Asia and the Pacific Report

ESCAP is the regional development arm of the United Nations and serves as the main economic and social development centre for the United Nations in Asia and the Pacific. Its mandate is to foster cooperation between its 53 members and 9 associate members. ESCAP provides the strategic link between global and country-level programmes and issues. It supports Governments of the region in consolidating regional positions and advocates regional approaches to meeting the region's unique and socio-economic challenges in a globalizing world. The ESCAP office is located in Bangkok, Thailand. Please visit our website at www.unescap.org for further information.

Preface

In September 2014, the United Nations Regional Commissions (UNRCs) including ECA, ECE, ECLAC, ESCAP and ESCWA, initiated a global survey to collect data and information on trade facilitation and paperless trade implementation from their respective member states. Conducted in collaboration with UNCTAD, OECD, ITC, OCO and SELA, the results of the survey are expected to enable countries and their development partners to better understand and monitor progress in trade facilitation, support evidence-based policy-making, identify good practices and identify capacity building and technical assistance needs.

The global survey represents a key initiative under the framework of the Joint UNRC Approach to Trade Facilitation, which was agreed upon by the Executive Secretaries of the five UNRCs in Beirut (January 2010) to enable the UNRCs to present a joint (global) view on key trade facilitation issues. The questionnaire for the global survey was jointly prepared and finalized by UNRCs and OECD to ensure data could be shared and compared.

The global survey builds on an annual regional survey carried out by ESCAP since 2012. It covers not only implementation of some important measures included in the WTO Trade Facilitation Agreement (TFA) but also of measures aimed at enabling paperless trade, or the conduct of trade using electronic rather than paper-based data and documentation. Indeed, a recent ESCAP study found that “next generation” trade facilitation measures have just as much potential as more traditional measures to reduce trade costs and increase intra- and extra-regional trade, with full implementation of cross-border paperless trade expected to generate USD 257 billion of additional export potential annually for the Asia-Pacific region alone.¹

This regional report is part of this global survey effort. It was prepared by Yann Duval, Tengfei Wang and Dimitra Tsoulou Malakoudi, Trade Facilitation Unit, Trade and Investment Division, ESCAP.
