“Old” Development Knowledge

“New” Development Knowledge

- ***The relationship between aid and development:*** the effectiveness of ODA and DAC?
- ***What means good governance and effective government?***
- ***Who leads the development process?*** What is the relationship between market and government during the change process?
- ***What are the priorities in the development process?*** Institutional building or infrastructure construction?
- ***What are the perceptions of SSA?***
- ***What are the perceptions of Angola Model?***
- ***What are the values of working hard,*** and cultural differences in the development process?
- ***..... different dimensions: practice, policy and theory***

New Actors

- **Dual identities:** have experiences both as receiving countries and donors. The historical legacy, philosophical thinking, embedded context and relationship in practices are fundamentally different.
