

PDNA

POST-DISASTER NEEDS ASSESSMENT

The Post Disaster Needs Assessment: An Overview

Session Outline

- 1 Introduction to the PDNA
- 2 Conceptual Framework and Protocols for undertaking a PDNA
- 3 PDNA Process and Methodology
- 4 Strategic Results of Cooperation

Introduction to the PDNA

- 1 Evolution of the PDNA Methodology
- 2 What is a PDNA
- 3 Why Conduct a PDNA
- 4 Who Conducts a PDNA
- 5 Key Principles

Evolution of the PDNA Methodology

**Assessment
methodology
developed
by ECLAC
in 1970s**

**Adapted for
Global use by
WB as (DaLa)**

**Strengthened by
UNDG through
social analysis
and impacts
on human
development
and recovery
initiatives**

**PDNA -common
integrated
approach
that combines
context,
effects,
impacts and
recovery
strategy 2008-**

Post-crisis Cooperation Agreement and Guidelines

On 25 September 2008, the UNDG, EU and WB signed a **Joint Declaration** on Post-Crisis Assessments and Recovery Planning

- PDNA Volumes A and B
- Disaster Recovery Framework

Presented in September 2014 at the Second World Reconstruction Conference; officially launched at the Sendai World Conference on Disaster Reduction on 14

Risk

March 2015

What is a PDNA: Objectives

- The PDNA is a mechanism for **joint assessment and recovery planning** after a disaster
- The joint assessment analyses the **damage, economic loss, effects and impact** of the disaster and identifies **recovery needs** across identified sectors
- The assessment also highlights the **macro-economic and human** impacts of the disaster
- The recovery needs identified helps to **mobilize resources** and develop a comprehensive **recovery strategy**

Why conduct a PDNA: Rationale

- The PDNA is envisaged as a **country owned and led process**, supported by international agencies and other stakeholders
- By bringing together key stakeholders engaged in recovery, the PDNA aims to **avoid duplication and harmonize assessment efforts**
- The multi-stakeholder approach leads to the development of a single PDNA report that can be used as a **tool for planning and programming recovery**, as well for **resource mobilization**

Key Principles
