ESCAP Statistics

Data, data, data....

Out-dated

Not shared

Not trusted

Not reliable

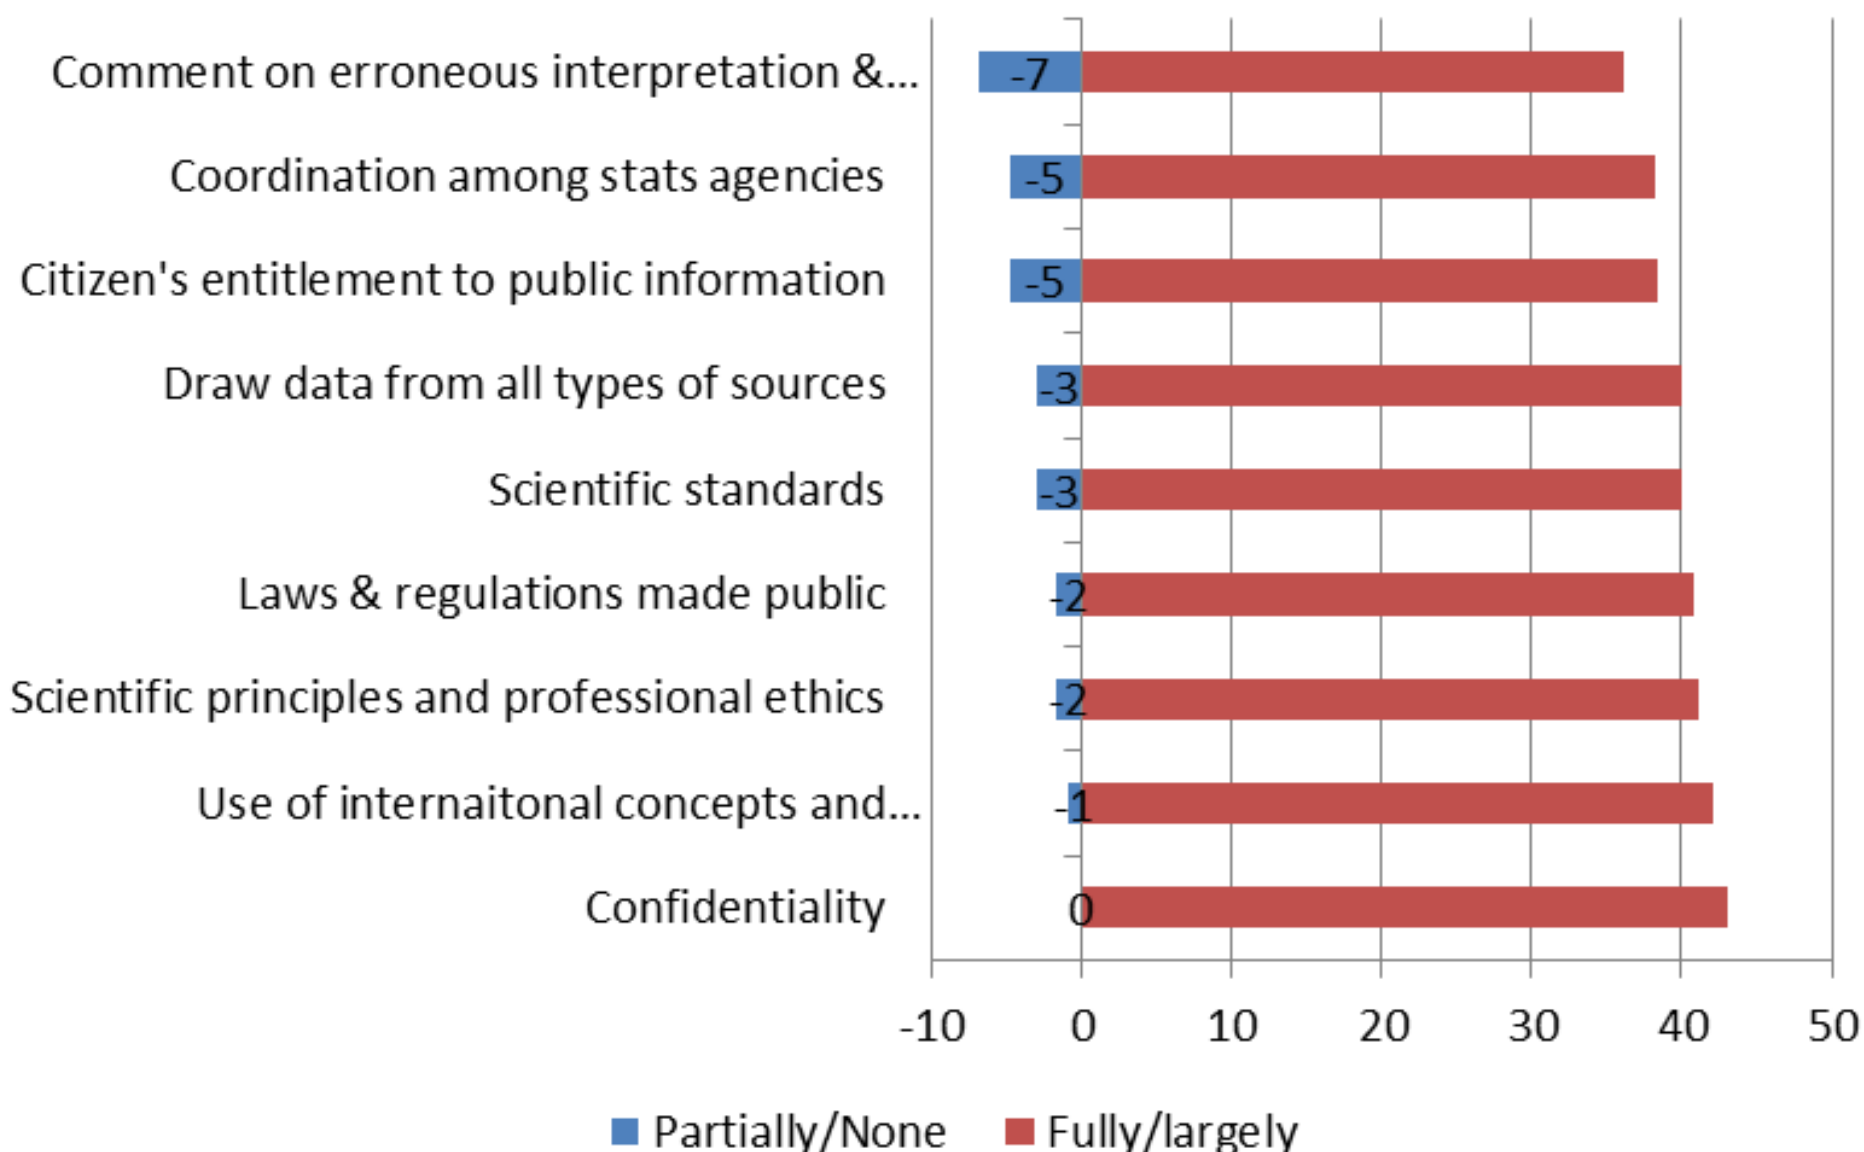

Where are they?

