

Vulnerable Road User Safety Situation in the ESCAP Region

Expert Group Meeting on
Progress in Road Safety Improvement in Asia and the Pacific

8 May ~ 10 May 2013 | Seoul, Korea

organized by

and

Half of the world's road traffic fatalities occur among VRUs

VULNERABLE ROAD USERS

(From the 2nd Global Status Report on Road Safety)

In the ESCAP region, road traffic deaths among VRUs account
for nearly **55 per cent** of total road traffic fatalities

Vulnerable Road User Safety Situation in the ESCAP Region

UN General Assembly resolution 66/260 of 23 May 2012

..encouraged Member States to develop national plans that are in line with the Global Plan for the Decade of Action for Road Safety 2011–2020, **paying special attention to the needs of all road users, in particular pedestrians, cyclists and other vulnerable road users**

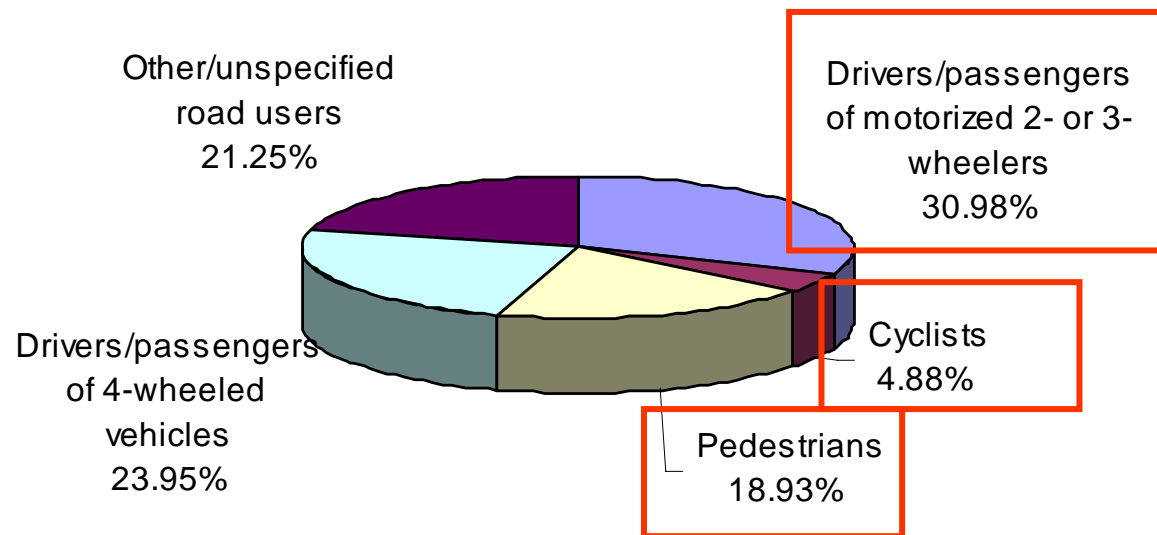

..requested the World Health Organization and the United Nations regional commissions to organize activities during the second United Nations Global Road Safety Week (6-12 May 2013), **to raise global, regional, national and local awareness about road safety issues, with particular attention to vulnerable road users**
