

# **NATIONALLY APPROPRIATE MITIGATION ACTION (NAMA) – WASTE TO SOURCES**

**People's Committee Kon Tum city**

# INTRODUCTION KON TUM CITY

- Kon Tum City is the provincial capital city of Kon Tum province, is the center of politics, culture, economics of Kon Tum province
- located in the south on Dak Bla river banks
- Are: 432,12 km<sup>2</sup>
- Population: 162.799 people
- Administrative unit: 21 (10 wards, 11 communes)

# WASTE MANAGEMENT

- Urban management committee division and implemented annually by Kon Tum urban environment joint stock company
- The process: Sanitation worker collect waste by handcart daily → garbage in the container → poured into the small truck and moved to transfer station and transported to landfills
- Results: 100-120 tons per day

# Difficulties

- The involvement of the community is limited
- People habit to throw all kind of rubbish together which led to the difficulties of the implementation of solid waste classification
- Waste collection and transportation are not effectively reached
- The component of waste are quiet complicated
- Waste on the areas mostly collected with manual methods

# OBJECTS

- To call for the involvement of the community, agencies, unions, youth... in environmental sanitation and hygiene management
- ▶ Building the urban civilization route on the city , monitoring the implementation to ensure environmental hygiene.
- ▶ Gradually raise the awareness and responsibility of citizen

## OBJECTS

- Planning needs assessment of community in waste collection process and facilitating to encourage organization and individual to participate in collection, transportation and waste classification at sources
- Directly manage waste collection activity
- Monitoring and other form of criticism
