

Review: Regional Implementation Plan for Environment and Development 2011-2015

1. Overview of Survey Questionnaire

Welcome to the ESCAP survey questionnaire to undertake a review of the Regional Implementation Plan for Sustainable Development in Asia and the Pacific, 2011-2015 (E/ESCAP/MCED(6)/12).

This survey questionnaire has been divided into six programme areas according to the Regional Implementation Plan for Sustainable Development in Asia and the Pacific, 2011-2015 as follows:

- (a) Harmonizing rapid economic growth, employment generation and environmental sustainability;
- (b) Promoting sustainable urban development;
- (c) Enhancing ecological carrying capacity;
- (d) Improving energy resource management for sustainable development;
- (e) Improving water resource management for sustainable development, including: sustainable urban development, provision of urban services to rural areas, and improved resilience to extreme weather events and climate change;
- (f) Enhancing the resilience of socio-economic development to climate change.

Each section of this survey questionnaire is comprised of a brief introduction followed by a set of multiple choice and open-ended questions. At the end of each section, you will have the opportunity to submit additional comments. Please provide specific examples as appropriate. If you need more space please use the sheets provided at the end of the document.

Each section should be completed by the ministry or ministries predominantly engaged in the corresponding programme area(s) of work. Each section should take approximately 20 minutes to complete depending on the extent of activities undertaken between October 2011 and December 2015.

For your reference, the full Regional Implementation Plan for Sustainable Development in Asia and the Pacific, 2011-2015 can be found at <http://www.unescap.org/official-documents/ministerial-conference-environment-and-development/session/6> along with other
