ACKNOWLEDGEMENTS	VII
DISCLAIMER	VIII
EXECUTIVE SUMMARY	1
1. INTRODUCTION	4
Energy and Development.....	5
Energy Situation in South and South West Asia.....	8
Energy resource endowments.....	8
Energy production	11
Consumption of energy.....	13
Consumption-production balance and energy trade.....	16
2. CHALLENGES RELEVANT TO ENERGY SECURITY AND SUSTAINABLE USE OF ENERGY....	19
Sustainable development challenges.....	19
Population and poverty.....	21
Water and Health.....	22
Education.....	24
Environment.....	25
Energy Challenges.....	26
Energy access.....	26
Energy pricing, subsidies and taxation	31
Energy efficiency	34
Renewable energy	37
Energy trade	42
Linkages between sustainable development and energy challenges.....	45
Lighting for education.....	46
Empowering women	46
Creating livelihoods.....	46
Protecting the environment.....	47
3. OPPORTUNITIES FOR THE SUBREGION: ENERGY IN A COLLABORATIVE FRAMEWORK..	49
Improved utilisation of unequally distributed resources.....	49
Infrastructure development.....	54
Need to address energy access concerns	58
Promotion of sustainable energy choices and practices.....	59
Creation of efficient subregional markets	62
4. PROPOSED ACTIONS.....	67
Energy data collection and sharing.....	67

Power inter-connections	68
Subregional knowledge repository	69
Clean energy fund and technology incubation centre.....	70
Energy investments.....	71
Institutionalisation of cooperation	72
5. POLITICAL COMMITMENTS	75
REFERENCES	77

List Tables

Table	1: Income categories of countries in South and South West Asia	4
Table	2: Fossil Fuel Reserves in the SSWA subregion.....	9
Table	3: Theoretical hydroelectric power potential in SSWA countries (in GWh/year)	10
Table	4: Primary commercial energy production (2009).....	11
Table	5: Net installed capacity by type (in 2009)	Error! Bookmark not defined.
Table	6: Total energy requirement and dependence on traditional fuels in 2009 (in thousand terajoules).....	14
Table	7: Composition of commercial energy consumption in SSWA in 2009 (in thousand tonnes of oil equivalent).....	15
Table	8: Production, consumption and trade of commercial energy in SSWA (in thousand tonnes of oil equivalent).....	16
Table	9: Linkages between energy and Millennium Development Goals.....	19
Table	10: Population and gender inequality in the SSWA subregion.....	21
Table	11: Gini-coefficient in the sub-region	22
Table	12: Percentage of people with access to improved water sources in 2010.....	23
Table	13: Per capita expenditure on health in 2006 (ppp int. \$).....	23
Table	14: Education statistics for the subregion.....	24
Table	15: Electricity access targets in the subregion.....	30
Table	16: Energy subsidies in the region.....	Error! Bookmark not defined.
Table	17: Existing Non-Power Energy Trade in the Region	50
Table	18: Interconnections in the electricity sector	52
Table	19: Milestones in Energy Cooperation Under SAARC	63
Table	20: Regional power arrangements.....	69

List of Figures

Figure	1: Sector-wise value added in South and South West Asia in 2010	5
Figure	2: GDP and Energy Consumption	6
Figure	3: Energy consumption vis-à-vis income level	7
Figure	4: Per capita energy consumption and HDI in SSWA.....	8
Figure	5: Gross electricity generation in SSWA*	12
Figure	6: Sector-wise trend in Final Energy Consumption in the Subregion, 2009	15
Figure	7: Energy import dependence in SSWA, 2009	17
Figure	8: Per capita carbon dioxide emissions and average annual percentage growth in total carbon dioxide emissions	26
Figure	9: Access to electricity in the subregion	Error! Bookmark not defined.
Figure	10: Per capita electricity consumption in the subregion, 2009.....	27
Figure	11: Energy intensity of GDP (in \$/kgoe).....	35
Figure	12: Subregional energy mix, 2009	38
Figure	13: Installed power generation capacity and production in the subregion, 2009 .	54
Figure	14: Power trade flows and international pipelines.....	66

Acknowledgements

The project team gratefully acknowledges the support received from UNESCAP throughout the term of the project. The report has greatly benefitted from the presentations made by respective country representatives at the regional consultation meetings which provided significant insights. We would like to thank the member country governments for providing suggestions, comments and data which have informed our work.

We would also like to thank Dr Nagesh Kumar for his constant support for the project and our internal advisers and reviewers Mr. R.K.Batra and Dr. Ligia Noronha for their comments which have helped in improving the report.

Disclaimer

The data in most tables and figures is for the latest available comparable years. For some countries wherever information for later years is available, it has been referred to in the text following the tables/figures.

Energy refers to commercial energy unless otherwise stated.
