

Source separation of municipal solid waste for effective 3R
implementation in Vietnam: Experiences from selected cities”
Hanoi, 1-2 .7.2013

SOURCE SEPARATION OUT PUT AND LEARNED EXERIEENCES IN KON TUM CITY

Project: “Pro-poor and sustainable solid waste management in secondary cities
and small towns”

Mr. Phung Van Thong
Chief of URENCO- Kontum

Overview of Kon Tum city

Area : 432.12 km²

Population : 150,767 people

Overview of solid waste in the city

- Amount of waste : 60 - 65 tons/day
- Ratio of collection : 75 -80% (center area: 90%)
- Element of waste: 65% (organic), 35 % (non-organic)

PREPARING FOR SOURCE SEPARATION

- Establishing Steering Committee for implementation of pilot source separation at city level and mobilizing, propagandizing source separation at ward level.
- Coordinating with ENDA to provide training for Steering Committee and Advocacy Board.
- Involving study-tours among cities
- Introducing source separation program on mass media in the city and providing leaflet to people
