and

ESCAP revised road safety questionnaire template for data collection

UN General Assembly resolution 64/255 of 2 March 2010

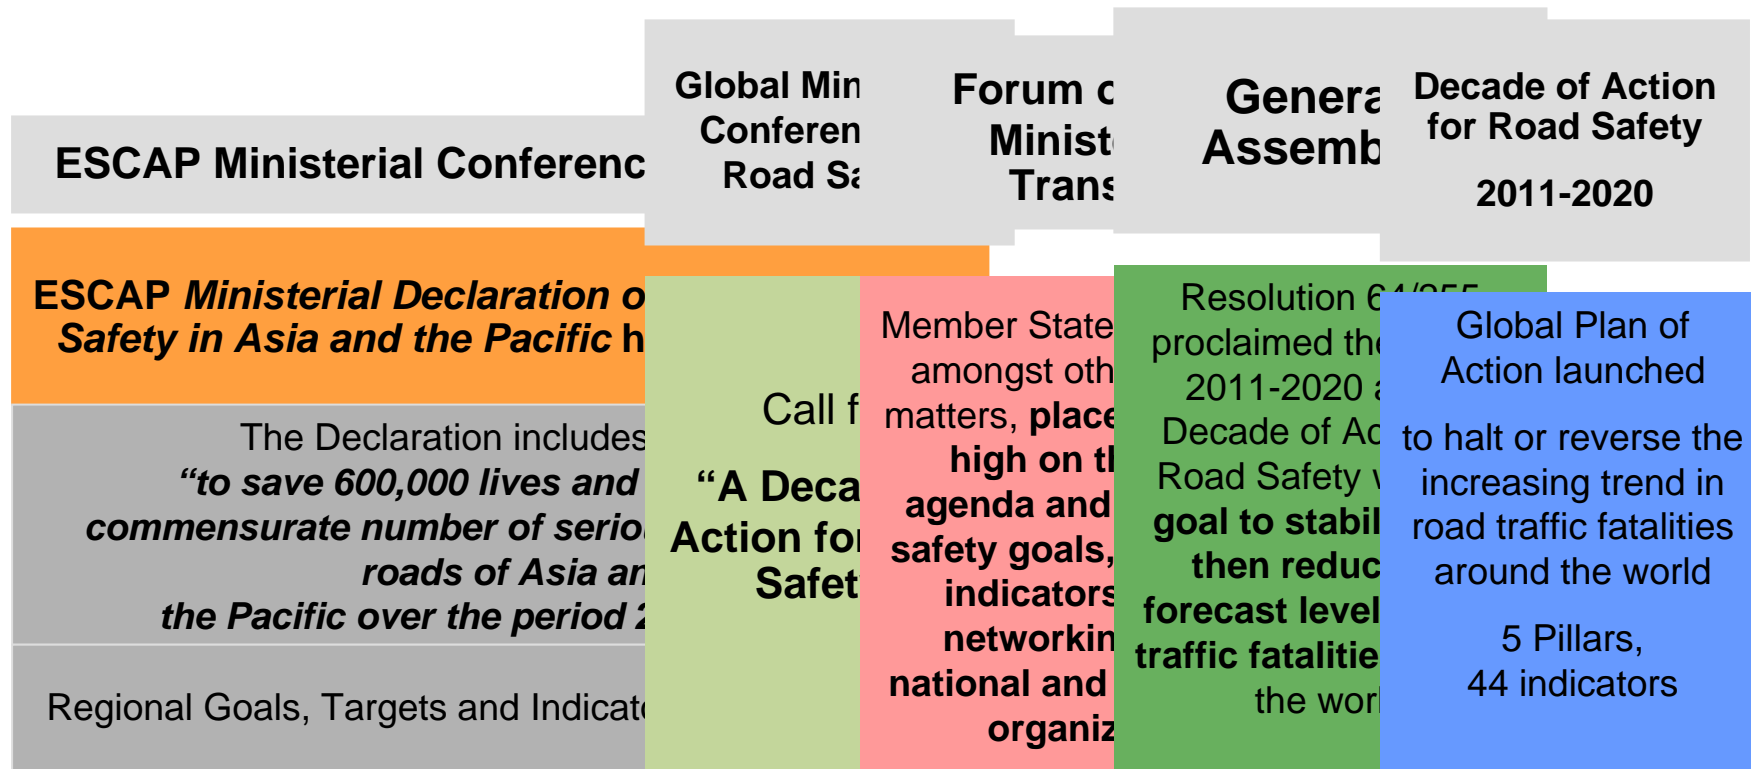

Para 17:

WHO and the UN regional commissions to coordinate
regular monitoring, within the framework of the UNRSC, of
global progress towards meeting the targets identified in the
plan of action and to develop global status reports on road
safety and other appropriate monitoring tools.

