

Introduction to The Single Window in Korea

Soyoung Yang

2012

Contents

I. Introduction

II. Implementation Phase

III. Single Window System Composition

IV. Performance Evaluation

V. Major Challenges

VI. Conclusion

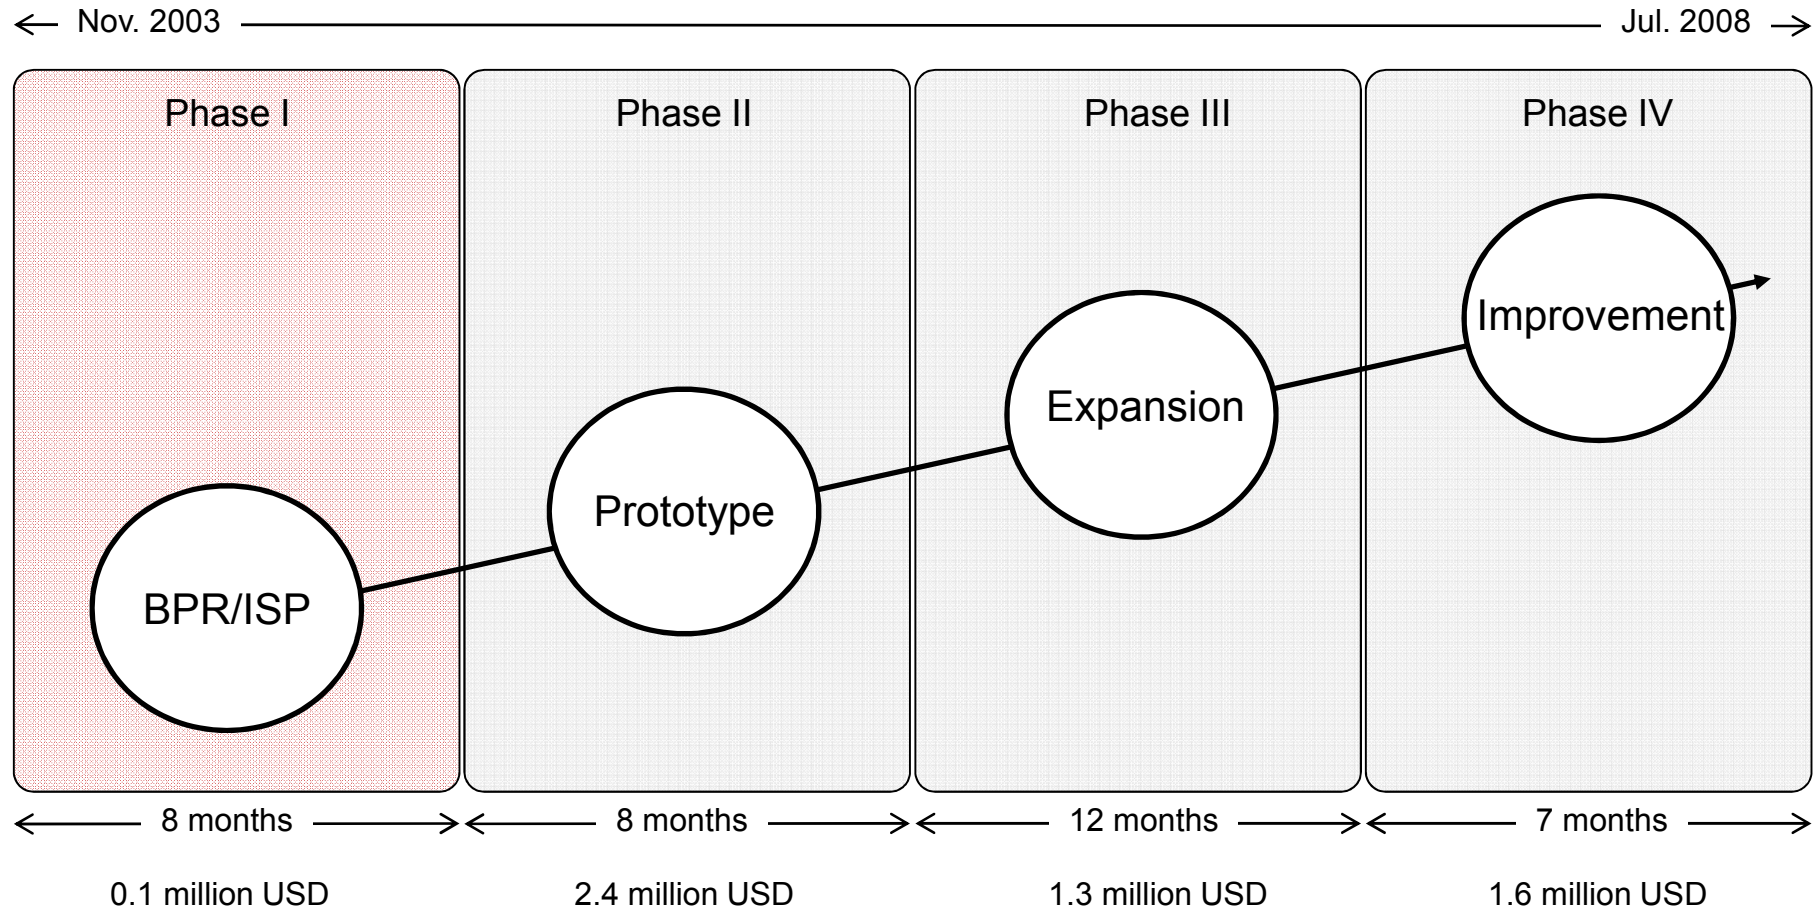

Trade Facilitation		
Solution	Automated clearance system	
Achievements	Elimination of customs flow bottlenecks	Lower logistics costs
Could not solve	Delays in obtaining license/approval from related agencies (bottleneck in business process not related to customs)	
Solution	Single Window System	
Achievements	Info. exchange between government agencies	Improve movement of goods across borders
		Further lower logistics costs

