Contents

Acronyms and Abbreviations.....	viii
---------------------------------	------

Foreword	ix
----------------	----

Democratic People's Republic of Korea

United Nations Environment Programme

About the ECCO Report	xi
-----------------------------	----

Executive Summary.....	xii
------------------------	-----

Chapter 1: Country Overview	2
-----------------------------------	---

1.1 Geography and climate

1.2 Administrative arrangements

1.3 Socioeconomic conditions

Population	3
Public health	4
Education.....	6
Economy	8
Agriculture.....	9

1.4 Institutional mechanisms and laws for environmental protection and management

Institutional mechanisms	10
Laws and regulations related to environment protection.....	11
Policy measures and their effectiveness.....	11
Public Participation	13
International Cooperation.....	14

Chapter 2: Air and Atmosphere	16
-------------------------------------	----

2.1 State and trends

Air quality.....	17
Ozone depleting substances (ODS).....	19
Greenhouse Gas Emissions	20
Dust and sand storm (DSS).....	25

2.2 Drivers and pressures

Increase of energy consumption.....	27
Air pollution sources	27

2.3 Responses

Actions to reduce air pollution	29
Actions to reduce greenhouse gas emissions	30
Actions to reduce ozone depleting substances	31
Actions to address Dust and Sand Storms	32

Chapter 3: Water 34**3.1 State and trends**

Freshwater sources and volumes	35
Water quality	36

3.2 Drivers and pressures

Industrial development	39
Deforestation and inadequate riparian zone management.....	39

3.3 Response

Legislation	40
Water supply measures	41
Water quality measures	42

Chapter 4: Land, Forests and Soil 46**4.1 State of land, forests and soil**

Forest cover and quality.....	48
Agricultural soil productivity	49
Waste management	50
Impacts of deforestation on soil quality	52

4.2 Drivers and pressures

Land use practices	53
Climate change	53

4.3 Response

Legal mechanisms and regulations	55
Monitoring and assessment	55
Public mobilisation	55
Forests.....	56
Waste management	57

Chapter 5: Biodiversity..... 60**5.1 State and trends**

Ecosystem diversity.....	61
Species diversity.....	65
Genetic diversity.....	66
Biodiversity trends.....	66

5.2 Drivers and pressures

Unsustainable use of the natural resources	67
Loss of soil	67
Loss of habitat	67
Other factors	68

5.3 Responses

Laws and policies related to the protection and sustainable use of biodiversity.....	68
In situ conservation	70
Identification, monitoring and management of protected areas and species	70
Ex situ conservation and ecosystem recovery	72

Chapter 6: Climate Change 74

6.1 DPR of Korea climate overview

Observations of climate change in the DPR of Korea.....	75
---	----

6.2 Projected climate change

Climate change modelling assumptions and method.....	77
Precipitation projections	78
Temperature Projections.....	80
Sea level rise	82

6.3 Anticipated impacts of climate change

Impacts on water resources.....	82
Impacts on agriculture	82
Floods	83
Droughts	83
Damage by dust and sand storm (DSS).....	85
Impacts on forests	85
Impacts on marine resources	85
Impacts on biodiversity.....	85
Impacts on people	86

6.4 Adaptation to climate change

Agriculture.....	87
Forestry.....	87
Coastal zones	87
Facilities protection	88
Education.....	88
Climate change research and technology development.....	88

Chapter 7: Conclusions and Recommendations 90

7.1 The role of the ECCO report

7.2 The principles of an effective response

7.3 Air and atmosphere

Air quality.....	92
Ozone depleting substances and greenhouse gas emissions	93
Dust and sand storms	93
Recommendations	93

7.4 Water

Water supply.....	94
Water quality	94
Recommendations	95

7.5 Land, forest and soils

Deforestation and forest degradation	95
Soil erosion and degradation	96
Soil contamination.....	96
Waste management	96
Recommendations	97

7.6 Biodiversity	
Recommendations	99
7.7 Climate change	
Recommendations	103
7.8 Next steps	
Annexes	106
Annex 1 References	107
Annex 2 Climate change projection method	111
Annex 3 Contributors	113
