Cities Development Initiative for Asia (CDIA)

What is CDIA?

CDIA is an international partnership initiative, established in 2007 by the Asian Development Bank and the Government of Germany, with additional core funding support from the governments of Austria, Sweden, Switzerland, and the Shanghai Municipal Government.

Mandate

CDIA provides assistance to medium-sized Asian cities to bridge the gap between their development plans and the implementation of their infrastructure investments.

CDIA supports the identification and development of urban investment projects and links them with potential financiers.

Why CDIA?

Over the next 20 years, Asian cities must be ready to provide infrastructure and services to an expected 1 billion additional people if economic growth and competitiveness are to progress ...

Impact Areas

CDIA supports the identification and development of urban investment projects that emphasize one or more of the following impact areas:

- **Urban environmental improvement**
- **Urban poverty reduction – pro-poor agenda for inclusiveness**
- **Climate change mitigation or adaptation solutions**
- **Improved governance through networking**

Financing Asia's Urban Challenge

Estimated urban environmental
infrastructure investment
requirement ***US\$ 100 billion/year***

Infrastructure Investment Project Cycle

Bridging the Institutional Gap

Strengthen CDIA as a catalyst for innovation

Bridging the Planning – Financing Gap

Moving from planning, to prioritized sustainable
infrastructure investments, to securing financing

Bridging the Capacity Gap

Strengthen the mechanisms to develop city capacities to
prepare environmentally responsible, pro-poor and gender
sensitive infrastructure investment projects

CDIA uses tools through demand driven approach to assist cities to implement urban planning development strategies and infrastructure goals

Infrastructure Investment Prioritization

The City Infrastructure Investment Programming and Prioritization Toolkit assists cities in undertaking a more structured approach to urban infrastructure planning, prioritization, and programming.

Pre-feasibility Studies

The Pre-Feasibility Study Guidelines assist cities and consultant teams in formulating integrated, inclusive, and sustainable infrastructure projects.
