

Colliding Trends and Overwhelming Odds

Professor Larry Hildebrand

World Maritime University

Malmö, Sweden

UNEP-EC Workshop on Area-based Management & Regional Cooperation

Brussels, February 9 & 10, 2017

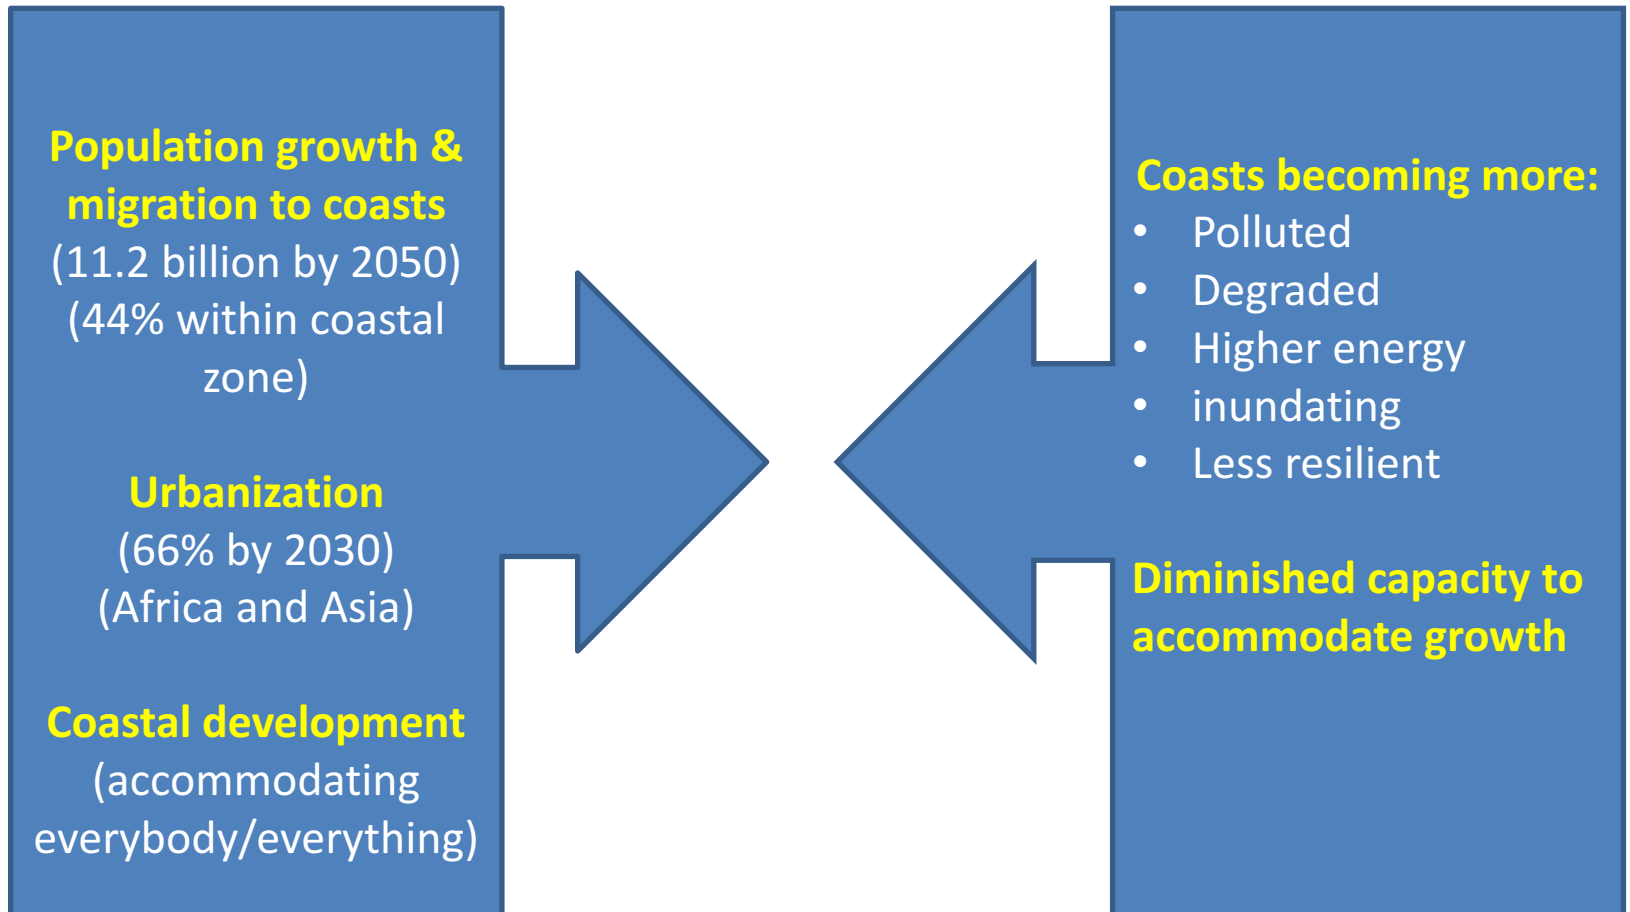

Developments in ICOM

- We're learning a lot from practice
- What works, what doesn't and increasingly, WHY
- We are applying the lessons learned as we can
- But, still many barriers/shortcomings to implementation

