EXECUTIVE SUMMARY	11
INTRODUCTION	14
Background.....	14
Purpose and objectives of the assessment report.....	14
Structure of the report.....	15
SECTION I	16
ENERGY ACCESS: EXISTING AND PERSISTENT CHALLENGES IN ENHANCING ENERGY ACCESS IN ASIA AND THE PACIFIC	16
1. Defining energy access	16
1.1 Energy services and poverty.....	16
1.2 What constitutes energy access.....	17
1.3 Defining energy poverty.....	18
1.4 Multifaceted nature of energy access: Composite indicators	21
1.5 The Multidimensional Energy Poverty Index: A multidimensional mapping of energy poverty in Asia and the Pacific.....	22
2. Energy access for the poor in Asia and the Pacific: Policy and practice	25
2.1 Mapping the energy services used by the poor	25
2.1.1 Energy for basic needs.....	26
2.1.2 Energy services for income generation.....	30
2.2 A review of policies and practice in expanding energy access	31
2.2.1 Initiatives in reaching energy services to the poor	31
2.2.2 Electrification policies.....	31
2.2.3 Policies in cooking energy technologies and fuels.....	33
2.2.4 Renewable energy and its contribution to expanding energy access.....	35
2.2.5 Prevalent energy service delivery models in Asia and the Pacific	37
2.2.6 Financing of energy access for the poor	38
3. Energy access in Asia and the Pacific: Present situation, gaps and challenges	40
3.1 Current status of energy access.....	40
3.2 Mapping energy poverty in Asia and the Pacific	44
3.2.1 Implications of not having electricity access	45
3.2.2 Implications of not having access to modern cooking fuels and technologies.....	47
3.3 Policy and implementation gaps: Persistent challenges to improving energy access	50

4. The future business-as-usual scenario of energy access.....	54
4.1.1 Access to electricity.....	56
4.1.2 Access to clean cooking facilities.....	57
4.2 Developmental impacts of expanding energy access	59
5. Promising approaches	64
5.1 Encouraging private sector participation in biogas dissemination: Biogas Support Programme Nepal.....	64
5.2 Standardization and certification for quality control: Improved cookstoves in Cambodia ..	65
5.3 Unwavering commitment, long-term vision and a flexible approach: Rural electrification in Vietnam.....	67
5.4 A customized approach to solar home light dissemination: Solar Electric Company India.	69
5.5 Solar lanterns with central charging station: Lighting a Billion Lives programme, The Energy and Resources Institute India	70
5.6 Synthesis and lessons learned: Overall strategies	71
SECTION II	76
UNIVERSAL ACCESS TO ENERGY BY 2030: PRESENT OPPORTUNITIES	76
6. Existing policy and implementation opportunities	76
7. Imperatives for achieving universal energy access by 2030.....	79
7.1 Policy and strategic directions for expanding energy access.....	79
7.2 Electrification for expanding energy access: Strategic directions.....	80
7.3 Cooking fuels and improved cookstoves: Strategic directions	81
7.4 Costs of meeting the targets: Financing requirements for universal energy access	82
7.5 Costing universal energy access in East Asia.....	85
8. Way Forward to the Asia-Pacific-Energy-Forum: An agenda for action	88
8.1 An initiative to measure, benchmark and monitor progress on energy access	88
8.2 Create a database on energy services for livelihoods, including motive power	89
8.3 Promote regional cooperation through systematic documentation and sharing of innovative processes and practices in energy access	89
8.4 Facilitate interministerial dialogue	89
8.5 Capacity development initiative	90
8.6 Promoting regional cooperation and connectivity in the oil strategy.....	90
9. Working towards the Asian and Pacific Energy Forum.....	91
9.1 Policy and action agenda note	91
9.2 Preparatory meeting for the Asian and Pacific Energy Forum.....	91
9.3 Discussions at the Asian and Pacific Energy Forum	92
9.4 Conclusions and recommendations.....	93

Annex 1. Energy consumption pattern in selected Asia-Pacific countries	101
Annex 2. Production, trade and consumption of commercial energy	102
Annex 3. Draft policy and action agenda note on energy access	103