KCS' Single Window Global Best Practice

Beneficial not only to business but also to the government

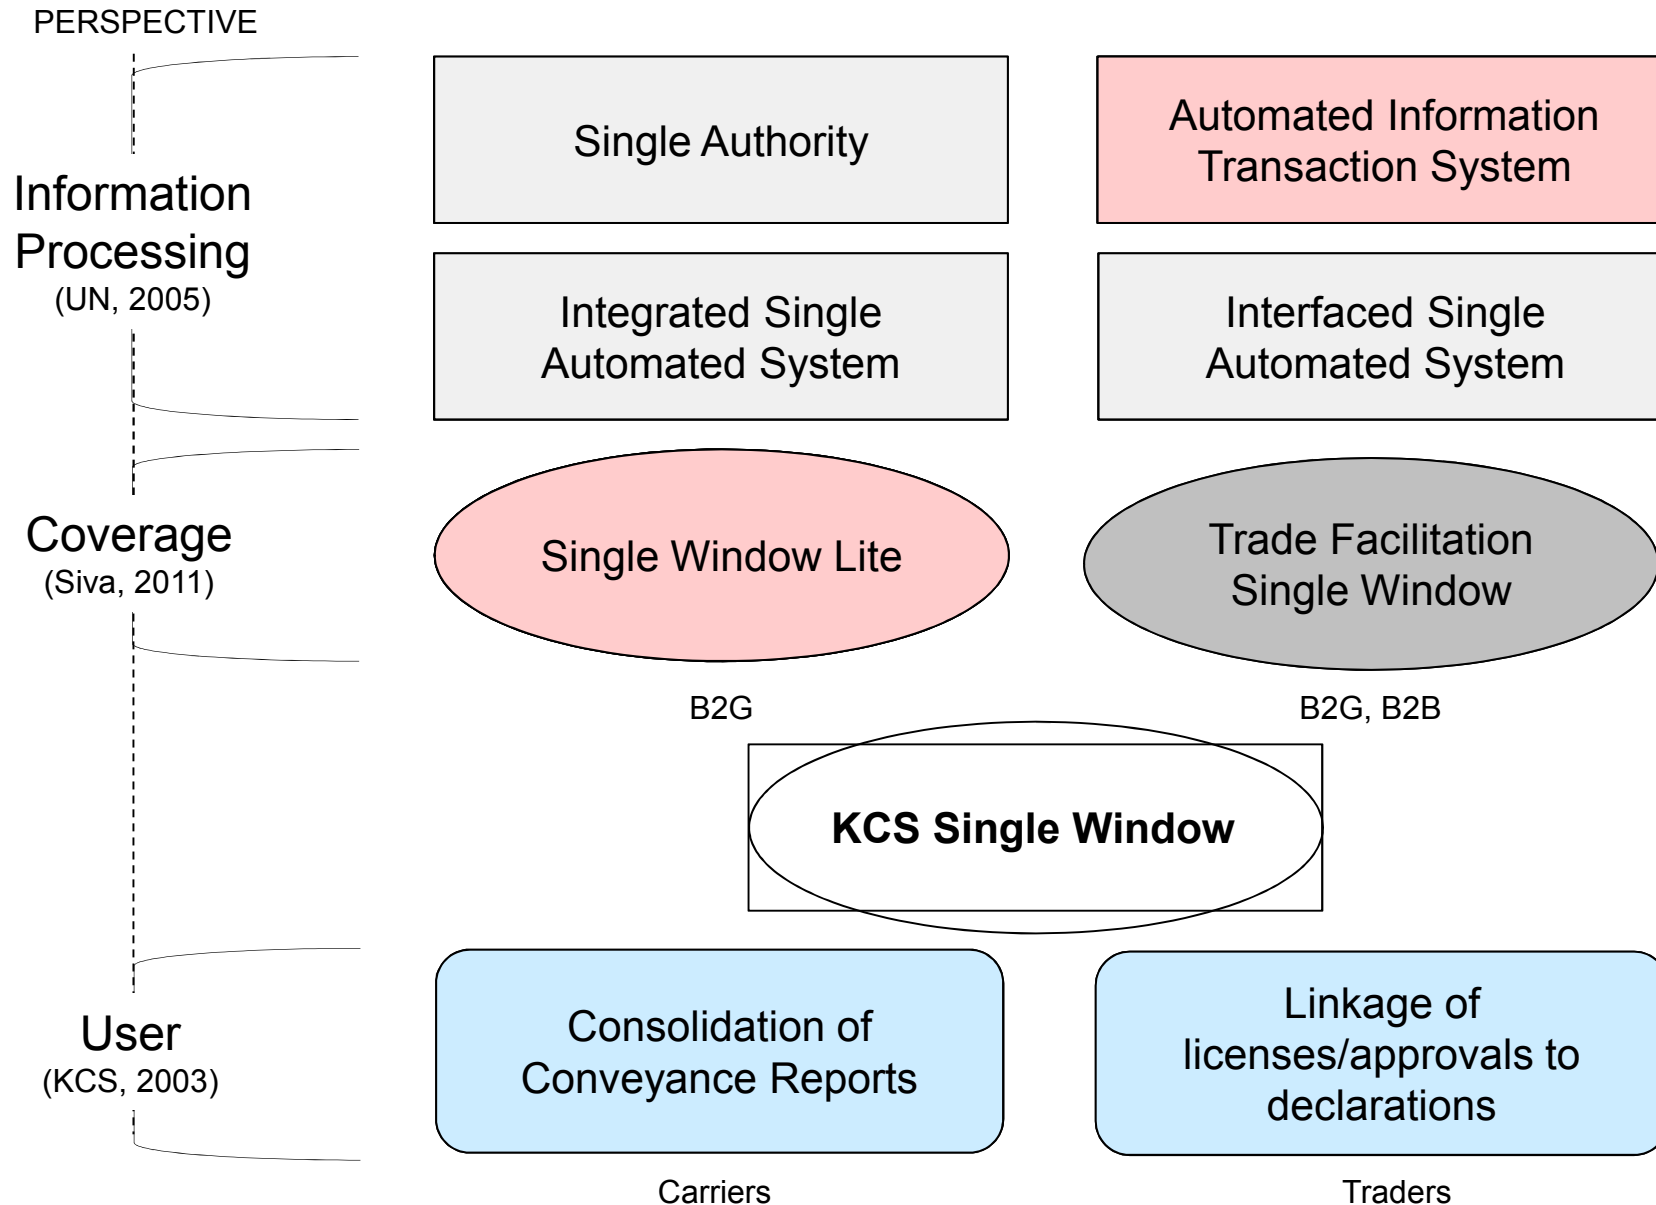

Development process
