**Asia-Pacific Outreach Meeting on Sustainable  
Development Financing**

Session 4: Climate Finance

**Japan's contribution in providing funds for  
adaptation and mitigation to climate change**

Naoki Mori

Japan International Cooperation Agency (JICA)

**Japan's Fast Start Finance  
under UNFCCC**

- USD 17bil. 2010-2012
- 70%- 80% Asia-Pacific region
- About 65% ODA fund
- About 80% Mitigation
- About 20% Adaptation

## Mobilize financing for adaptation measures

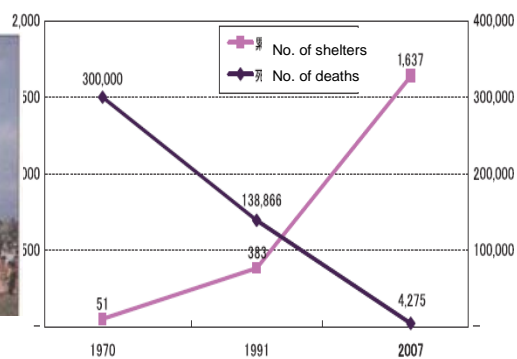

- Stand-by emergency credits for urgent recovery from natural disasters
- Disaster prevention & preparation
- Climate smart infrastructure development
- Agriculture insurance business development

## Disaster Risk Reduction in Bangladesh

Victims of cyclones and floods were drastically reduced with the increase in the number of cyclone shelters and meteorological radars.

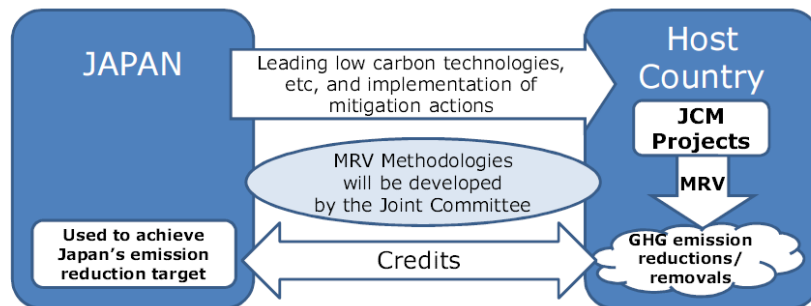

119 cyclone shelters were constructed by Japanese Grant Aid.

Data of World Food Programme were used

### Basic Concept of the JCM

- Facilitating diffusion of leading low carbon technologies, products, systems, services, and infrastructure as well as implementation of mitigation actions, and contributing to sustainable development of developing countries.
- Appropriately evaluating contributions to GHG emission reductions or removals from Japan in a quantitative manner, by applying measurement, reporting and verification (MRV) methodologies, and use them to achieve Japan's emission reduction target.
- Contributing to the ultimate objective of the UNFCCC by facilitating global actions for GHG emission reductions or removals, complementing the CDM.