Global Plan for the Decade of Action

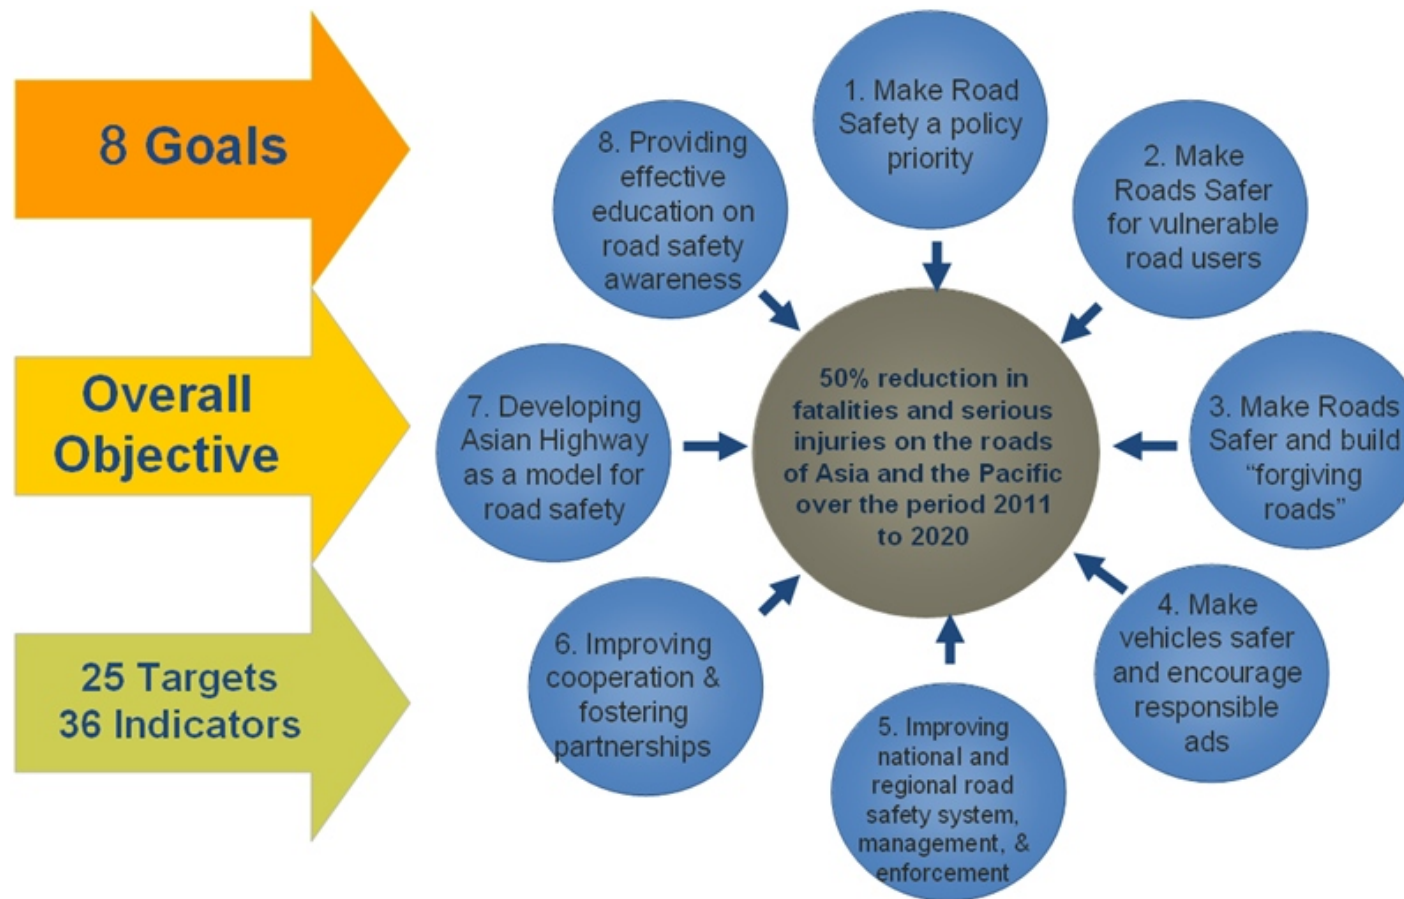

- **Overall goal:** to halt or reverse the increasing trend in road traffic fatalities around the world by increasing activities at the national level
- **Global level:** International coordination, strengthening global architecture for road safety
- **National level (5 pillars):** Road Safety Management, Safer roads and mobility, Safer vehicles, Safer road users, Post-crash response
- **The Decade Global Plan Indicators:** 29 core indicators, 15 optional indicators (total 44 indicators)

ESCAP Regional Road Safety Goals, Targets, and Indicators

ESCAP revised road safety questionnaire template for data collection

Revised Regional Indicators aligned with Global PoA

- Revised set of indicators: 36 indicators
24 common indicators with the Global Plan indicators (17 core and 4 optional)
12 indicators are of regional interests for example AH safety
- Require more frequent monitoring (serving our legislative meeting and reporting) → ESCAP collects road safety data from member States approximately every two years (in conjunction with the Road Safety EGM)
- Information provided by member States based on country status reports
