Indonesia ICT Profile

MCIT

Total Population	251 Million
Fixed line subscribers consisting: PSTN 8.3 mill, FWA 31,7 mill.	40 million sub (16.6%)
Mobile:	262.6 millions subs (109%)
Internet users:	115.7 millions (48%)
Broadband (ADSL, FTTH, 3G, & HSDPA):	12 millions (5%)
TV Coverage	180 – 190 Million

Few facts

- Mobile and internet growth very fast
- 11 operators fight heavily in Urban, only a few build in Rural.
- In Urban almost everybody has 3-4 mobile simcards – used heavily on facebooks, twitter, and blackberrys - the 3th facebook the 1 st twiter and the first growth in blackberrys users in the world.
- In 2006 still 33,000 out of 70, 000 villages with no telephone → Big gap between Urban and Rural
- The first project of USO was installing public phone in every villages

Economy of Indonesia (Real Growth of GDP)

MCIT

Source : CEIC

With the GDP expected to reach US$ 1trillion this year, Indonesia is the largest economy in Southeast Asia. Much less affected by the global financial crisis compared to its neighboring countries, Indonesia's economy grew by 6.3% in the first semester of 2012, making it the fastest growing G20 economy after China. Indonesia grew by 6.5% in 2011 and 6.3% in 2012.

s of Broadband Development in
: NEED TO BE ACCELERATED

ed Backbone are not fully connecting all
cities, currently there are only 69,6% of
n Indonesia connected to the optical-
bone, not even exist in Maluku and

M (2012)

broadband services is stil high : around
/capita. As a comparison, in developed
he price of broadband services is around
capita.
