STATE OF THE ENVIRONMENT REPORT OF BOSNIA AND HERZEGOVINA 2012

MILLENNIUM DEVELOPMENT GOALS ACHIEVEMENT FUND

CONTENTS

Foreword	19
Acronyms and Abbreviations	20
Acknowledgements	24
Purpose of the State of Environment Report	27
Methodology and Availability of Data	28
Significance of Environmental Indicators and	29
Strategy of Selection	29
Report Development Process	30
Form of the Report and its Contents	30
CONTENTS OF THE REPORT	31
Brief Summary of the State of Environment	32
Environmental Indicators Partially or Completely Missing	38
Recommendations for Improving the State of the Environment and Key Tasks	39
1.. GENERAL INFORMATION	40
1.1 GEOGRAPHY	41
1.2 CLIMATE	42
1.3 HISTORICAL AND POLITICAL BACKGROUND	43
1.4 CULTURAL HERITAGE	44
2 SOCIO-ECONOMIC DRIVERS AND PRESSURES	48
2.1 DEMOGRAPHY AND POPULATION TRENDS	49
2.2 POVERTY AS A DRIVING FORCE OF ENVIRONMENTAL DEGRADATION	51
2.3 ECONOMIC OVERVIEW AND RECENT TRENDS	53
2.4 DRIVERS AND PRESSURES BY SECTORS	57
2.4.1 Agriculture	57
2.4.1.1 Percentage of land area under agricultural land	57
2.4.1.2 Agriculture and animal production	58
2.4.1.3 Greenhouse gas emissions	60
2.4.1.4 Consumption of water for irrigation	61
2.4.1.5 Conclusions and recommendations	62
2.4.2 Energy	63
2.4.2.1 Final energy consumption by sector	64
2.4.2.2 Total energy intensity	65
2.4.2.3 Primary energy consumption by fuel	66
2.4.2.4 Renewable energy consumption	68
2.4.2.5 Renewable electricity consumption	69
2.4.2.6 Conclusions and recommendations	71
2.4.3. Industry	72
2.4.3.1 Emissions of CO ₂ , CH ₄ and N ₂ O from the industry	72

CONTENTS

2.4.3.2 Energy consumption of industry	73
2.4.3.3 Number of industrial companies engaged in Environment Management System	74
2.4.3.4 Conclusions and recommendations	74
2.4.4 Fisheries and aquaculture	74
2.4.4.1 Production of consumed fish	74
2.4.4.2 Number and structure of fish farms	75
2.4.4.3 Conclusions and recommendations	76
2.4.5 Mining	76
2.4.5.1 Disposal and treatment of waste materials and environmental aspects of mining activities	76
2.4.5.2 Coal mines in BiH	78
2.4.5.3 Production in coal mines in BiH	79
2.4.5.4 Metal and non-metal mines	83
2.4.5.5 Conclusions and recommendations	84
2.4.6 Transport and Infrastructure	85
2.4.6.1 Road and railroad traffic	86
2.4.6.2 Air traffic	89
2.4.6.3 Water transport and infrastructure	90
2.4.6.4 Conclusions and recommendations	91
2.4.7 Tourism	92
2.4.7.1 Number of tourist visits	92
2.4.7.2 Number of tourist overnight stays	93
2.4.7.3 Conclusions and recommendations	95
2.4.8 Spatial and urban planning	95
2.4.8.1 Urban development	97
2.4.8.2 Housing conditions	98
2.4.8.3 Conclusions and recommendations	99
2.5 WASTE MANAGEMENT	99
2.5.1 Municipal waste	100
2.5.1.1 Municipal waste generation	100
2.5.1.2 Collection of municipal waste and service coverage	102
2.5.1.3 Municipal waste treatment	103
2.5.1.4 Number of registered municipal waste landfills	103
2.5.1.5 Number of illegal municipal waste landfills	103
2.5.1.6 Degree of regional sanitary landfills establishment	104
2.5.1.7 Generation and recycling of packaging waste	105
2.5.2 Non-hazardous production waste	106
2.5.3 Hazardous production waste	107
2.5.4 Medical waste	108
2.5.5 Special categories of waste	109
2.5.6 Transboundary movement of hazardous waste	111
2.5.7 Conclusions and recommendations	112

CONTENTS

3.. STATES AND TRENDS IN THE ENVIRONMENT	114
3.1 FOREST RESOURCES	115
3.1.1 The most represented types of trees	115
3.1.2 Forest cover surface and ownership	115
3.1.3 Growing stock	116
3.1.4 Wood harvesting	116
3.1.5 Afforestation	118
3.1.6 Forest health	118
3.1.7 Landmine presence	118
3.1.8 Conclusions and recommendations	118
3.2 LAND AND SOIL RESOURCES	119
3.2.1 Land area by land use categories	119
3.2.2 Anthropogenic and special soil degradation	119
3.2.3 Land structure	121
3.2.4 Change of land use	123
3.2.5 Land ownership structure	124
3.2.6 Land types and soil quality	125
3.2.7 Conclusions and recommendations	126
3.3 SURFACE AND GROUNDWATER RESOURCES	127
3.3.1 Quantity of Surface Water	128
3.3.1.1 Use of freshwater resources	128
3.3.2 Surface water quality	130
3.3.2.1 Oxygen consuming substances in rivers	130
3.3.2.3 Bathing water quality	134
3.3.2.4 Urban waste water treatment	135
3.3.3 Groundwater	138
