

Trade and the Environment

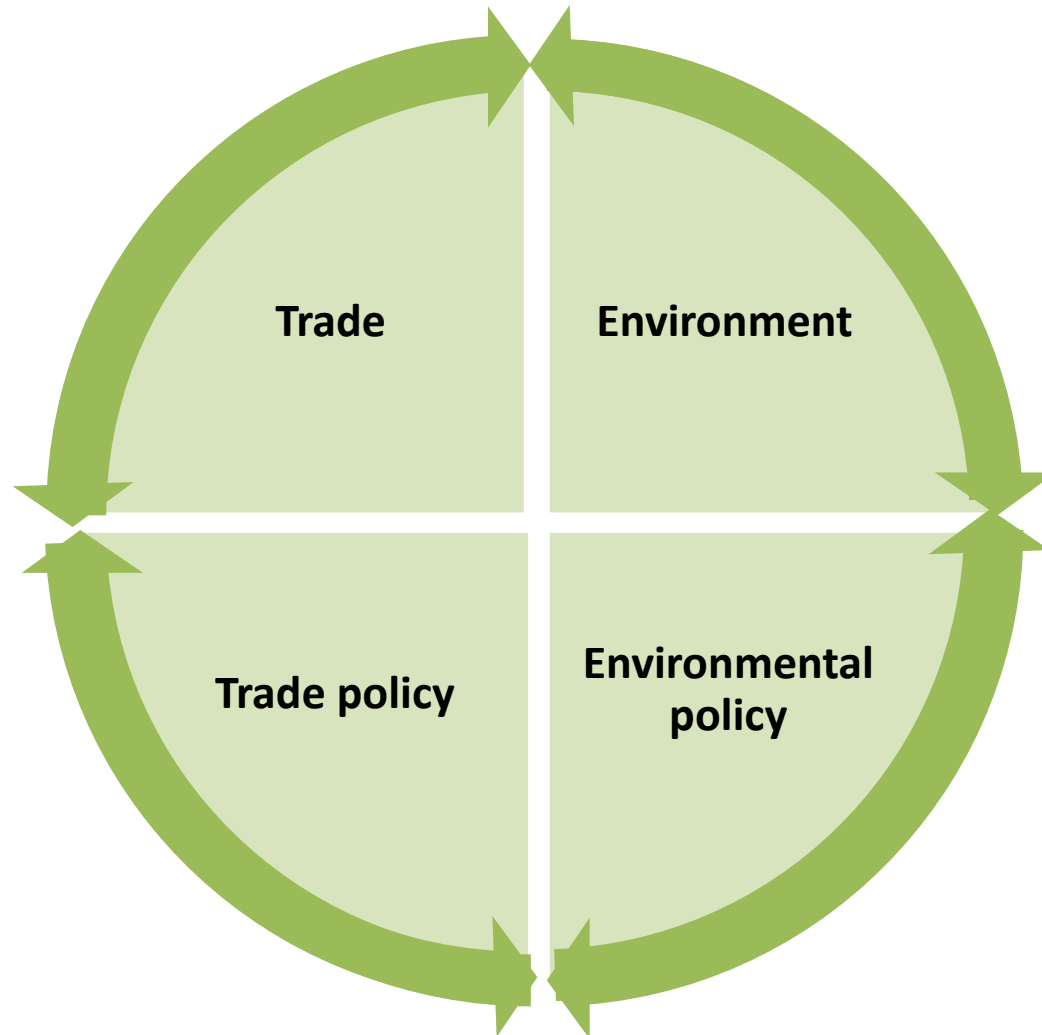

Selected Policy Issues

Regional Workshop on Trade and the Environment
for Asia-Pacific Economies

Bogor, Indonesia

17-19 September 2013

