UNESCAP East and North-East Asia (ENEA) Office
- **Sponsor** Ministry of Environment, ROK

☞ This meeting will be held on the sidelines of '**ECO EXPO KOREA 2013**'

## Background

Sustainable consumption and production (SCP) aims at doing more with less, thereby sustaining economic growth while improving the quality of life and minimizing environmental externalities. The Republic of Korea has introduced a comprehensive policy package, including carbon footprint labeling, ecolabeling, green public procurement, green stores, and green credit card system, to stimulate demands in green products as well as accelerate market transition to a greener economy.

Building on its experiences, Korea Environmental Industry & Technology Institute (KEITI) is organizing International SCP Conference on 29 Oct to 1 Nov 2013 in Seoul, Republic of Korea, to share information and knowledge on SCP policies and practices on different aspects. The SCP conference will be held together with "ECO EXPO KOREA 2013". The SCP conference will consist of the meetings on carbon footprint labeling, ecolabeling, green public procurement, and green finance to create synergies for the mutual learning and the exchange of information among the experts and policy makers around the globe.
