

Role of Telecentres/Knowledge Hubs in Disaster Risk Reduction – An Example From Philippine Experience

Maria Teresa M. Camba
Commission on ICT - Philippines

On September
2009, the
Philippines was hit
by 2 powerful
storms

Ketsana dropped
455 mm
of rain on Metro
Manila in a span
of 24 hours -
the **most in 42**
years.

They caused total
damage of \$4.38
billion

-World Bank

\$2.34 billion in
damage to
business sector

-World Bank

956 people **dead**

Ketsana and
Parma left
death and
disaster
in their wake.

And it made us **ask**
many questions
