

CLIMATE-SMART TRADE and INVESTMENT in ASIA and the PACIFIC

TOWARDS A TRIPLE-WIN OUTCOME

Edited by Ravi Ratnayake, Marc Proksch and Mia Mikic

ESCAP is the regional development arm of the United Nations and serves as the main economic and social development centre for the United Nations in Asia and the Pacific. Its mandate is to foster cooperation between its 53 members and 9 associate members. ESCAP provides the strategic link between global and country-level programmes and issues. It supports Governments of the region in consolidating regional positions and advocates regional approaches to meeting the region's unique socio-economic challenges in a globalizing world. The ESCAP office is located in Bangkok, Thailand. Please visit our website at www.unescap.org for further information.

The shaded areas of the map are ESCAP Members and Associate members.

CLIMATE-SMART TRADE and INVESTMENT in ASIA and the PACIFIC

ACKNOWLEDGEMENTS

This study was prepared under the substantive direction and guidance of Ravi Ratnayake, Director, Trade and Investment Division of the Economic and Social Commission for Asia and the Pacific (ESCAP). The core team of authors, led by Marc Proksch, comprised Mia Mikic, Marit Nilses and Jeffrey Crawford. As the principal consultant for this study Jeffrey Crawford also providing substantive inputs to all chapters. Marc Proksch was the principal author of chapter 1 and most of Part II. Mia Mikic wrote parts of chapters 2 and 3 with inputs from Jeffrey Crawford and Marc Proksch. Dinda Soumyananda, Martin Wermelinger, Somesh Kumar Mathur and Witada Anukoonwattaka contributed inputs to statistics and the analysis in chapter 3. Marit Nilses and Jeffrey Crawford wrote chapter 4 with inputs from Marc Proksch. The sectoral analysis was undertaken by Masato Abe (automobile industry), Chang-Gil Kim (agriculture) and Philip Lawrence (pulp and paper). Yann Duval provided inputs on cap-and-trading systems. Mr. Krishnamurthy Ramanathan, Head of the Asian and Pacific Centre for Transfer of Technology (APCTT), was the principal author of chapter 10. Yoong Yoong Lee provided substantive inputs on individual country's climate-smart policies and measures. Deanna Morris and Lina Mjornheim assisted with the preparation of selected figures and updating of data. Shamika Sirimanne provided guidance on the overall structure and outline of the study. The study benefited from valuable comments received from Mr. Masakazu Ichimura, Chief, Environment and Development Policy Section, Environment and Development Division of ESCAP, and his staff.

The study benefited from a review of the issues by experts during the Regional Symposium on Low Carbon Economy: Trade, Investment and Climate Change, which was held on 13 and 14 October 2010 in Bali, Indonesia. Joong-Wan Cho, who organized this Symposium on behalf of TID, provided some useful inputs to Part I of the study. The Symposium was attended by the following experts: A.K.M. Nazrul Islam, Research Fellow, Centre for Policy Dialogue, Bangladesh; Xian Weiyl, First Secretary, Department of International Organizations and Conference, Ministry of Foreign Affairs, China; Hu Tao, Senior Environmental Economist, Policy Research Centre of Ministry of Environmental Protection, China; Agrim Kaushal, Director, Ministry of Environment and Forest, India; Rajinder Kumar, Deputy Director, Department of Commerce, India; Sulistyowati, Director for Climate Change Impact Control, Ministry of Environment, Indonesia; Sulistianingsih Sarassetawaty, Head of Sub-Division for Economic Instrument, Ministry of Environment, Indonesia; Kasan Muhri, Director, Centre for Foreign Trade Policy, Ministry of Trade, Indonesia; Irma Rubina Sianipar, Staff, Directorate of Multilateral Cooperation, Ministry of Trade, Indonesia; Yermek Smagulov, Head of the Department, Kazakh Research Institute of Ecology and Climate, Seifullina, Kazakhstan; Aidar Zhiyenbekov, National Expert, Kazakh Research Institute of Ecology and Climate, Kazakhstan; Dayang Nor Izan Abang Halil, Principal Assistant Director, Environment and Natural Resource Economics Section, Economic Planning Unit, Malaysia; Jazzie Di S. Dela Cruz, Economic Development Specialist, National Economic and Development Authority, Philippines; Sang In Kang, Head, The Green Growth Research Centre, National Research Councils for Economics, Humanities and Social Science, Republic of Korea; Geraldyn Lim, Deputy Director, International