Trade and the environment: A two-way relationship

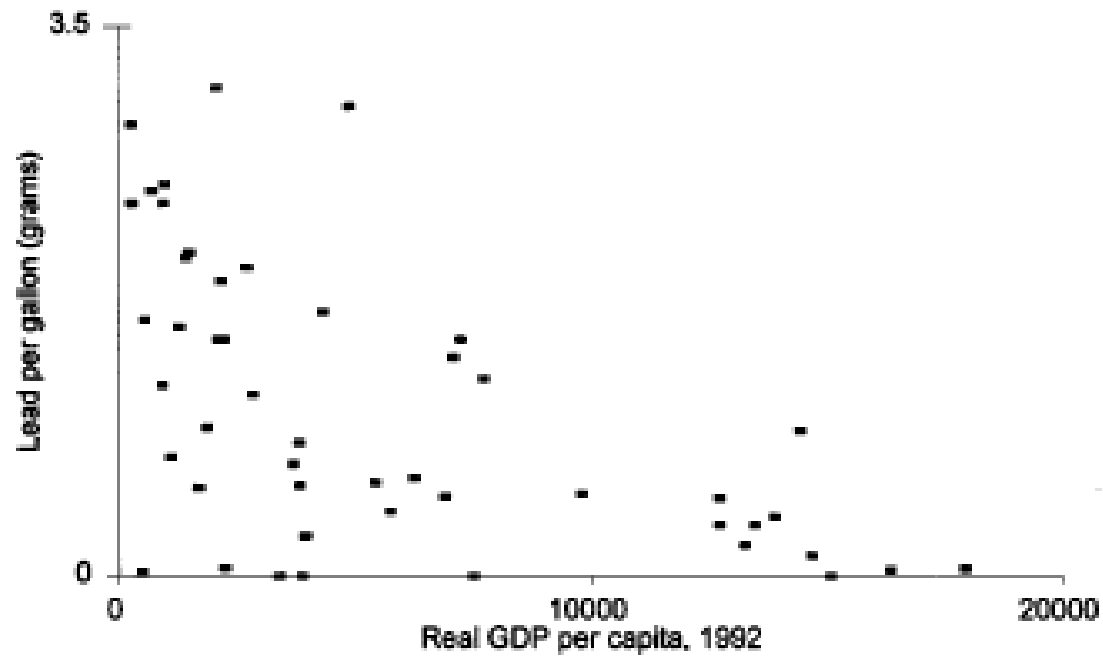

The broader policy context

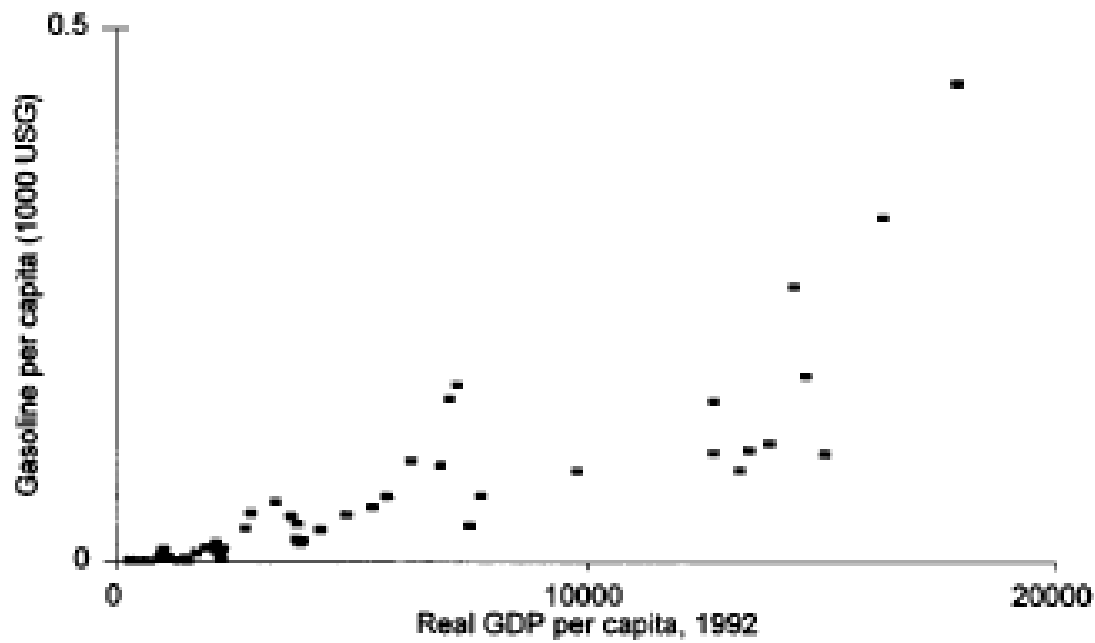

It's about sustainable development...