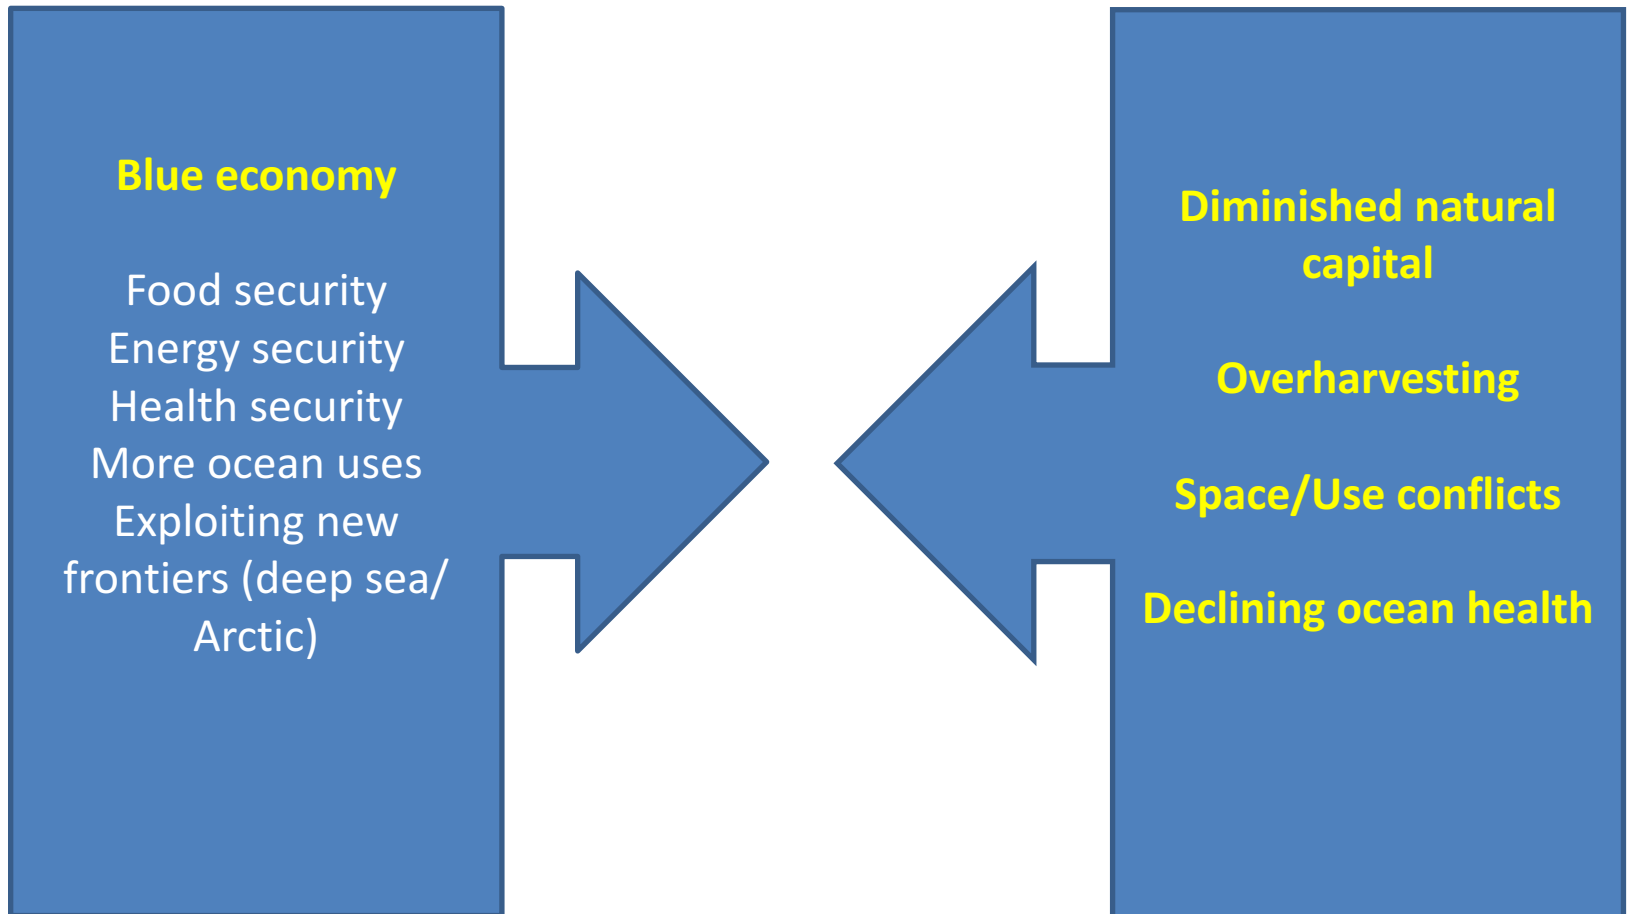

WHY?

