Part 3 - Future Work in the WTO

Strong commitment of all Members to advance negotiations on remaining Doha issues

Development to remain central and S&D provisions to remain integral

Priority to be accorded to concerns of LDCs

Recognition that many want to carry out work on the basis of the Doha structure, while some want to explore new architecture

Officials instructed to advance negotiations – DG to report regularly to GC on these efforts

What was said about DDA...

“Members have different views on how to address the negotiationsNevertheless, there remains a strong commitment of all Members to advance negotiations on the remaining Doha issues. This includes advancing work in all three pillars of agriculture, namely domestic support, market access and export competition, as well as non-agriculture market access, services, development, TRIPS and rules. Work on all the Ministerial Decisions adopted in Part II of this Declaration will remain an important element of our future agenda”.

This work shall maintain development at its centre and we reaffirm that provisions for special and differential treatment shall remain integral. Members shall also continue to give priority to the concerns and interests of least developed countries. Many Members want to carry out the work on the basis of the Doha structure, while some want to explore new architectures.”

What about “other/new issues”?

While priority to work where results not achieved as yet, recognition that some wish to identify and discuss other issues for negotiation

Recognition that others do not

Decision to launch negotiations multilaterally would need consensus

Members to identify what these issues could be

What else happened in Nairobi?

Agreement on ITA II

Two LDC Accessions

Liberia

Afghanistan