No standard

Not used

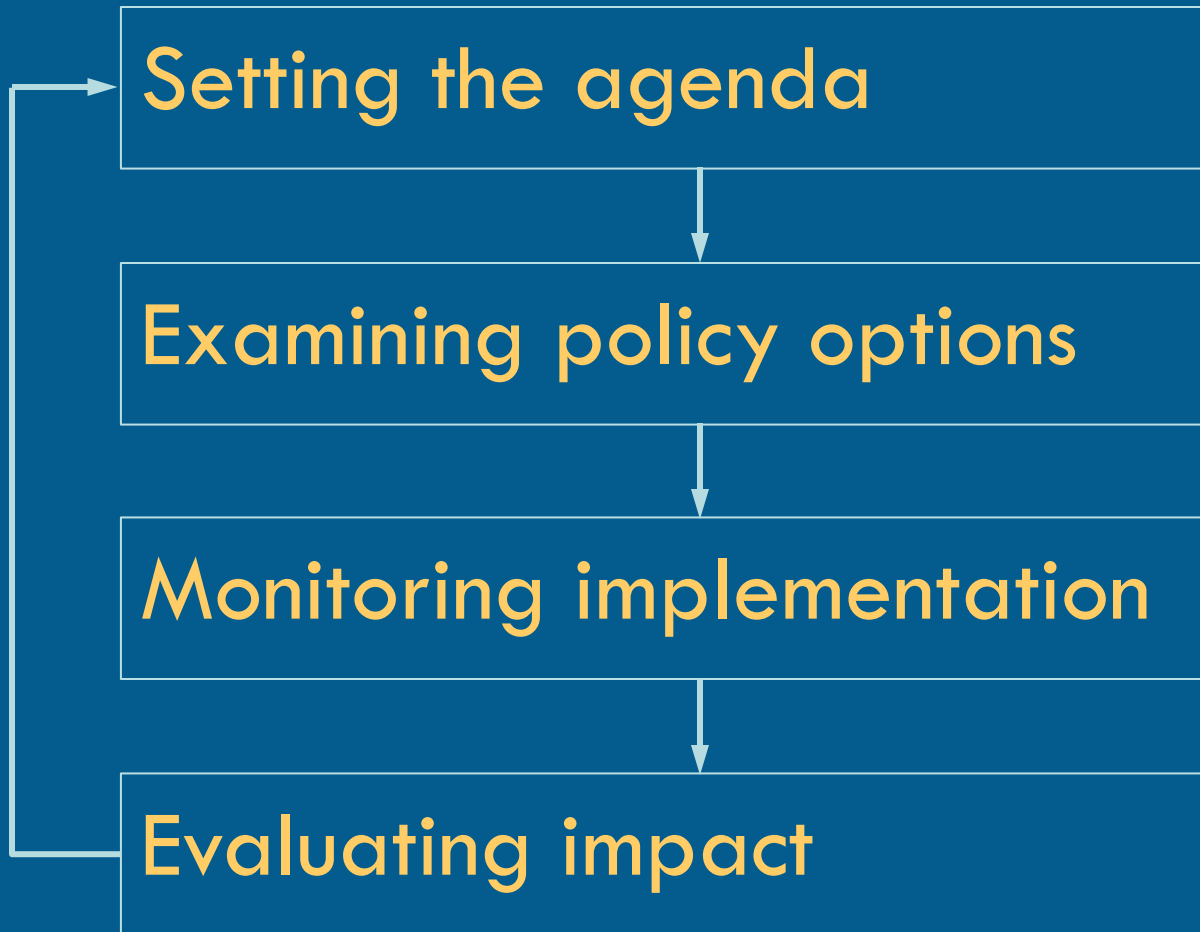

What's your experience?

Implementing fundamental principles of official statistics

Decision-making: Demand for data

Who needs data & for what purposes

	Contexts (What they have)	Actions (What they do)	Goals/targets (What they aspire)
Central governments, Minister(s)	√√	√√	√√
Local governments	√√	√√	√√
Civil society	√	√√	√√
HHs & individuals, inc. <u>vulnerable groups</u>	?	√	√√
Research	√√	√√	√√

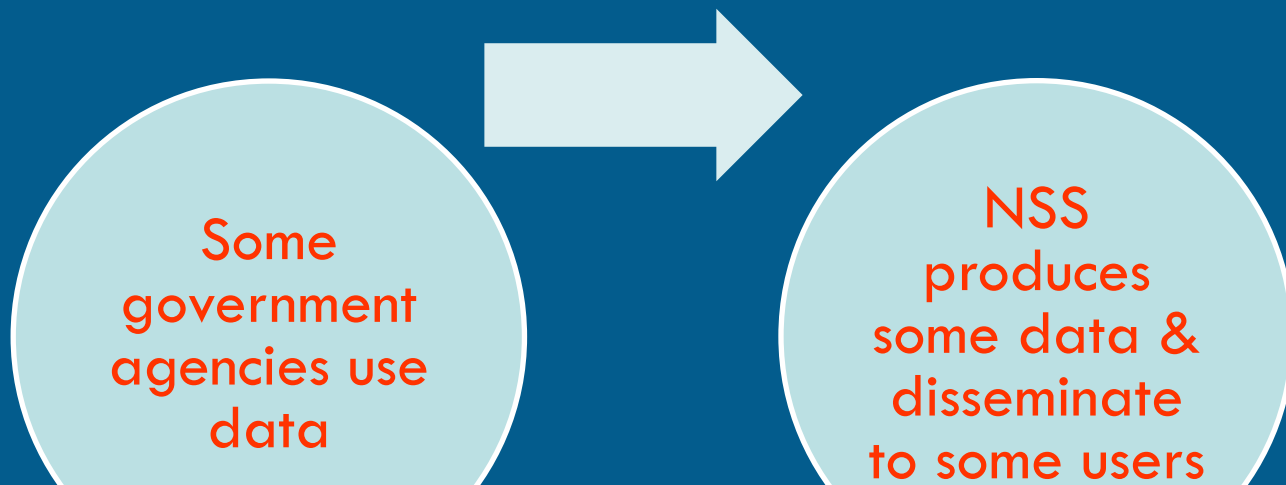

Effective national frameworks for A&M

- Go beyond vertical relationships to encompass a multi-sectoral framework
- Link existing mechanisms & ensure systematic communication/exchange of information
- Mainstream international goals into national development planning, monitoring and reporting

Who are stakeholders? Their data needs ?

Statistics and data: Limited demand and limited supply