- Are there prevailing attitudes, trends and dynamics that are overwhelming us and defeating our best efforts?
- Are these factors beyond our capacity (and will) to respond?

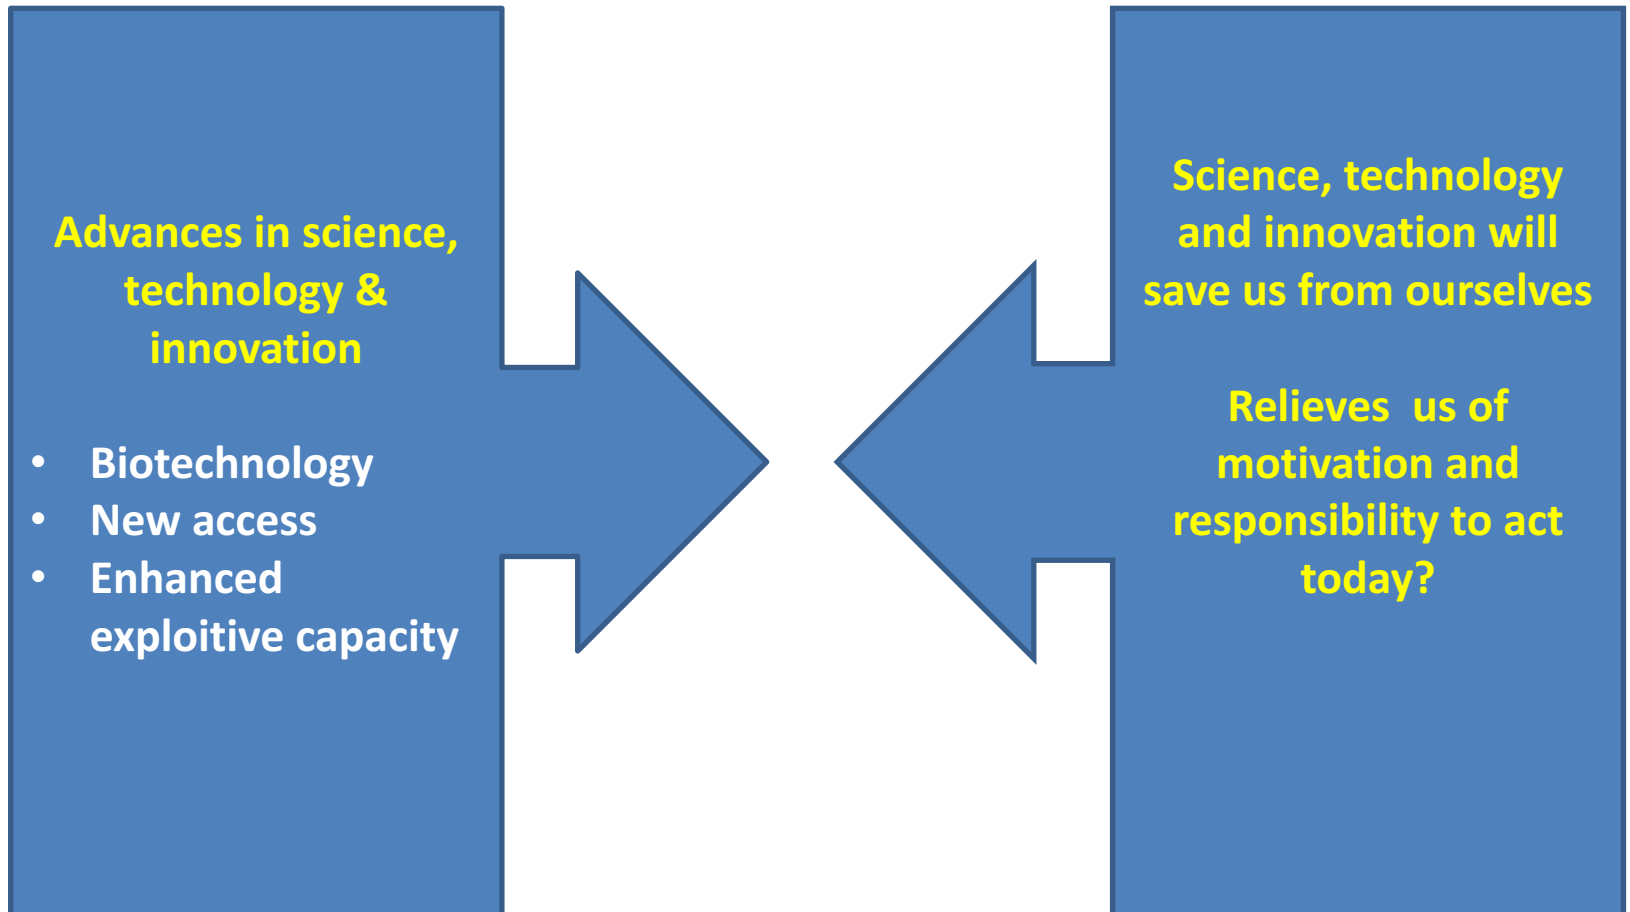

Population & Development vs. Coastal degradation

Blue economy vs. Sick Ocean

Science, technology & innovation

Shifting ecosystems & Static management
