

REPUBLIKA SLOVENIJA
MINISTRSTVO ZA INFRASTRUKTURO

ENVIRONMENTAL REPORT ON A STRATEGIC ENVIRONMENTAL ASSESSMENT FOR THE TRANSPORT DEVELOPMENT STRATEGY IN THE REPUBLIC OF SLOVENIA

Izvajalec:

Ljubljana, October 2014

Project title: **Environmental Report on a Strategic Environmental Assessment for the Transport Development Strategy in the Republic of Slovenia**

No. of the contract: **2430-13-371726**

Contract manager: **Marjeta Vozelj**

Preparation date: **July 2014, amended: October 2014**

Task no.: **1307-13 OP**

Contracting Authority: **Republic of Slovenia
Ministry of Infrastructure
Langusova ulica 4
1535 Ljubljana**

Contractor: **AQUARIUS d.o.o. Ljubljana
Cesta Andreja Bitenca 68
1000 Ljubljana**

Director: **Martin Žerdin, MSc**

Responsible holders: **Martin Žerdin, MSc, BSc in Biology**

Leonida Šot Pavlovič, BSc in Biology

Associates: **Natalija Libnik, BSc in Biology**

Barbara Jerman, BSc in Geography and History Professor

Katja Vrabič, BSc in Geology

Lea Pačnik, BSc in Biology

Mojca Vrbajnščak, BSc in Biology

Subcontractor: **SIPPO, svetovanje in projektiranje na področju okolja, d.o.o.
Vegova ulica 8,
1000 Ljubljana**

Radovan Tavzes, MSc, BSc in Physics

Subcontractor: **Epi Spektrum d.o.o.
Strossmayerjeva 11
2000 Maribor**

Boštjan Peršak, BSc in Physics

Responsibility:

Chapter:	Nature Water Soil and mineral resources Cultural heritage Landscape Population and material assets
Responsible preparation manager:	Martin Žerdin, MSc, BSc in Biology Leonida Šot Pavlovič, BSc in Biology
Associates:	Natalija Libnik, BSc in Biology Katja Vrabič, BSc in Geology Barbara Jerman, BSc in Geography and History Professor Mojca Vrbajnščak, BSc in Biology Lea Pačnik, BSc in Biology
Chapter:	Climate factors Air Air quality (human health) Efficient use and renewable sources of energy
Responsible preparation manager:	Radovan Tavzes, MSc, BSc in Physics
Chapter:	Noise pollution (human health)
Responsible preparation manager:	Boštjan Peršak, BSc in Physics

KAZALO VSEBINE

1. NON-TECHNICAL SUMMARY	2
2. INTRODUCTION.....	25
2.1 General	25
2.2 Description of steps in the strategic assessment of environmental effects	25
3. PRESENTATION OF THE TRANSPORT DEVELOPMENT STRATEGY IN THE RS..	27
3.1 Reasons for drafting the Transport Development Strategy in the RS	27
3.2 Key Facts about the Strategy	28
3.3 Description of the Strategy	29
4. LEGAL PLATFORM FOR THE ENVIRONMENTAL ASSESSMENT.....	47
4.1 Legislative bases considered	47
4.2 Assessment of impacts on protected areas	51
5. DATA ON THE STATE OF THE ENVIRONMENT IN SIOVENIA.....	52
5.1 Data on the Baseline State of the Environment.....	52
5.2 Display of conservation, protected, brownfield and other areas, and a summary of existing legal regimes.....	92
5.3 Development status without the implementation of measures from the Transport Development Strategy in the Republic of Slovenia	106
6. BASIS FOR PREPARATION.....	111
6.1 Determining the environmental objectives of the Strategy	111
6.2 Environmental impact assessment method.....	143
7. OBJECTIVE COMPLIANCE ASSESSMENT.....	152
8. ASSESSMENT of the impact	159
8.1 Evaluation of the consequences of the Strategy implementation, and assessment of the impacts of the Strategy implementation on the realisation of the environmental objectives of the Strategy	159
8.2 Cumulative impacts.....	180
8.3 Transboundary impacts	181
9 ASSESSMENT OF ALTERNATIVES	186
10 GUIDELINES AND MITIGATION MEASURES	191
10.1 Soil and mineral resources	191
10.2 Air.....	193
10.3 Climate factors	194
10.4 Water	195
10.5 Nature.....	198
10.6 Human health	201
10.7 Population and material assets.....	206
10.8 Cultural Heritage	207
10.9 Landscape.....	208
11 Monitoring	211
11.1 Soil and mineral resources	212
11.2 Air.....	212
11.3 Climate factors	213
11.4 Water	213
11.5 Nature.....	213
11.6 Human health	213
11.7 Population and material assets.....	213
12 HIGHLIGHTS OF THE ENVIRONMENTAL REPORT PREPARATION PROCESS	215
13 CONCLUSION OF THE STRATEGIC ENVIRONMENTAL ASSESSMENT.....	216
14 SOURCES	218

