ECO Region

Introduction

Regional studies to implement TFEA

ECO/IDB Joint Project on implementation of TTFA

Transit Transport Framework Agreement (TTFA) is ECO's basic document in the transport sector.

TTFA entered into force in 2006. Eight out of ten member states are Contracting parties to TTFA.

Technical Assistance Agreement (Grant) was signed between ECO and IDB (2009) to prepare a Regional Program for the implementation of TTFA .

Corridor Management Studies under the Project (road and railway) were conducted with the aim to:

- Develop a reliable and efficient road and railway transport networks in the ECO region;
- Promote intra-regional transport connections through the promotion of cost effective transport corridors;
- Suggest improvement of the existing infrastructure to meet the new demands.

Final Report

Project for Preparation of a Regional Program on the Implementation of the Transit Transport Framework Agreement (TTFA)

ECO/IDB Joint Project on implementation of TTFA

ECO Road Network Development Plan

- ❑ Defined **seven** priority ECO Road routes with branches
- ❑ Identified around **forty seven** regionally important infrastructure projects along the ECO road routes for priority development
- ❑ Developed an **Investment Plan** for the priority projects. with the estimated cost of **US\$21bln**, out of which approximately 48% projects with the secured funds.

This Plan was approved by the 6th Transit Transport Coordination Council (Tehran, December 2013).

ECO Road Network Development Plan

Corridor Management Studies under the Project on Implementation of the TTFA

ECO/IDB Joint Project on implementation of TTFA

Corridor study

ECO Railway Network Development Plan

- ❑ Defined **five** priority ECO Rail routes with branches
- ❑ Identified about **forty** regionally important infrastructure projects along the routes for priority development.
- ❑ Developed an **Investment Plan** for the priority projects. with the estimated cost of **US\$43 bln**, out of which 38% of projects with the secured funds.

This Plan was approved by the 11th Meeting of the Heads of ECO Railway Authorities, held in Ankara in June, 2012.

ECO Railway Network Development Plan

Corridor Management Studies under
the Project on Implementation of the TTFA

Development of the ECO Road and Rail Corridors

Islamabad-Tehran-Istanbul Road Corridor

Further to the decisions of the 8th Meeting of the ECO Transport Ministers (Ashgabat, 2011), arrangements for establishing a road corridor between Islamabad-Tehran-Istanbul was initiated. The Corridor is being coordinated by the ECO High Level Working Group
