- **Mr. Dinh Anh Tuan**, Expert, Department of Mother and Child's Health, Ministry of Health, Viet Nam

Rapporteur: UNDP

The objective of this session is to highlight the contribution of MDGs in framing a post 2015 development agenda. This session will discuss how MDGs served as a platform in the region in consensus building in achieving a set of internationally agreed development goals and countries responded by increased policy focus and resource mobilization efforts. It will also highlight some of the gaps that MDGs as a development framework suffered from and what lessons could be deduced in framing the next post-2015 development agenda including issues related to country

customization / localization of the MDGs and new challenges emerging since the MDGs were formulated – demographic change including ageing, GBV, rapid/unplanned urbanization, NCDs, climate change etc.

- **Mr. Nguyen Huong Thuy Phan**, Programme Coordinator for Climate Change Adaptation Initiative (CCAI), Mekong River Commission Secretariat

Rapporteur: ESCAP

This session will present the current global thinking on the international governance issues in light of emerging challenges. As the demand for public goods outstrips their supply, the current national, regional and international cooperation arrangements are being found increasingly wanting in closing that gap. Taking this as the underlying theme of the next 2014/15 MDGs Report, this session will seek the view of the different stakeholders on the theme itself as well as on the key issues that should be highlighted in the Report. The session will briefly discuss the contours of three inter-related and highly pertinent implementation issues, namely financing the post-2015 development agenda; technology, innovations and trade facilitation; and data and information.

- **Open discussion**
- **Summary by the Chair**

10:30 – 10:45

Coffee break

10:45 – 12:00

Session 5: Implementation Issues: Technology access and trade facilitation

Discussants:

- **Ms. Sudhiani Pratiwi**, Directorate for Environmental Affairs, National Development Planning Agency, Indonesia
- **Mr. Phouthanouthong Xaysombath**, Head Division of Local and Domestic Cooperation, Department of Planning and Cooperation, Ministry of Science and Technology, Lao People's Democratic Republic
- **Mr. Raksmei Phen**, Acting Manager of Development Issues Program and Development Issues Forum (DIF) coordinator, NGO Forum on Cambodia
- **Mr. Khalilur Rahman**, Liaison Office with ESCAP and Inter-Agency Coordination, WHO

Rapporteur: UNDP

This session will discuss the increasingly important role that cooperation in the areas of trade and technology play in supporting development progress in the region. International and regional cooperation on trade, especially in areas that have a direct bearing on the lives of the poor, in particular and livelihoods and employment more generally—(i.e. employment intensive sectors as well as health, food/nutrition,

communications, environment, etc.)—will need to be promoted as part of any new goal on development partnership. The session will review the role that institutions such as WTO, WIPO, UNFCCC play in this respect and examples from across the region will be shared in lowering the cost of technology transfer, easing access to and supporting technology development and innovation.

Session 6: Implementation issues: Strengthening the evidence base for development effectiveness (shaping policies and monitoring results)

Chair: Mr. Ano Herwana, Head, Environment Statistic Division, BPS (Badan Pusat Statistik), Indonesia

Presentation: Ms. Rikke Munk Hansen, Chief, Economic and Environment Statistics Section, Statistics Division, ESCAP

Discussants:

- **Ms. Budsara Sangaroon**, Statistician, National Statistical Office of Thailand
- **Ms. Tran Thi Thu Trang**, Statistician, Integrated Statistics Department, General Statistics Office of Viet Nam
- **Mr. Quaggiotto Giulio**, Pulse Lab Manager, United Nations Global Pulse

Rapporteur: ESCAP

This session will discuss the role of statistics as a key enabler of successfully implementing a post-2015 agenda. Emphasis will be put on the urgent need for strengthening national statistical systems, particularly in view of need to address issues such as equity and environmental responsibility. Open access to high quality statistics from administrative records and surveys is essential for ensuring strong national institutions and good governance. Furthermore, technology has helped in some cases to provide real-time data (i.e., in the aftermath of a disaster and prior to the onset of a flu outbreak). The session will high-light the current gaps and opportunities in this area of development cooperation, both from the perspective of
