

Next Steps for Pan-Asian Terrestrial Network Development

Michael Ruddy
Director of International Research
Terabit Consulting

www.terabitconsulting.com

Revised Road Map / Next Steps

- **Continued analysis of remaining Asian markets**
 - Western Asia, Middle East, South Asia, and Northeast Asia
- **Engagement with stakeholders**
 - Convincing governments of the project's urgency
 - Transport agencies and operators of linear infrastructure must be consulted
 - Private-sector stakeholders
- **Commitment to principles**
- **Exploration of PPP Financing Opportunities**
 - Comments from World Bank are extremely encouraging
- **Financing will be contingent on a clear business opportunity**
 - Europe-to-Asia traffic will likely be the underlying justification
- **Full analysis of Europe-to-Asia market will be required**
- **Detailed feasibility study (DFS)**
- **Outreach to suppliers/solicitation of ROM quotations will also be necessary**
- **Urgency: due to market failure & limited opportunity to partake in planned near-term highway investment**
