

Economic and Social Commission for Asia and the Pacific

DISCUSSION PAPER

HIV and AIDS  
in Asia and the Pacific:  
A review of progress  
towards  
Universal Access

ESCAP is the regional development arm of the United Nations and serves as the main economic and social development centre for the United Nations in Asia and the Pacific. Its mandate is to foster cooperation between its 53 members and 9 associate members. ESCAP provides the strategic link between global and country-level programmes and issues. It supports the governments of the region in consolidating regional positions and advocates regional approaches to meeting the region's unique socio-economic challenges in a globalizing world. The ESCAP office is located in Bangkok, Thailand. Please visit our website at <<http://www.unescap.org>> for further information.

The white area of the map represents the members and associate members of ESCAP

## Acknowledgements

This study was prepared by Bruce Ravesloot and reviewed by a UNAIDS team (JVR Prasada Rao, Kah-Sin Cho and Sun Gang) and a UNESCAP team (Thelma Kay, Guennady Fedorov, Marco Roncarati and Yu Kanosue). The participants at the Expert Group Meeting on “Progress on International Commitments to Combat HIV/AIDS in the Asian and Pacific Region” also reviewed the study. Their comments were incorporated into the final version. Acknowledgements are also made to the Members and Secretariat of the Commission on AIDS in Asia, who prepared the report *Redefining AIDS in Asia: Crafting an Effective Response*, launched on 26 March 2008, on which much of the analysis and recommendations in this synthesis report are based; and the Asia Pacific Council of AIDS Service Organizations for making available their data and analysis on progress in the region.