Negotiation Division, Ministry of Trade and Industry, Singapore; Siti Aishah Mohamed, Assistant Director, International Trade Cluster, Ministry of Trade and Industry, Singapore; Wannakuwatta Waduge S.A. Piyadasa, Commercial Research Assistant, Department of Commerce, Sri Lanka; Srirat Rastapana, Director-General, Department of Trade Negotiation, Ministry of Commerce, Thailand; Pathkamol Dattibongs, Trade Officer, Department of Trade Negotiation, Ministry of Commerce, Thailand; Angkana Chalermpong, Environmental Official, Office of Natural Resources and Environmental Policy and Planning, Thailand; Niramon Sutummakid, Associate Professor, Faculty of Economics, Thammasat University, Bangkok, Thailand; Pham Hoai Linh, Ministry of Industry and Trade, International Cooperation Department, Viet Nam; and Tam Van Hoang, Deputy Director, Environmental Department Management, Industrial Safety Techniques and Environment Agency, Ministry of Industry and Trade, Viet Nam.

The symposium benefited from inputs by the following resource persons: Truong Phouc Truong, Honorary Professor in Sustainable Transport Systems, Institute of Transport and Logistics Studies, Faculty of Economics and Business, University of Sydney, Australia; Philip Lawrence, Managing Director, Eco Logical Strategies, Sydney, Australia; Alexander C. Chandra, South-East Asia Coordinator, Trade Knowledge Network, IISD, Indonesia; Joy A. Kim, former Climate Policy Analyst, OECD Environment Directorate, Paris; and Chang-Gil Kim, Senior Research Fellow, Korea Rural Economic Institute, Seoul.

This study was externally edited by Mr. Robert Oliver. Marc Proksch provided editorial support to the whole study. The ESCAP Editorial Unit carried out a comprehensive spot-check of the study. Financial support for preparation of some inputs to the study under the project “Development of a low carbon green growth roadmap for East Asia and organization of the 2nd East Asia Climate Forum” sponsored by the Republic of Korea is acknowledged with appreciation.

Executive summary	1
Introduction	17

PART I

TRADE, INVESTMENT AND CLIMATE CHANGE: AN OVERVIEW OF ISSUES, CONCEPTS, LINKAGES AND TRENDS

Chapter 1. Trade and investment-related greenhouse gas emissions: overview of linkages, current issues and concerns	27
A. Trade, investment and climate change	27
B. Addressing the concerns of developing countries	33
C. Towards a 3W outcome	35
Chapter 2. Trade, investment and climate change: evidence from the region and future scenarios	37
A. Global and regional greenhouse gas emissions: an overview	37
B. Assessing emissions associated with trade	44
C. Consequences of “business as usual”: the impact of climate change on trade and investment	49
D. Consequences of “business as usual”: forecasting future emission scenarios	54
E. Conclusion	57
Annex	58
Chapter 3. Trade in climate-smart goods and technologies: trends and opportunities	63
Introduction	63
A. Trends in trade in climate-smart goods and technologies	63
B. Special focus: trade in climate-smart energy technologies	68
C. Gauging trade opportunities in climate-smart goods and technologies	75
Annexes	84

Chapter 4. Investment in climate-smart goods and technologies:

trends and opportunities 95

Introduction 95

A. Trends in investment in renewable energy 96

B. Special focus: a closer look at investment trends in selected climate-smart technologies 102

C. Gauging future investment needs 110

D. Quick action makes economic sense 120

E. Opportunities and challenges for business 123

F. Conclusion 126

References (Part I) 128

PART II

**COHESIVE AND COHERENT CLIMATE-SMART
TRADE AND INVESTMENT POLICIES**

Chapter 5. Setting the scene: general policy framework for promoting climate-smart trade and investment 139

Introduction 139

A. General climate change mitigation policies affecting trade and investment 140

B. Trade policies 146

C. Investment policies 147

D. Financial policies in support of climate-smart trade and investment 147

E. Renewable energy, renewable energy technology and related industrial policies 148

F. Enterprise development policies 151

G. Regional cooperation 151

H. Conclusion 152
