

WSIS Action Lines C2, C5 & C6: Communication Infrastructure, Security & Enabling Environment

Presented at the

**Expert Group Meeting on Regional Cooperation
Towards Building an Information Society in
Asia and the Pacific**

Bangkok, Thailand
20-22 July 2009

ITU Regional Office for Asia and Pacific
Bangkok, Thailand

OVERVIEW

- The implementation of the outcomes of the World Summit on the Information Society (WSIS) is one of the top priorities of the ITU Secretary-General.
- WSIS 2005 identified ITU as the moderator/facilitator for action lines:
 - C2 - Information and communication infrastructure
 - C5 - Building confidence and security in the use of ICTs
 - C6 - Enabling environment (as from May 2008)
- Co-facilitator of Action Lines C1, C3, C4, C7 and C11.
- Host and convener of the **WSIS Forum 2009**, in its role of leading facilitating organization for WSIS Implementation and Follow-up
- Chair/Co-Chair of the **United Nations Group on the Information Society** (last meeting held in May 2009)

OVERVIEW

- World Telecommunication Development Conference (WTDC) adopted Resolution 30 (Doha, 2006) on the Role of the Telecommunication Development Sector in implementing the outcomes of the WSIS that recognizes ITU-D as a key partner in the implementation of the WSIS outcomes.
- Antalya Plenipotentiary Conference (PP-06) in Resolution 140 (Antalya, 2006), reiterated ITU's role as facilitator/moderator and co-facilitator in the implementation of WSIS action lines.
- ITU Council, in its Resolution 1282 instructed the ITU Secretary General to develop a roadmap for ITU's activities within its mandate in the WSIS implementation up to 2015 with special emphasis on Action Lines whereby ITU is the lead facilitator.

ITU & C2: Communication Infrastructure

Committed to connecting the world

- Paragraph 9 of the Geneva Plan of Action defines specific actions to be implemented under Action Line C2 and highlights infrastructure as being central in achieving the goal of digital inclusion, enabling universal, sustainable, ubiquitous and affordable access to ICTs by all.
- Facilitation meeting held 19 May 2009 in Geneva
- In line with the Geneva Plan of Action, ITU has undertaken:
 - The harmonization of ICT policies in three regions (Sub-Saharan countries, Caribbean countries and Pacific Island States);
 - Ministerial Forums such as:
 - Pacific ICT Ministerial Forum in Tonga, 17-20 February 2009
 - Subregional Telecommunication Ministerial Forum for Cambodia, Lao PDR, Myanmar and Vietnam (CLMV) in Vietnam, 11-12 December 2009
 - TELECOM Asia in Bangkok, Thailand 2-5 September 2008
 - Programs implementing approximately [50] activities in 2008 and around [87] activities have been planned for year 2009;
 - The launch of a virtual space dedicated to the thematic ICT infrastructure initiatives;
 - Capacity-Building Activities on ICT Policies in the Pacific Islands;
 - Regional project on ICT Applications and Satellite Diversity in the Pacific Islands States, among others.

ITU-D: Connect the World Initiative

Committed to connecting the world

- Launched by ITU in 2005.
- **Connect Africa Summit** organized by ITU with global and regional partners in 2007 as the first of a series of Connect the World.
- A total of \$55 Billion, committed by stakeholders mostly industry, towards the expansion of ICT networks over the next five years.
- Built on the success of the Connect Africa, ITU with potential donors and partners, will replicate the approach in each region. The next Summit, **Connect CIS** will take place in November 2009 in Minsk, Belarus.

Flagship Initiatives

ITU Wireless Broadband Partnership

Expected Outcomes

- Deployment of wireless broadband infrastructure (backbone and access networks) for identified areas;
- Development of a national ICT broadband network plan for entire territory of beneficiary countries;
- Training of local experts on the operation of the deployed wireless communication network;
- Development of ICT applications and services that improve public services and create opportunities for sustainable economic growth and employment; and,
- Provision of low cost devices to expand ICT access, starting with laptops for school children in least developed countries as part of a Connecting Children campaign.

Flagship Initiatives

Connecting Villages

Expected Outcomes

- Establishment of several trial sites to provide proof of concept, shortly following the project launch;
- Improvement of policy and regulation to accelerate the development of rural communications and provide business opportunities for local entrepreneurs;
- Development of locally-relevant mobile applications and content; and
- Extensive roll out of rural communications in selected countries, following successful trial results.

Partnerships

, Connect a Community

Committed to connecting the world

Outcomes

to compile best practices used by policy makers and to connect schools to internet networks and an online Toolkit;

to raise political awareness among education policy makers and regulators in the development of policies and strategies to connect community ICT centres;

to encourage Member States in developing national connectivity plans and implementing them;

to support capacity building through regional training using connected schools as community hubs for vulnerable and disadvantaged groups.
