia Issues Ministerial Decree on Budget Tagging for Climate Change	57
5.5	EFR Results and Benefits in China and Brazil	58
5.6	Safeguarding the Poor While Removing Fossil Fuel Subsidies	59
5.7	Developing a Climate Fiscal Framework in Bangladesh	60
6.1	Poverty and Social Impact Analysis of Botswana's Integrated Support Programme for Arable Agriculture Development	67
6.2	Relationship Between Agriculture and Biodiversity	68
6.3	State of the Environment Reporting and Data Inform District Planning in Malawi	69
6.4	Environmentally Friendly Local Governance and Green Roads in Nepal	70
6.5	Integrating Gender Equality into Subnational Planning Results in Livelihood Improvements from Green Jobs in Tajikistan	71
6.6	Up-Scaling a Community-Level Programme in Rwanda	72
6.7	Examples of Integrated Ecosystem Assessment Informing Subnational Planning	73
7.1	Examples of Poverty-Environment Indicators	80
7.2	Indicative Criteria for Poverty-Environment Indicators	82
7.3	Integrating and Refining Poverty-Environment Indicators in Tanzania	83
7.4	CPEIR in Bangladesh Leads to New Focus on Climate Change in Budget System	85
