ROPME

UN Environment-European Commission Workshop

ROPME:

The ROPME (Regional Organization for the Protection of the Marine Environment) Sea Area sounded by 8 member states as defined by the Kuwait Regional Convention (1978).

- Inner RSA
- Middle RSA
- Outer RSA

“ROPME Secretariat has to promote a shift towards more integrated ecosystem-based approaches to the management of the ROPME Sea Area (RSA)”

UN Environment-European Commission Workshop

EBM PROMOTES INTER-SECTORAL COORDINATION

ECOSYSTEM-BASED MANAGEMENT

Policy

Environmental
Policy

Other Sector
Policies

Visioning

Planning

Implementation

No EBM or Low EBM

Individual species management

Single sector management
— fisheries, for example

Incremental EBM

Managing groups of species

Integrated management of
two sectors — fisheries and
offshore energy, for example, to
avoid user conflicts

Comprehensive EBM

Managing whole ecosystems

Integrating all sectors that
impact, or are impacted by, the
ecosystem

UN Environment-European Commission Workshop

Sustainable Development Goals (SDGs)

Workshop “Toward the Development of a Regional
Ecosystem Based Management
Strategy for ROPME Sea Area”
Dubai, UAE, 4-7 April 2016

(In Cooperation with UNEP/DEPI & UNEP/ROWA)

UN Environment-European Commission Workshop

Sustainable Development Goals (SDGs)

Towards the Development of a Regional Ecosystem Based Management Strategy for ROPME Sea Area

Objectives:

- *To explore opportunities and processes for the development of a Regional Strategy, identifying gaps of existing policies and mechanisms*
- *To form a Regional Working Group for the development of the Regional EBM Strategy*

UN Environment-European Commission Workshop

Towards the Development of a Regional Ecosystem Based Management Strategy for ROPME Sea Area

Recommendations:

1. Recognizing the importance of the Ecosystem Based Management (EBM) for the sustainable in ROPME SA .
2. The EBM Strategy will set clear regional ecological objectives and associated targets and indicators. The EBM Strategy will provide overarching framework.
3. A Working Group should be established comprised of the government designated representatives for the development of the EBM Strategy.

Towards the Development of a Regional Ecosystem Based Management Strategy for ROPME Sea Area

Recommendations:

- 4. The EBM Strategy should be consistent with the 2030 Agenda and the Sustainable Development Goals (SDGs) as well as Aichi Biodiversity Targets.**
- 5. Recognizing the current level of understanding of the marine and coastal ecosystems in the ROPME Sea Area and the existence of knowledge gaps.**
- 6. Recognizing the need for enhanced data and information sharing, existing data should be collected and gaps should be identified.**

UN Environment-European Commission Workshop

Towards the Development of a Regional Ecosystem Based Management Strategy for ROPME Sea Area

Recommendations:

7. In order to create further synergies between different policies and projects across the region, an inventory of policies, legislation, organizations, projects.

8. A network of regional technical professionals for EBM in the ROPME Sea Area