Figures

Figure 1 Energy for cooking in India – urban households.....	26
Figure 2 Energy for cooking in India– rural households	27
Figure 3 Biomass use and demographic indicators	27
Figure 4 Energy for lighting in India– rural households	29
Figure 5 Energy for lighting in India– urban households	29
Figure 6 Estimated Shares of Grid-Based and Off -Grid Electricity in East Asia and Pacific Countries (population with electricity access, %), 2009	32
Figure 7 Renewable power generation and capacity as a proportion of global power, 2004-2010.....	36
Figure 8 Fossil-fuel subsidies in selected countries, 2010	38
Figure 9. Share of global final energy consumption by sector, 2005	41
Figure 10. Efficiency of lighting fuels	46
Figure 11. Access to modern fuels for cooking and heating in Asia and the Pacific	47
Figure 12. Premature annual deaths from cookstove smoke and selected diseases	48
Figure 13. Population without access to modern fuels with the deaths ascribed to biomass use	49
Figure 14. Number of people using improved cookstoves (million)	53
Figure 15. Oil production, consumption, net surplus or deficit in major regions of the world, 2006.....	54
Figure 16. Projected trends in major causes of premature deaths in developing countries, 2008–20.....	55
Figure 17. Multidimensional Energy Poverty Index: Extent of energy poverty in 2030.....	56
Figure 18. Health impact of biomass smoke in 2030.....	58
Figure 19. Investment Requirements for universal access to electricity and modern cooking solutions in East Asia and the Pacific, 2011–30.....	86

Tables

Table 1. The energy needs of the poor: A case study of India	17
Table 2. Practical Action’s Energy Access Index	20
Table 3. Dimensions and respective variables with cut-offs, including relative weights	23
Table 4. Variables used for assessing energy poverty in Asia and the Pacific	24
Table 5. Typical end uses by energy source in developing countries	25
Table 6. Access to electricity in East Asia and the Pacificregion	30
Table 7. National targets for expanding energy access in select Asia-Pacific countries	34
Table 8. Population without modern cooking fuels, East Asia and Pacific countries.....	35
Table 9. People without access to electricity and relying on traditional use of biomass, 2009	42
Table 10. The Multidimensional Energy Poverty Index framework to measure energy poverty	44

Table 11. The Multidimensional Energy Poverty Index for select Asia-Pacific countries.....	45
Table 12. Number of people without access to electricity by region (million).....	51
Table 13. Number of people relying on traditional biomass as their primary cooking fuel (million)	51
Table 14. People without access to electricity in the New Policies scenario (million).....	57
Table 15 People without clean cooking facilities in the New Policies scenario (million)	58
Table 16 Millennium Development Goals benefits of expanding energy access to the poor	59
Table 17. Levellized power generation costs for various technologies, 2005	61
Table 18 Commune and household electrification rates, 1996-2009	67
Table 19 Government electricity access targets in Fiji	72
Table 20. Additional financing for electricity access in the Energy for All case, 2010-2030 ..	82
Table 21. Generation requirements for universal electricity access, 2030 (TWh).....	83
Table 22. Additional financing for clean cooking facilities in the Energy for All case, 2010-2030.....	84

Boxes

Box 1. Improved stoves: Technologies and usage	28
Box 2. How relevant are the cooking energy subsidies for the poor?.....	39
Box 3. Energy access situation: The global scenario.....	40
Box 4. The case of energy access in India.....	43
Box 5. Multiple product –price options	52
Box 6. Electrification and its impacts on women	62
Box 7. Focus areas of the Sustainable Energy for All initiative	77

ABBREVIATIONS AND ACRONYMS

ADB	Asian Development Bank
AGECC	Advisory Group on Energy and Climate Change
BEE	Bureau of Energy Efficiency, India
BSP	Biogas Support Programme, Nepal
CBO	Community-based organization
CDM	Clean development mechanism
DPBURC	Promotion of Biogas Utilization in Rural China Project
EAP	East Asia and Pacific
EDI	Energy Development Index
EGM	expert group meeting
ESMAP	Energy Sector management Assistance Programme, World bank
EVN	Viet Nam Electricity (utility)
GACC	Global Alliance on Clean Cookstoves
	GDP gross domestic product
GERES	Groupe Energies Renouvelables, Environnement et Solidarités
GVEP	Global Village Energy Partnership
	IDCOL Infrastructure Development Company Limited
IEA	International Energy Agency
LABL	Lighting a Billion Lights programme
LED	light emitting diode
LPG	Liquefied Petroleum Gas
MDG	Millennium Development Goal
MEPI	Multidimensional Energy Poverty Index
MFI	Microfinance Institution
NGO	non- governmental organization
	OECD Organization for European Economic Co-operation
PIC	Pacific island countries
PPP	public private partnership
	PV photovoltaic