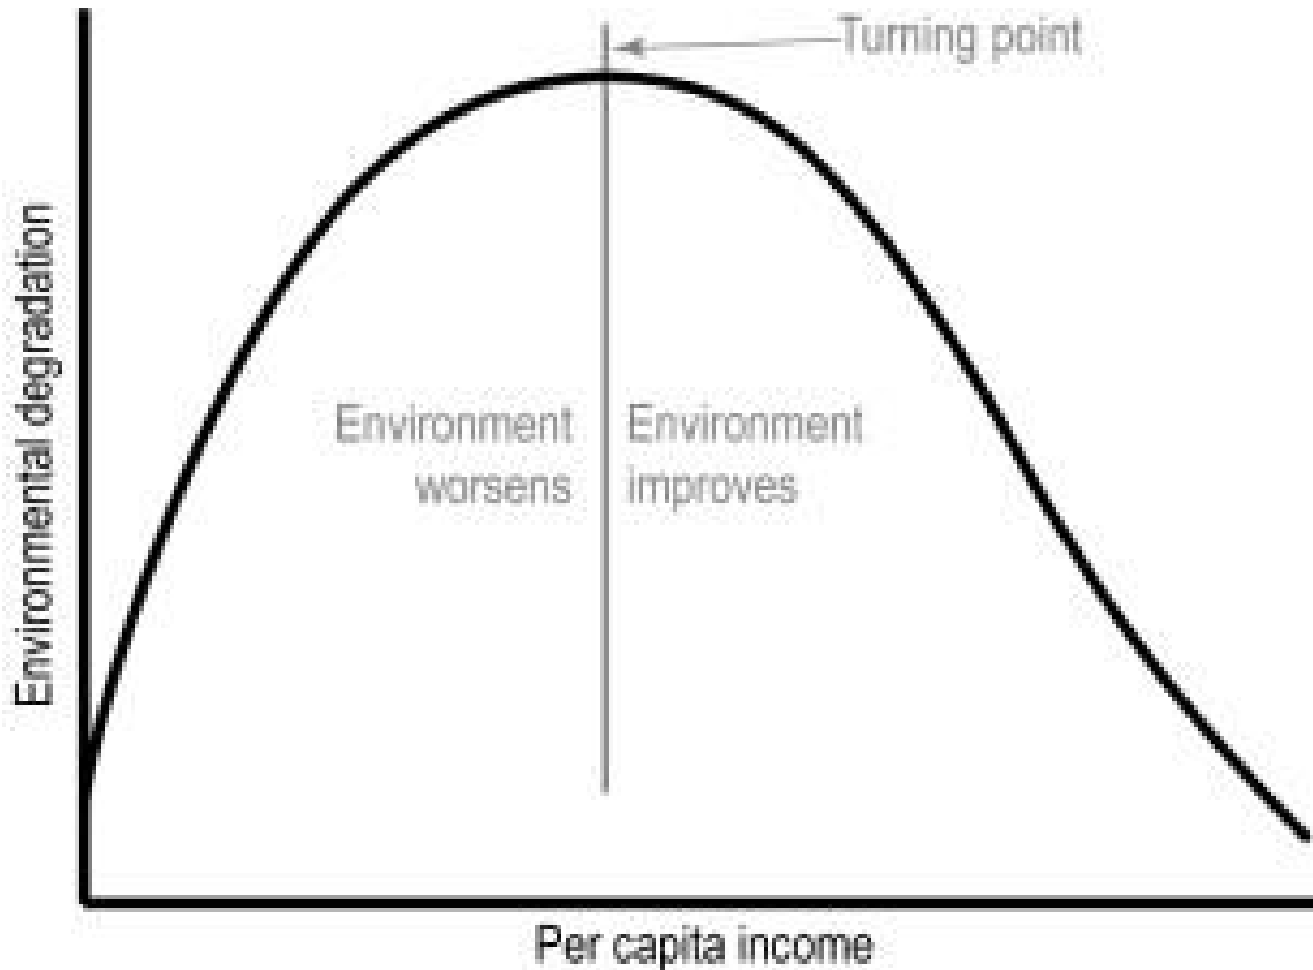

(a)

Source:
Hilton and Levinson (1998)

Can we have economic growth with
environmental improvement?

The environmental Kuznets curve

About trade

- Some key policy questions:
 - Does pollution rise when countries trade more?
 - Does trade enable rich countries to outsource pollution to poor countries?
 - Can more open trade result in cleaner production methods?

Does open trade result in weaker environmental