TABLE OF APPENDICES

Appendix 1.1: Description of measures according to individual transport sectors (source: Transport Development Strategy in the Republic of Slovenia, October 2014, version 9.5)

Appendix 1.1 includes the following tables:

Table 1: Description of measures in the field of railway transport

Table 2: Description of measures in the field of road transport

Table 3: Description of measures in the field of urban traffic

Table 4: Description of measures in the field of maritime transport

Table 5: Description of measures in the field of air traffic

Table 6: Table of measures and connection with sub-objectives

Appendix 1.2: Sub-objectives and transport measures for attaining individual sub-objectives (source: Transport Development Strategy in the Republic of Slovenia, October 2014, version 9.5)

Appendix 2: Assessment of alternatives (21 tables as per individual sub-objectives)

Appendix 3: Appendix on protected areas

LIST OF TABLES

Table 1 Planned timetable for the strategic environmental assessment (SEA)	3
Table 2 Planned timetable for the strategic environmental assessment (SEA)	27
Table 3 Key facts about the assessed programme	29
Table 4 Table describing specific objectives and their sub-objectives (source: Strategy, 2014)	35
Table 5 Forest areas with determined primary functions in Slovenia (in ha) (source: Forest Service, 2012).....	59
Table 6 Departures of pollutant emissions from national ceilings in the 2010 – 2012 period.....	61
Table 7 Collisions with large mammals (Source: SFS, 2014).....	74
Table 8 Exposure of residents to noise from road and rail transport in 2011 in the light of the recommended value of the night-time noise indicator set by the WHO (Source: Strategy, 2014)	80
Table 9 Pollutant levels in ambient air in individual areas and agglomeration in terms of the lower and upper assessment thresholds	94
Table 10 Limit and critical values of noise indicators in dB(A).....	96
Table 11 Exposure of residents to noise from road and rail transport in 2030 in the light of the recommended values of night-time noise indicator set by the WHO, the do-nothing scenario (Source: Strategy, 2014)	109
Table 12 Connection between environmental areas and environmental objectives, and environmental plans, programmes and policies	113
Table 13 Identification of potential impacts (Aquarius d.o.o., Ljubljana, June 2014)	142
Table 14 Evaluation chart for levels of compliance between objectives	152

Table 15 Compliance assessment of the Strategy objectives and sub-objectives with the environmental objectives.....	153
Table 16 Assessment of internal compliance of the Sub-objectives of the Strategy	157
Table 17 Assessment of internal compliance of the environmental objectives.....	158
Table 18 Commitments regarding reducing emissions in Slovenia for the following pollutants important for emissions from transport: nitrogen oxides (NO _x) and particulates (PM _{2.5}).....	161
Table 19 Display of compliance with the environmental objectives by individual groups of measures to attain the sub-objectives of the Strategy	175
Table 20 Display of transboundary impacts.....	182
Table 21 Comparison of individual groups of alternative measures in view of their compliance with the environmental objectives, shares of evaluated impacts	188
Table 22 Comparison of individual groups of alternative measures in view of their compliance with the environmental objectives	189
Table 23 Relationship between the environmental objectives and proposed environmental indicators	212
