Thailand	35
Philippines	44
India	47
Tunisia	61
Honduras	70
Ecuador	71
Indonesia	75
Paraguay	76
Syrian Arab Republic	80

World Bank LPI 2012

TOP 10 COUNTRIES

LOWER MIDDLE INCOME

Country	LPI Rank
India	46
Morocco	50
Philippines	52
Vietnam	53
Egypt, Arab Rep.	57
Indonesia	59
Yemen, Rep.	63
Ukraine	66
Pakistan	71
Guatemala	74

Logistics Blueprint: Main Key-Drivers

Logistics Vision

§ President Regulation, signed: 5 March 2012

Vision 2025

Locally Integrated, Globally Connected for National Competitiveness and Social Welfare

Missions

- 1.Support the effective and efficient flows of goods to ensure public basic needs are met, and that national product competitiveness is improved on the domestic, regional and global markets.
- 2.Create national logistics nodes and build their connectivity in rural and urban areas, and between regions, islands and international hub ports through multi-stakeholder collaboration.

Objectives: Support the effective and efficient flow of goods

- 1.Ensure the availability of basic and strategic commodities across Indonesia at affordable prices enabling a fair and prosperous society and strengthen the national sovereignty and integrity;
- 2.Reduce logistics costs through improvement of flow of goods and improved national logistics services capacity thus improve national competitiveness in national and global markets;
- 3.Prepare for international commitments (e.g., ASEAN logistics integration under PIS, AEC in 2015, and global market integration).

Logistics Blueprint: Network System

Local and National Network Integration

Global Network Connection

Logistics Blueprint: short Sea Shipping

Short Sea Shipping is the backbone of National Freight Transportation System

SLoC: Sea Lane of Communication; ALKI: Alur Laut Kepulauan Indonesia (Indonesian Archipelagic Sea Lane)

Logistics Blueprint: Distribution Network
