Public-Private Partnerships

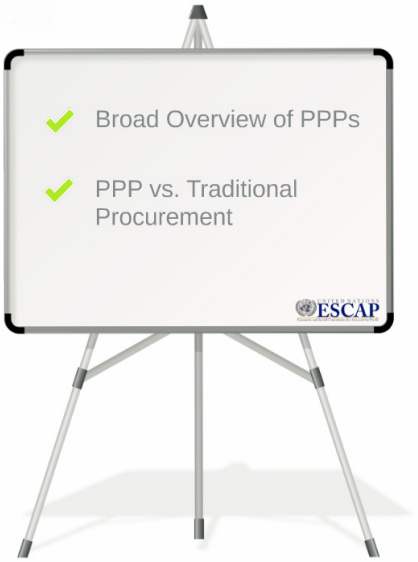
National Workshop for Bhutan

19-20 August 2014

PPP Concept, Benefits and Limitations

These slides were presented at the National Workshop on PPPs organized by ESCAP in Thimphu. The presentation aims at giving a broad overview of: what is a PPP and what are the main differences between PPPs and traditional procurement of public infrastructure.

Objectives



Notes:

ESCAP supports governments in Asia-Pacific in implementing measures to efficiently involve the private sector in infrastructure development. This online training is part of this effort and aims at improving knowledge on PPPs.
