

ARTNeT – AFD Project

Supporting equitable economic development in ASEAN:
Impact of regional integration (AEC) on Cambodia, Lao
PDR, Myanmar and Viet Nam (CLMV countries)

6 June 2016

Adam Heal
Trade, Investment and Innovation Division
United Nations ESCAP

Project Objectives

Reflecting the challenges posed by the AEC, the objective of the project is to strengthen the technical and analytical skills of researchers and officials from CLMV countries to manage and assess the impact of:

- (a) non-tariff measures, and
- (b) protection of intellectual property rights (IPR) (e.g., through geographical indications for food products exports).

Project Components

Research

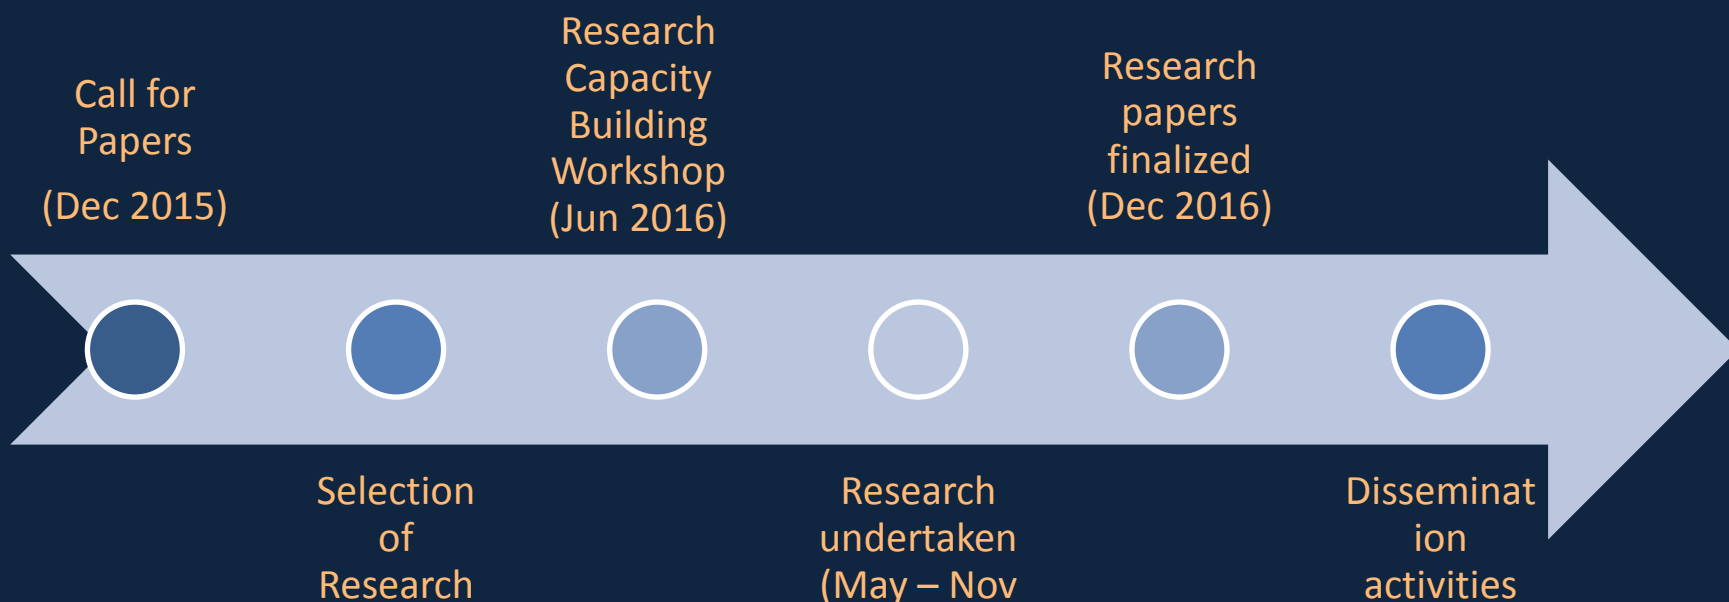

Capacity-
building

Knowledge-
dissemination

Selected Research Projects

Project	Streamlining NTMs in Cambodia: Challenges and Way Forward	The Influences of Geographical Indications on Agricultural Innovation of Vietnam: An Analysis of the Government Roles and Producers' Strategies	Facilitating Trade to Narrow Development Gap in ASEAN	Reducing Non-Tariff Measures – Benefitting From Mutual Recognition of Political or Judicial Recognition of Standards of Goods in ASEAN	Estimating the Impacts of Non-Tariff Measures (NTMs) on Export Potential for Lao PDR: A Case of Agricultural and Agro-Food Products.
Research Team	Ratha Kong, Ea Hai Khow, Liyeon Slot	Nguyen Hoang Anh, Giang Hoang	Vannarith Chheang, Pheakdey Heng	National Researchers	Chansamone Vongphaisit, Vanthana Nolintha
Project Adviser	Prabir De		Prabir De	Sufian Jusoh	Prabir De
