Summary of the *Asia-Pacific Trade and Investment Report 2015* (E/ESCAP/CTI(4)/1)

Annotation

A summary of the *Asia-Pacific Trade and Investment Report 2015* will serve as a general background document for the session. The *Report* is an annual publication that contains descriptions of recent trends in trade and investment in the Asia-Pacific region and highlights of issues that require the attention of policymakers. In the years that the Committee does not meet, only a trend analysis is provided, which is published online. In the years that the Committee meets, a printed publication is made available; it contains a section in which a particular focus area is addressed. The focus area of the 2015 *Report* is Asia-Pacific participation in value chains and the role of trade and investment policies. In the publication, the current level and features of Asia-Pacific engagement in global and regional value chains are explored and policy recommendations aimed at enhancing that participation while pursuing the post-2015 development agenda are made. In this context, the *Report* contains a consideration of factors determining participation of countries at different development levels in the global and regional value chains, including trade liberalization through removal of tariff and non-tariff barriers, policies related to trade facilitation, promotion of investment, and technology transfer. Special attention is drawn to the role of services in enhancing efficiency in the manufacturing sector and other sectors involved in value chains. In the *Report*, the importance of holistic policies is stressed, in particular where participation in value chains is seen as a key driver of sustainable development. After the secretariat has made a presentation on the publication, a panel of four to five experts from government, academia and the private sector will present their views and discuss policies for enhancing South-South trade and investment and the role of ESCAP in this regard.

- (a) **Strategic direction and functioning of the Committee on Trade and Investment**
- (b) **Consideration of terms of reference of a permanent bureau of the Committee**

Annotation

At the Committee's third session, in 2013, it considered and deliberated on proposals made by the secretariat on the strategic direction and functioning of the Committee as contained in document E/ESCAP/CTI(3)/7/Rev.1. The Commission, in its resolution 70/5, designated, without prejudice to the outcome of the ongoing reforms of the conference structure of ESCAP and within the framework of the overall terms of reference of the Committee, the Committee as the appropriate body to closely monitor and guide the directions and requests contained in the resolution and draft regional action plans on specific trade and investment issues for implementation by national Governments and the secretariat alike. In document E/ESCAP/CTI(4)/2, the secretariat's recommendations regarding the strategic direction and functioning of the Committee are reviewed and updated in light of the requests and recommendations of the Committee at its third session and of the Commission in its resolution 70/5, including the request to the secretariat to prepare a feasibility study on a permanent bureau of the Committee, together with proposed terms of reference for such a bureau. The note by the secretariat, issued as document E/ESCAP/CTI(3)/7/Rev.1, will be recirculated as information note, E/ESCAP/CTI(4)/INF/4, for the convenience of the Committee.

- (c) **Consideration of the feasibility and desirability of convening a periodic Asia-Pacific ministerial-level conference in the area of trade and investment**

Annotation

In resolution 70/5, the Commission requested the Executive Secretary to study the feasibility of convening every four years, starting in 2016, a conference at the ministerial level to review recent developments and adopt regional action plans in the area of trade and investment and other related areas for implementation by Governments of ESCAP members and associate members and by the secretariat of ESCAP, and to submit to the Committee at its next session a report with recommendations on the convening of a ministerial-level conference. Document E/ESCAP/CTI(4)/3 contains information on the feasibility of organizing a ministerial conference and proposals for consideration by the Committee.

- (d) **Regional cooperation, research and analysis, and capacity-building initiatives in response to requests contained in the resolution**

Annotation

In resolution 70/5, the Commission made various requests to the Executive Secretary in the area of trade and investment, which can be grouped into three modalities of implementation: regional cooperation, capacity-building (technical assistance) and research and analysis. Document E/ESCAP/CTI(4)/4 provides an overview, for review by the Committee, of the recent activities and initiatives of the secretariat in this area on the basis of these modalities, except for those activities and initiatives under the regional institutions, which will be covered under agenda item 6. Document

E/ESCAP/CTI(4)/4 also provides the secretariat with guidance on the future direction of the activities and initiatives. The Committee will also be invited to propose other regional initiatives and research or capacity-building activities which would help member countries pursue trade and investment for inclusive and sustainable development.

(e) Engaging the business sector

Annotation

Under this agenda item, the Committee will review the modalities of ESCAP to engage the business sector in achieving sustainable development. For this purpose, document E/ESCAP/CTI(4)/5 contains a review of the work of and results achieved by the ESCAP Business Advisory Council and the ESCAP Sustainable Business Network and of their future direction as the principal modalities, together with the Asia-Pacific Business Forum, for the secretariat and ESCAP member States to engage with the private/business sector with a view to strengthening those modalities. The Committee will also be briefed (a) on the revised terms of reference for the ESCAP Business Advisory Council and the ESCAP Sustainable Business Network as adopted by the ESCAP Business Advisory Council at its ninth meeting in May 2015, (b) on the outcome of the Asia-Pacific Business Forum 2014, as contained in information note E/ESCAP/CTI(4)/INF/5, and (c) on the outcome of the Asia-Pacific Business Forum 2015, to be held on 3 November 2015. Subject to their availability, representatives of the ESCAP Business Advisory Council and of the ESCAP Sustainable Business Network will be invited to make a presentation, under this agenda item.

6. Reports on activities of the regional institutions

(a) Asian and Pacific Centre for Transfer of Technology

(b) Centre for Sustainable Agricultural Mechanization
