Institutional Arrangements

Role of ANDMA and Key Ministries

Afghanistan National Disaster Management Authority (ANDMA): provides the secretariat support for PDMC/NDMC and coordinates the humanitarian response along with line departments/ministries and humanitarian actors.

Ministry of Rural Rehabilitation and Development (MRRD): focuses on social protection, mitigation and long term recovery/development for the affected community aimed at resilience building.

Ministry of Defence (MoD): provides air transportation as well as search and rescue during major emergencies only as last resort.

Ministry of Interior: carrying out search & rescue operations, maintain law and order during distribution of relief items, Provision of fire fighting facilities , Holding drills and exercises for fire fighting, rescue, evacuation , transportation of injured persons , Utilizing the communication facilities of police for early warning and response

Ministry of Agriculture, Irrigation and Livestock (MAIL): takes part in food security assessments, food provision and drought response coordination.

Cont...

Ministry of Public Health provides health (MoPH): assistance to the affected, emergency sanitation and safe water; establishment of mobile clinics, surveillance and disease control.

Ministry of Refugees and Returns (MoRR): coordinates an influx of conflict induced internally displaced people (IDPs), undocumented migrants and refugee returnees. This includes attending to the protection related issues of these individuals.

Ministry of Transport and Aviation: provides transport and logistic support.

- **Department of Meteorology:** provides weather related information and early warning information. They work closely with ANDMA, Ministry of information and culture, the media and mobile telephone companies in disseminating information.

Information Management

Data collection from the field:

- ANDMA is Using traditional approach due to lack of resources (e.g Mobile, Email)
- Sharing information with government and Humanitarian agencies operating in Afghanistan based on demands.

Building Emergency Coordination Center

- To collect, analyze, map information(Currently ANDMA is assessed by UNOCHA, IOM, IMMAP and etc, on the basis of their own information)
