# PROMOTE TRADE FACILITATION FOR BETTER CONNECTIVITY

**Improve  
supervision  
regime**

**Improve  
clearance  
service**

**Increase clearance  
efficiency**

By reforming and innovating, China Customs strive to create a trade environment that is fair, orderly, efficient, fast and open, which has in turn been put into practice for promoting the “Belt and Road” initiative and connectivity amongst countries.

**Simplify  
customs  
procedures**

**Reduce  
clearance cost**

### Upgrading supervision system on international multimodal transport of goods to promote the “Belt and Road” passageway

According to the United Nations Convention On International Multimodal Transport of Goods, "International multimodal transport" means “the carriage of goods by at least two different modes of transport on the basis of a multimodal transport contract from a place in one country at which the goods are taken in charge by the multimodal transport operator to a place designated for delivery situated in a different country”.

# PROMOTE TRADE FACILITATION FOR BETTER CONNECTIVITY

Upgrading supervision system on international multimodal transport of goods to promote the “Belt and Road” passageway

## 1) Establishing the regime for multimodal transport and improve supervision

By reducing procedures, we are gradually replacing the current mode of customs transit with a barrier-free way of flow of goods between different transport vehicles.

## PROMOTE TRADE FACILITATION FOR BETTER CONNECTIVITY

Upgrading supervision system on international multimodal transport of goods to promote the “Belt and Road” passageway

Comprehensively enhance the level of systematic IT application, intelligence and standardization so as to realize minimal supervision

Transits only need to be declare once, and information such as port of discharge, place of transit and place of destination can be verified in one stroke, thus integrating customs procedures into the management of supply chains of enterprises and reducing the need for deliberate customs control and inspection.
