

APEC's Work on Trade Facilitation

Supply-chain Connectivity Framework

Overall Goal

10% improvement in supply-chain performance by 2015 – measured by reductions in Time, Cost and Uncertainty

Activities Update 2012

CP1: Lack of Transparency

- Initiative to Advance the Action Plan for CP1:

- “Supply Chain Inventory”; Diagnostic reports; Targeted capacity building

CP2: Lack of Transport Infrastructure

-Workshop on Supply Chain Performance Measurements and internal indicators

CP3: Lack of Capacity of Local/Regional Logistics Subproviders

-Multi-year project on “Enhancing Logistics Performance through Training and Networking for APEC Local/Regional Logistics Subproviders”

CP4: Inefficient Clearance of Goods

- Pathfinder to Enhance Supply-Chain Connectivity by Establishing a Baseline De Minimis Value
- Workshop on “Single Window”

Update 2012

...ne Procedures for Customs Documentations
...ation of Origin Capacity Building Program
...e “Study on the Readiness of Electronic Certificate of Origin
...tion in Cross-border Trade in APEC Region

...veloped and Inefficient Multi-modal Connectivity
...ibility (SCV) Initiative, Phase III

...in Cross-border Standards and Regulations
...mic impact of submarine telecommunications cable
...ing of regulatory barriers to cable protection and repair.

...gional Cross-border Customs-transit

...velopment of a set of Customs-Transit Guidelines for APEC
